Breaking the Silence Ellen Grünkemeier, 2013 South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices

modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus

gesture that expresses one regret over an offense fault or accident caused to another The gesture includes an admission that harm was caused to the other person or group and a sincere promise that the act will not happen again As a means to illustrate how a genuine apology can be presented to an offended person or group six cases are revisited and rewritten in different statements to make the gestures more authentic Obviously there are different views on apologizing for harm caused to others Several distinguished individuals were interviewed to ascertain their perceptions on apology and apologizing for harm caused to another person or group

Making Chastity Sexy Christine J. Gardner, 2011-07-28 Even though they are immersed in sex saturated society millions of teens are pledging to remain virgins until their wedding night How are evangelical Christians persuading young people to wait until marriage Christine J Gardner looks closely at the language of the chastity movement and discovers a savvy campaign that uses sex to sell abstinence Drawing from interviews with evangelical leaders and teenagers she examines the strategy to shift from a negative just say no approach to a positive one just say yes to great sex within marriage Making Chastity Sexy sheds new light on an abstinence campaign that has successfully recast a traditionally feminist idea my body my choice into a powerful message but one that Gardner suggests may ultimately reduce evangelicalism s transformative power Focusing on the United States her study also includes a comparative dimension by examining the export of this evangelical agenda to sub Saharan Africa
