Description :

No Cow Left Behind From investigative journalist and bestselling author John Robbins comes a collection of essays on food politics, sustainability, and revolution. Holy cow. With words like food additives, GMOs, and Big Food buzzing around, it's getting harder to choose what to eat. And even the most well-informed eaters have a thing or two to learn about real food and the food system. Gathering and updating articles from his Huffington Post column, Robbins's *No Happy Cows* features recent observations along with never before published material on today's food revolution. Moo-ve over, food corporations. You have to know food to eat food, but what happens when food companies leave some facts out? With commentaries on what we should and shouldn't eat (and why), Robbins brings us to the frontlines of the food revolution. From his undercover investigations of feedlots and slaughterhouses, to the slave trade behind chocolate and coffee, he gives readers a look into the importance of working for a more compassionate and environmentally responsible
