No We Cant Radical Islam Militant Secularism And The Myth Of Coexistence:

No, We Can't Robert Stearns, 2011-10 Three worldviews are competing for world dominance on the world's stage militant secularism radicalized Islam and Judeo Christianity Which will prevail and what should believers do *One in Christ* David D. Ireland, 2018-03-26 David Ireland's new book distills over thirty years of experience into a practical guide for others to use If you feel God is calling you to unite rather than divide *One in Christ* is for you Luis Palau international evangelist Each time I have had the pleasure of spending time with Dr David Ireland I have gained insight into the depth of God's Word a trait I have found in only a handful of others Kurt Warner NFL Hall of Fame quarterback David Ireland pastor of a multiracial megachurch in New Jersey and diversity consultant to the NBA equips Christians to usher in a new era of racial reconciliation in *One in Christ* Racial disharmony is tearing communities apart both inside and outside the church But Jesus Christ is and was a great reconciler Warmth regard and respect emanated from His person toward others all others Part of this allure was the fact Jesus was comfortable in His skin This made others who approached Him comfortable in their skin This quality fuels the deconstruction of walls the tearing down of barriers that keep us apart In *One in Christ* Ireland shows us that this quality can be learned In fact at the cellular structure of Christianity is the ability to be cross cultural The Great Commission proclaims it Jesus said Therefore go and make disciples of all nations Matthew 28:19 The word nation is the Greek word *ethnos* where we derive the English word ethnic In essence the last charge Jesus gave was for His followers to become cross cultural ambassadors This is not optional Ireland says We must each become racially accommodating

Beyond Radical Secularism Pierre Manent, 2016 This is the book that took France by storm upon its publication in the fall of 2015 It was praised by some for its rare combination of tough mindedness and moderation and attacked by others for suggesting that radical secularism could not provide the political and spiritual resources to address the Islamic challenge The book is even more relevant after the Parisian terror attacks of November 13 2015 It is a book that combines permanence and relevance that addresses a pressing political and civilizational problem in a manner that will endure Responding to the brutal terror attacks in France in January 2015 Pierre Manent has written a learned passionate essay that reflects broadly and deeply on the political and religious situation of France and Europe He freely acknowledges that the West is at war with fanatics who despise liberal and Christian civilization That war must be conducted with prudent tough mindedness At the same time serious thought must be given to the Islamic question at home and abroad Concentrating on the French situation Manent suggests that French Muslims are not entering an empty nation defined by radical secularism and human rights alone France has a secular state as do all the nations of the contemporary West That is a heritage to be cherished But the Islamic question will not be solved by transforming Muslims into modern secularists devoid of all religious sensibility It must be remembered that France is also nation of a Christian mark with a strong Jewish presence both of which enrich its spiritual and political life Manent proposes a social contract with France's Muslims that is at once firm and welcoming Rejecting

radical secularism the effort by certain laicists to completely secularize European society to create a society without religion Manent calls for a defensive policy that will allow Muslims to keep their mores save the integral veil and polygamy In exchange they must accept the fact that they live in a society of a Christian mark and they must stop hiding behind charges of Islamophobia In liberal and Christian Europe there must be total freedom of criticism including criticism of the Islamic religion Muslims must forgo funding from Arab Islamic states not to mention extremist movements and must recognize they are henceforth participants in the common life of the French nation They must become citizens in a nation that does more than defend individual or communal rights as crucial as those rights are Beyond Radical Secularism also provides a luminous reflection on the necessary coexistence of the liberal state and a nation of a Jewish and Christian mark in a Western liberty worthy of the name Europeans have succumbed to passivity in no small part because they reject the nation which is the indispensable framework of democratic self government They no longer have confidence in human action in the elemental human capacity to put reasons and actions in common That faith in individual and collective action ultimately depends on belief in the primacy of the Good or in theological terms in faith in a benevolent and Providential God The West at its best combined the pride of the citizen and the humility of the believer Europeans and Americans too governed themselves in a certain relation to the Christian proposition The nation was the instrument par excellence for combining the cardinal virtues courage prudence justice moderation and the confidence which is specific to the Christian religion A capacious sense of Europe and the West one that acknowledges its Christian and Jewish mark is ultimately necessary to face the Islamic challenge The Jewish idea of the Covenant provides a powerful reminder of the ultimate ground of democratic self government and of deliberation and action that respect limits while acknowledging the full range of human possibilities in a world where the good is not ultimately without transcendent support Only by recovering something of the European faith in a higher ground of freedom will the nations of Europe be able to muster the realism and the hope necessary meet the challenge of Islam
