No Rising Tide Theology Economics And The Future:

No Rising Tide Joerg Rieger, 2011 No Rising Tide Joerg Rieger, 2009-09-24 Economics has always had a moral dimension even free market mascot Adam Smith was a Christian minister Yet recent events have renewed and recast theological reflection on the economy as the gospel of prosperity succumbs to large scale economic crisis In that light Joerg Rieger explores the many dimensions of today's economic crisis What are the fundamental shifts taking place in the global economy today and how are they affecting provision for basic human needs economic equity and people's prospects

Economy and Modern Christian Thought Devin Singh, 2022-03-28 *Economy and Modern Christian Thought* by Devin Singh presents key features of the engagement of Christian theology ethics and related disciplines with the market and economic concerns It surveys ways in which the dialogue has been approached and invites new models and frameworks for the conversation It contends that economy and Christian thought have long been interconnected and recounts aspects of this relationship and why it matters for how one might engage the economy ethically and theologically Finally it highlights a number of sites of emerging research that are in need of development in light of pressing social political economic and conceptual issues raised by modern life including money debt racial capital social reproduction corporations and cryptocurrency

Care of Souls, Care of Polis Ryan LaMothe, 2017-07-25 In the fields of pastoral care and pastoral theology there are times when a book signals a paradigm shift This is one such book LaMothe develops a political pastoral theology that is used to examine critically political economic and societal structures and practices In the first part of the book LaMothe argues that care and pastoral care are political concepts which along with the notion of justice can be used as a hermeneutical framework to assess macropolitical and macroeconomic realities Included in this section is the notion of civil and redemptive discourse necessary for the survival and flourishing of persons and polis The last section of the book examines U S Empire capitalism class classism and other pressing political issues using the hermeneutical lens of care

Assembling Futures Jennifer Quigley, Catherine Keller, 2024-08-20 Transdisciplinary insights at the intersection of religion democracy ecology and economy What is the relationship of religion to economy ecology and democracy In our fraught moment what critical questions of religion may help to assemble democratic processes ecosystems and economic structures differently What possible futures might emerge from transdisciplinary work across these traditionally siloed scholarly areas of interest The essays in *Assembling Futures* reflect scholarly conversations among historians political scientists theologians biblical studies scholars and scholars of religion that transgress disciplinary boundaries to consider urgent matters expressive of the values practices and questions that shape human existence Each essay recognizes urgent imbrications of the global economy multinational politics and the materiality of ecological entanglements in assembling still possible futures for the earth Precisely in their diversity of disciplinary starting points and ethical styles the essays that follow enact their intersectional forcefield even more vibrantly Render Unto God Ryan C. McIlhenny, 2015-09-18 The

Great Recession like most economic depressions has compelled many to reconsider not only the consequences but also the very nature of contemporary global capitalism Sadly very little critical reflection on the fundamental nature of the world s hegemonic economic system has come from its most devout disciples evangelicals Throughout the pages of the Old and New Testament God reprimands those driven by a love for gain By way of the cultural mandate God has given humanity the responsibility to care not only for their fellow human beings but also for the earth itself True and undefiled religion includes taking care of those forgotten marginalized and made invisible by all consuming and all mighty capital As such those who accumulate wealth by destroying creation dishonor their Creator Has the Christian community gone far enough in meeting the needs of the poor in seeking the end of poverty or in curbing the rapacious appetites of the greedy few in order to preserve that which is good true and beautiful within God s creation Render Unto God calls Christians to reconsider their ideological commitment to unrestrained capitalism to rethink not only the profit motive an essential element of capitalism if not its central telos the meaning of private property and the dominion of the global power elite but also to understand how market fundamentalism fractures families creates systems of inequality and destroys the environment Have we forgotten our commitment to God neighbor and creation Have we forgotten our primary purpose the reason for our existence namely to glorify God and enjoy him forever

Unified We Are a Force Joerg Rieger,Rosemarie Henkel-Rieger,2016-05-10 The American dream of pulling yourself up by your bootstraps is no longer possible if it ever was Most of us live paycheck to paycheck and inequality has become one of the greatest problems facing our country Working people and people of faith have the power to change this but only when we get unified In this practical and theological handbook for justice renowned theologian Joerg Rieger and his wife community and labor activist Rosemarie Henkel Rieger help the working majority the 99% of us understand what is happening and how we can make a difference Discover how our faith is deeply connected with our work Find out how to organize people and build power and what our different faith traditions can contribute Learn from case studies where these principles have been used successfully and how we can use them Develop deep solidarity as a way to forge unity while employing our differences for the common good Work Out Your Salvation D. Glenn Butner Jr.,2024-04-09 In Work Out Your Salvation D Glenn Butner Jr demonstrates that participation in markets forms our moral character perceptions actions and ideas Drawing on experimental economics and moral theology he argues that the nature of such formation varies based on the design of the market and our interactions within it How he asks does formation of the market relate to the formation of grace providence justification and sanctification Are these forces at war for our souls Through a detailed analysis of these three doctrines and the theology of common grace and concurrent divine human action Work Out Your Salvation argues that God can work through the social context of markets through human identity and through economic incentive structures to foster providentially the created basis for the supernatural gifts of justification and sanctification Careful and theologically guided participation in a market can by common grace provide the occasion for

positive spiritual formation through concurrent divine action However such formation is not guaranteed Maladaptive practices ideas and identities can also be fostered by markets not oriented toward a supernatural end Butner provides detailed evidence backed by extensive experimental and empirical research as to which market practices allow Christians to work out their salvation Phil 2 12 and which practices resist such moral transformation Work Out Your Salvation undermines simplistic endorsements or rejections of capitalism in favor of more nuanced analysis and lays bare which features of markets make us better and which make us worse Occupy Religion Joerg Rieger, Kwok Pui-lan, 2012-10-12 Occupy Religion introduces readers to the growing role of religion in the Occupy Movement and asks provocative questions about how people of faith can work for social justice From the temperance movement to the Civil Rights movement churches have played key roles in important social movements and Occupy Religion shows this role is no less critical today **Postcolonial Public Theology** Paul S Chung, 2017-07-27 Postcolonial Public Theology is a tour de force a study in theological reflection in conversation with the most compelling intellectual discourses of our time that offers prophetic challenge to the hegemony of economic globalisation While evolutionary science searches for an ethically responsible practice of rationality and inter religious engagement forces Christians to grapple with the realities of cultural hybridity Postcolonial Public Theology makes the case for public theology to turn toward postcolonial imagination demonstrating a fresh rethinking of the public and global issues that continue to emerge in the aftermath of colonialism Paul S Chung provides students and scholars with a fascinating framework for imagining a polycentric Christianity as well as for discussing the continuing importance of Christian theology in the public arena
