Pakistan Daniel S. Markey, 2013-10-07 This book tells the story of the tragic and often tormented relationship between the United States and Pakistan Pakistan's internal troubles have already threatened U S security and international peace and Pakistan's rapidly growing population nuclear arsenal and relationships with China and India will continue to force it upon America's geostrategic map in new and important ways over the coming decades This book explores the main trends in Pakistani society that will help determine its future traces the wellsprings of Pakistani anti American sentiment through the history of U S Pakistan relations from 1947 to 2001 assesses how Washington made and implemented policies regarding Pakistan since the terrorist attacks on the United States on September 11 2001 and analyzes how regional dynamics especially the rise of China will likely shape U S Pakistan relations It concludes with three options for future U S strategy described as defensive insulation military first cooperation and comprehensive cooperation The book explains how Washington can prepare for the worst aim for the best and avoid past mistakes **Role Compatibility as Socialization**

Dorothee Vandamme, 2022-03-10 In *Role Compatibility as Socialization* Dorothee Vandamme examines Pakistan's socialization process in terms of role compatibility in the 2008-2018 period Adopting an Interpretative phenomenological analysis IPA method of analysis Vandamme builds on role theory to develop a theory of socialization as role compatibility to explain the dynamics of Pakistan's dysfunctioning position and its status seeking process as a fully functioning member of the international system Specifically she focuses on how Pakistani civilian and military leaders define their country's positioning towards India the United States and China In doing so she traces the link between domestic role contestation at the country's inception and the resulting domination of the military's conception of their country state identity how it projects itself externally and how it is received by others Departing from strictly structural or agent oriented explanations Vandamme expertly demonstrates Pakistan's perceived role compatibility with significant others and underlines the causality between state identity foreign policy behavior and socialization *Role Compatibility as Socialization* will be of interest to graduate

students and researchers who work on and with role theory and socialization theory and for those with a research interest on South Asia

American Power and Liberal Order Paul D. Miller, 2019-02-01 Paul D Miller offers a tough minded critique of recent trends in American grand strategy He rejects retrenchment but also the excesses of liberal internationalism He prescribes a conservative internationalist grand strategy to preserve the American security and leadership in the world while avoiding overstretch Originally written before the 2016 US presidential election this first paperback edition contains a new preface that repositions the book's argument for the Trump era Miller explains why President Trump's nationalist vision for American grand strategy damages US interests and world order Miller blends academic rigor with his experiences as former member of the National Security Council and intelligence community to offer prescriptions for US grand strategy He advocates for narrowing regional priorities and focusing on five strategic objectives balancing against the nuclear autocracies championing liberalism to maintain a favorable balance of power thwarting the transnational jihadist movement investing in governance in weak and failed states and strengthening homeland security This book is a must read for scholars and students of international affairs and for anyone who is concerned about America's role in the world

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9/11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition's inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan's inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration scale and cost America's leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs

became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough

Gambling with Violence Yelena Biberman, 2019-06-04 In *Gambling with Violence* Yelena Biberman tackles a global problem that is particularly consequential for Pakistan and India state outsourcing of violence to ordinary civilians criminals and ex insurgents Why would these countries gamble with their own national security by outsourcing violence arming nonstate actors inside their own borders Drawing on over 200 interviews archival research and fieldwork conducted across Asia Europe and North America Biberman introduces the balance of interests thesis to deepen our understanding of state nonstate alliances in civil war This framework centers on the distribution of power during war and shows how various combinations of interests result in distinct types of coalitions Incorporating case studies of civil war and counterinsurgency her book sheds light on how militias alliances and South Asian security connect today

Shifting Power in Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour With a special emphasis on Sino US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing

Magoc, David Bernstein, 2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America s imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation s involvement in the World Wars The work also offers extensive coverage of the Cold War and today s ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works
