patterns can be woven for those of us who worked on this project One World goes beyond the everyday notion of the globe as
a physical geographic entity Rather we understand it as a universal idea one that transcends national boundaries to comment
on the most prevailing aspects of the human condition This attempt to redefine the borders of the world we live in through
the short story recognizes the many conflicting issues of race language economy gender and ethnicity which separate and
limit us We readily acknowledge however that regardless of our differences or the disparities in our stories we are united by
our humanity We invite the reader on a personal journey across continents countries cultures and landscapes to reflect on
these beautiful at times chaotic renditions on the human experience We hope the reach of this path will transcend the
borders of each story and perhaps function as an agent of change Welcome to our world
