No Destination Satish Kumar, 2014 Written with a penetrating simplicity *No Destination* is an exhilarating account of an extraordinary life When he was only nine years old Satish Kumar renounced the world and joined the wandering brotherhood of Jain monks Dissuaded from this path by an inner voice at the age of 18 he became a campaigner for land reform working to turn Gandhi's vision of a renewed India into reality Fired by the example of Bertrand Russell he undertook an 8 000 mile peace pilgrimage walking from India to America without any money through mountains deserts storms and snow It was an adventure during which he was thrown into jail in France faced a loaded gun in America and delivered packets of peace tea to the leaders of the four nuclear powers In 1973 he settled in England taking on the editorship of *Resurgence* magazine and becoming the guiding light behind a number of ecological spiritual and educational ventures Following Indian tradition in his 50th year he undertook another pilgrimage again without any money he walked to the holy places of Britain Glastonbury Lindisfarne and Iona All of this and more is recounted in this fascinating autobiography The new hardback fourth edition is published in 2014 to commemorate 25 years since the foundation of Schumacher College with new chapters about the college and to bring Satish's story up to date *No Destination* Satish Kumar, 2003 This Autobiography Tells The

lends itself to renewed and indepth interpretations Finally the reader will observe the constant renewal of Jainism as some new literary genre or a new sect are seen to have gained momentum in modern times **Gist** Lindsay Clarke,2012-08-17

What do we mean by the word imagination Does it just refer to our powers of invention and ingenuity or might it have a larger visionary scope and purpose Might it be vital to a vital life What about the creative process itself how does it work in what circumstances does it flourish and what conditions hinder or repress its activity These and related themes are explored often in unexpected and provocative ways in this inspirational collection of essays poems and reflections The book takes its title from the opening essay The Gist of Arvon in which John Moat reflects with characteristic humanity vigour and wit on the wider implications of the original vision and sense of purpose which he shared with his close friend the late John Fairfax when they set up the Arvon Foundation together more than forty years ago John s piece is followed by those of the contributing authors who approach the issues from a stimulating variety of perspectives Thus amongst other lively contributions Seamus Heaney writes about the inspirational nature of haunting encounters Alice Oswald reveals a poet s imagination in full flight across pages from her work book Carol Ann Duffy contributes poems she wrote while tutoring at Arvon Centres and there are freshly written pieces by novelists such as Andrew Miller Adam Thorpe and Maggie Gee while Jules Cashford Linda Proud and Patrick Harpur offer mythological and philosophical insights on the book s themes The book has a Foreword by Andrew Motion and reprints a fascinating essay in which Ted Hughes gave thought to the important educational significance of the work done at Arvon s Centres Through its celebration of the imagination The Gist seeks to bring encouragement and inspiration to anyone whose pulses are quickened by the urge to live a creative life *The Wonderbox* Roman Krznaric,2011-12-22

There are many ways to try to improve our lives we can turn to the wisdom of philosophers the teachings of religions or the latest experiments of psychologists But we rarely to look to history for inspiration and when we do it can be surprisingly powerful Showing the lessons that can be learned from the past cultural historian Roman Krznaric explores twelve universal topics from work and love to money and creativity and reveals the wisdom that we ve been missing There is much to be learned from Ancient Greece on relationships from the industrial revolution on job satisfaction and from Ming dynasty China on bringing up our children Just as a Renaissance Wunderkammer was a curiosity cabinet full of fascinating objects each with a story behind it The Wonderbox is full of stories and ideas from history each of which sheds invaluable light on the decisions we make every day whether we think about the different uses of the senses or changing attitudes to time History is usually read for pleasure or for insight into current affairs but The Wonderbox stepping into the territory of Alain de Botton and Theodore Zeldin is practical history using the past to think about our day to day lives *Small World, Big Ideas* Satish Kumar,2022-03-01

Small World Big Ideas collects twelve of the most inspiring and courageous activists together to share their stories and present an inspiring vision of what each of us can do to build a better world today There s an activist in all of us and you don t have to shout about it to be heard

And to prove it life long campaigner and former Jain monk Satish Kumar has invited twelve of those activists he most admires to share their own inspiring stories in *Small World Big Ideas* revealing some for the very first time who or what made them want to change the world and what kind of world they want to help create This book collects the thoughts hopes and visions of some of the most significant figures in the global fight for a better and more compassionate world As well as Satish Kumar we hear from Deepak Chopra The mind body healing pioneer discusses his journey from growing up in post war India to learning about Ayurvedic medicine to his current work promoting spiritual knowledge and working for world peace Jane Goodall The renowned scientist and conservationist tells of the people who have inspired her in her work to protect animals and the reasons she has for hope in the future Franny Armstrong The McLibel filmmaker writes about her politicisation as a teenager her involvement with the Greenpeace movement and the next steps in the fight against climate change Bob Brown The Australian Green politician shares stories from his time as an ecologist and lawmaker and his belief in how democracy can be used to bring people together to fight the looming crises facing Planet Earth Tim Flannery The explorer and ecologist tells of watching the ecosystems around him disappear his travels to remote areas around the world and how the only hope for our future lies in connecting with others to act together Polly Higgins The late environmental lawyer discusses how the concept of Earth Law and how she came to fight for ecocide to be recognised as a crime against humanity Caroline Lucas England's only Green MP Lucas writes about how she has fought all her life to change the political system and how radical change is always possible Bill McKibben The writer and activist discusses moving from writing to political campaigning and how he founded 350.org the global grass roots organization that works to halt and reverse climate change Carlo Petrini The slow food advocate tells of growing up in Piedmont and of how we can change the world by putting food back at the centre of our lives Vandana Shiva The ecofeminist discusses how the multiple crises which she has fought climate change misogyny and inequality are all interlinked and how our response must be similarly all encompassing Whether they have championed the tragic plight of Indian farmers impoverished by the domination of the agro giants or shamed Hollywood into treating climate change as a serious concern these are the people who have made their voices heard Their illuminating and often moving life stories will inspire all of us to get off the couch and do something ourselves to help shape a better world

Soil, Soul, Society Satish Kumar, 2024-10-01 In the first US edition of Satish Kumar's classic book we rediscover how our spiritual and social well being connects to that of our planet Internationally respected peace and environment activist Satish Kumar has been gently setting the agenda for change for over 50 years As 350.org founder Bill McKibben says There is no one on the planet better equipped to make you think and rethink how you're living and how you might change The age of sustainability is grounded on the knowledge that we ourselves are very much part of nature that what we do to nature we in fact do to ourselves and that the earth has a soul which we share Drawing on the example of Rabindranath Tagore Kumar advocates living with awareness that our personal choices have political and poetic resonance In this book he inspires

readers with the knowledge we are all leaders and can create change in our structures and mindsets for lasting peace and a sustainable culture and society Celebrating an emerging global consciousness that reveres nature the book explores how as a global society we need to embrace diversity and be aware of our role as pilgrims on this earth Joyful and heart centered Satish Kumar reminds us that to bring about change in the world we must embody the change we wish to see *Networked Business Models in the Circular Economy* Nogalski, Bogdan,Szpitter, Agnieszka Anna,Jabłoński, Adam,Jabłoński, Marek,2019-09-27 Economic changes in a globalized world require businesses to create new management practices to remain competitive and successful While a network paradigm is a key management development the effective application of this paradigm in organizational practice is complicated by differing interpretations and approaches Therefore it is important to thoroughly understand the applicable factors and mechanisms to an efficacious business network *Networked Business Models in the Circular Economy* provides innovative insights into achieving synergy through the cooperation of many business partners and organizations and adapting operational strategies for the whole network While highlighting topics such as smart mobility digital solutions and green supply chain this publication is ideally designed for organizational managers entrepreneurs economists management scientists business analyzers financial consultants researchers and students seeking current research on the dynamical contributions required to achieve mutual growth
