JOHN STOSSEL

A man with a mustache, wearing a light blue dress shirt and a red tie with white polka dots, is holding a large white sign. He is standing in front of a blurred background of a large, classical building with columns, likely the U.S. Capitol. The sign has the word "NO" in large red letters, followed by "THEY CAN'T" in large blue letters, and a paragraph of text at the bottom in black and red letters.

No They Cant Why Government Fails But Individuals Succeed:

No, They Can't John Stossel, 2012-04-10 The government is not a neutral arbiter of truth It never has been It never will be Doubt everything John Stossel does A self described skeptic he has dismantled society s sacred cows with unerring common sense Now he debunks the most sacred of them all our intuition and belief that government can solve our problems In *No They Can t* the New York Times bestselling author and Fox News commentator insists that we discard that idea of the perfect government left or right and retrain our brain to look only at the facts to rethink our lives as independent individuals and fast With characteristic tenacity John Stossel outlines and exposes the fallacies and facts of the most pressing issues of today s social and political climate and shows how our intuitions about them are frankly wrong the unreliable marriage between big business the media and unions the myth of tax breaks and the ignorance of their advocates why central planners never create more jobs and how government never really will why free trade works without government Interference federal regulations and the trouble they create for consumers the harm caused to the disabled by government protection of the disabled the problems social and economic generated by minimum wage laws the destructive daydreams of health insurance for everyone bad food vs good food and the government s intrusive unwelcome nanny sensibilities the dumbing down of public education and teachers unions how gun control actually increases crime and more myth busting realities of why the American people must wrest our lives back from a government stranglehold Stossel also reveals how his unyielding desire to educate the public with the truth caused an irreparable rift with ABC nobody wanted to hear the point by point facts of ObamaCare and why he left his long running stint for a new uncensored forum with Fox He lays out his ideas for education innovation as well and finally makes it perfectly clear why government action is the least effective and desirable fantasy to hang on to As Stossel says It s not about electing the right people It s about narrowing responsibilities *No They Can t* is an irrefutable first step toward that goal

journalist John Stossel shows how the expansion of government control is destructive for American society Focus On: 100 Most Popular American Agnostics Wikipedia contributors, Jobs - Apprentice 101 Arthur W. Hoffmann Ed D. P. E., Arthur W. Hoffmann, 2012-06 Jobs An American Solution is a specific jobs creation idea that would be initiated by businesses and individual entrepreneurs and based on an apprenticeship approach It is a self help program that is intended to expedite the creation of good paying skilled and professional jobs It is not a government regulated apprenticeship similar to those that are common in European or Asian countries This Apprentice 101 program is a voluntary unstructured jobs initiative by private individuals small or large businesses trade organizations unions municipalities etc The basic motivation for a business or entrepreneur is a generous tax credit for every apprentice candidate they hire sponsor and train This is not a government hand out but an investment in America and its citizens that promises to be extraordinary Researchers at Columbia University and the City University of New York found that for each unemployed youth someone between the ages of 16 and 24 who is in neither work or school costs taxpayers nearly 14 000 dollars per year in direct costs for things like medical bills and government aid while ultimately creating a social burden of more than 37 000 dollars annually when accounting for the costs of crime and lost tax revenue Jobs are the life blood of our economy They create wealth in exchange for services rendered that increase and improve our way of life Current unemployment and under employment is especially high The many jobless people in America are losing hope of an economic recovery Our politicians Republicans and Democrats respond with contrasting solutions that focus only on taxes and spending Our large cities and communities are especially in need of real good jobs if we are to succeed in fighting poverty We need to encourage our more fortunate citizens to provide job opportunities for the less fortunate Our young people need mentors and assurance of employment for high school graduates

The American Enterprise Manifesto Jerry Rhoads, 2013-07-10 The people of the United States of America take back their sovereignty and reclaim their right to have a say in the policies and conduct of the government The Author offers a third party alternative for those enterprising Americans who pay for the public sector and do not currently have fair representation or input to the system that has caused many fiscal social and foreign relation problems that face this nation of 313 million citizens It is not entitlement reform that we need but rather government reform Any tax reform should eliminate taxes on adjusted taxable income and replace it with a flat 5 percent annual capital assessment on individual and corporate net worth The new entitlements are eroding the American work ethic and need to be replaced with real private sector jobs that create a true return on our gross national product The American Dream is built on work ethic The will to work in a free market is inherited from their forefathers but sustained by each of them While our country is on the verge of bankruptcy Congress and State Legislatures enacted over 40 000 new laws in 2010 costing 250 billion borrowed dollars we dont have plus 700 billion in stimulus 1 2 trillion for Obama Care and turned on the Federal Reserve printing presses for another 1 trillion for enforcement unfunded public service pensions salary raises for themselves and the bureaucrats To make things worse the

Federal and State Governments understate their deficits by using the cash basis of accounting For example the Federal deficit is 123 trillion after factoring in accounts payable and pension debt These pension systems are extraordinarily diverse in design investment policy and governance and they face substantial challenges as the government sector workforce ages and governments are asked to take on new and different tasks The new entitlements need a major overhaul To avoid depriving enterprise of much needed capital to create jobs we need to reduce American workers dependency on unemployment benefits minimum wage workers compensation food stamps welfare and Obama Care Obama Care will use enforcement agencies for collecting taxes and waste depleted tax revenues treating illness not pursuing wellness

Distributive Justice Debates in Political and Social Thought Camilla Boisen, Matthew C. Murray, 2015-10-23 Who has what and why in our societies is a pressing issue that has prompted explanation and exposition by philosophers politicians and jurists for as long as societies and intellectuals have existed It is a primary issue for a society to tackle this and these answers have been diverse This collection of essays approaches some of these questions and answers to shed light on neglected approaches to issues of distribution and how these issues have been dealt with historically socially conceptually and practically The volume moves away from the more dominating and traditionally cast understandings of distributive justice and shows novel and unique ways to approach distributive issues and how these can help enlighten our course of action and thought today by creating new pathways of understanding The editors and contributors challenge readers by exploring the role and importance of restorative justice within distributive justice exploring the long shadow of practices of trusteeship and concepts of social and individual rights and obligations in welfare and economic systems social protection provision schemes egalitarian practices and post colonial African political thought *Distributive Justice Debates in Political and Social Thought* empowers the reader to cast a more critical and historically complete light on the idea of a fair share and the implications it has on societies and the individuals who comprise them *Yes, We Are Stupid in America!* Dr. Vicky Wells, 2013-01-21 Students in countries such as Finland South Korea and Singapore continue to outperform their peers in America But that hasn't stopped the United States government from spending more money on education as achievement plummets Dr Vicky Wells a former school principal explores what's going on at the federal state and local levels so that members of the public can hold bureaucrats accountable In a series of reality checks she explains how to meet the growing crisis head on equip students with the necessary skills upon graduation make decisions based upon the input of real life educators and ignore politics in order to best serve students Teachers and parents trust leaders to make decisions based on what's best for the students Even so all too often decision making seems to be more about politics and quid pro quo and this does not best serve students educators or the community The educational system continues to decline and students keep dropping out or graduating without the knowledge they need to succeed Its time to stop constantly changing curriculum and start focusing on the real problems confronting teachers and students The Moral Case for Profit Maximization Robert

White,2020-04-01 The Moral Case for Profit Maximization argues that profit maximization is moral when businessmen seek to maximize profit by creating goods or services that are of objective value Traditionally profit maximization has been defended on economic grounds Profit economists argue incentivizes businessmen to produce goods and services In this view businessmen do not need to be virtuous as long as they deliver the goods It challenges the traditional defense of profit maximization arguing that profit maximization is morally ambitious because it requires businessmen to form normative abstractions and to cultivate a virtuous character In so doing the author also challenges the moral basis of corporate social responsibility Proponents of CSR argue that businessmen can do good while doing well This book argues that businessmen already do good by maximizing profit drawing upon the histories of the wheel the refrigerator and the shipping container as well as the biographies of J P Morgan John D Rockefeller and Thomas Edison to demonstrate the role of values in the creation of material goods and the role of the virtues in value creation The author challenges readers to rethink the relationship between profit value and virtue

Responding to the Right Nathan J. Robinson,2023-02-14 The editor of Current Affairs artfully and efficiently debunks a series of common right wing arguments Are taxes theft Is abortion murder Does regulation destroy jobs Is white privilege a lie Conservative talking points are everywhere and through well funded media like Fox News Breitbart and YouTube s Prager University the right has an impressive record of packaging its views for a general audience Clearly the left needs to do a better job of fighting back Luckily Current Affairs editor Nathan J Robinson has developed a reputation as a meticulous slayer of irrational and bigoted arguments He has tangled with the likes of Ben Shapiro Jordan Peterson and Charles Murray exposing their flimsy logic and distorted facts with forensic thoroughness and savage wit In Responding to the Right Robinson blasts right wing nonsense with devastating intellectual weaponry revealing how everyone from Ann Coulter to the National Review uses fear and lies to manipulate the public He gives a detailed explanation of how conservative arguments work and why we need to resist them then goes through twenty five separate talking points showing precisely why each one fails This essential handbook is a stimulating source of issues to debate and a comprehensive challenge to dozens of dominant orthodoxies It sets a new standard for leftist critique and would be an invaluable addition to the arsenals of the millions of progressives fighting the political battles of our age
