No Higher Power Obamas War On Religious Freedom:

No Higher Power Phyllis Schlafly, George Neumayr, 2012-07-23 The Obama administration's overreaching and pervasive secularist policies represent the greatest government directed assault on religious freedom in American history. So argue conservative movement leader Phyllis Schlafly and journalist George Neumayr in their new book *No Higher Power*. In *No Higher Power*, Schlafly and Neumayr show how Obama is waging war on our religious liberties and actively working to create one nation under him rather than one nation under God. Obama views traditional religion as a temporary opiate for the poor, confused, and jobless—a drug that will dissipate as the federal government assumes more God-like powers and his new secularist beliefs and policies gain adherents, write Schlafly and Neumayr. From cutting funding for religious schools to Obama's deliberate omission of God and religion in public speeches to his assault on the Catholic Church, *No Higher Power* is a shocking and comprehensive look at how Obama is violating one of our most fundamental rights and remaking our country into a nation our Founding Fathers would hardly recognize.

Trumping Obama Matt Margolis, 2019-07-30 The Presidency of Barack Obama was characterized by radical policy shifts: the implementation of Obamacare, the first steps toward socialized medicine, unprecedented expansion of the big government regulatory state, the prioritization of pie in the sky environmental concerns over jobs and economic growth, a foreign policy based on secret dealings, appeasement, and leading from behind, and a concerted effort to institutionalize political correctness in colleges, high schools, and even elementary schools across the nation. But within the blink of an eye, nearly the entire Obama legacy has been undone before the end of Donald Trump's first term in office. This remarkable book details the scope of the Trump upheaval, exploring the destructive path Obama set the nation toward, how Trump has begun to right the ship, and how much more still needs to be done. Many of the Americans who voted for Donald Trump did so simply to oppose the Clinton machine and to block a continuation of the Obama era. They had little hope or expectation that Trump would make good on his promises to undo the entire Obama agenda. This book not only details how Trump made good on those promises and saved America from Obama's legacy but also makes the case for why Trump deserves reelection in 2020.

Politically Incorrect Guide to Catholicism John Zmirak, 2016-09-26 A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country. *Religion in the Oval Office* Gary Scott Smith, 2015-02-27 Continuing the work of *Faith and the Presidency* (OUP, 2006), Gary Scott Smith takes on eleven more US presidents and examines the role religion played in their policies, personal lives, and decisions.

Good Intentions Steven P. Millies, 2018-04-11 The 2016 presidential election was unlike any other in American history. Polls tell us that millions of American Catholics, who care about moral issues and who descended from immigrants, supported Donald Trump. Why didn't Trump's rhetoric on immigration and his promises to close the borders trouble more American Catholics? Despite his own vulgar behavior, his unconcealed selfishness, or his still recent support for abortion rights, why were some serious Catholics drawn to Trump? In *Good Intentions*, Steven P. Millies uncovers

the history of how American Catholics came to this More than that Good Intentions offers an explanation for why Catholics behaved the way they did in 2016 with some practical reflections about how to put Catholic faith to better use in American politics

Obama's Four Horsemen David Harsanyi, 2013-03-04 Conquest Famine War Death the four horsemen are coming in the form of the national debt widespread dependence on government turmoil in the Middle East and the expansion of the bureaucratic state In Obama's Four Horsemen syndicated columnist David Harsanyi takes a provocative look at how the Obama Administration allowed four big problems to mushroom into looming disasters we can no longer avoid or postpone In his famous conversational fact driven and humorous tone Harsanyi argues that President Obama's handling of both domestic and foreign crises has set the stage for a disaster of Biblical proportions Under Obama America has become a land of more dependence more hand outs more federal programs and more government agencies The great danger is that Americans have gotten used to it Many people today expect as a matter of fact that the government will hand them health insurance student loans birth control and anything else they might need or desire while they are increasingly numb to the pernicious creep of the bureaucratic state and the alarming escalation of unsustainable spending and debt Meanwhile powerful forces abroad seek to destroy American and Western culture while Obama has sat on his thumbs and looked the other way tossing out politically correct platitudes when asked about his response to their open threats and aggression America is facing a time of great upheaval domestic and global Obama's Four Horseman is a provocative expose on how we got here and a chilling prediction of what's to come

The Founding Myth Andrew L Seidel, 2019-05-14 Do In God We Trust the Declaration of Independence and other historical evidence prove that America was founded on Judeo Christian principles Are the Ten Commandments the basis for American law A constitutional attorney dives into the debate about religion's role in America's founding In today's contentious political climate understanding religion's role in American government is more important than ever Christian nationalists assert that our nation was founded on Judeo Christian principles and advocate an agenda based on this popular historical claim But is this belief true The Founding Myth answers the question once and for all Andrew L Seidel a constitutional attorney at the Freedom from Religion Foundation builds his case point by point comparing the Ten Commandments to the Constitution and contrasting biblical doctrine with America's founding philosophy showing that the Bible contradicts the Declaration of Independence's central tenets Thoroughly researched this persuasively argued and fascinating book proves that America was not built on the Bible and that Christian nationalism is in fact un American

Against the New Politics of Identity Ronald A. Lindsay, 2023-11-14 A far reaching cultural transformation is occurring across much of the West that is threatening the very foundations of democracy Individuals are no longer judged by their deeds actions and behavior but rather are defined by their race ethnicity and sexual orientation Driven largely by the political Left this transformation has led to the wholesale division of individuals into oppressed and oppressor classes Where the Left once organized around liberal principles to ensure that all groups had an

equal seat at the proverbial table much of the Left today demands not only that those categorized as oppressed receive priority seating but also that those categorized as oppressor are excluded from the table altogether Government bodies corporations universities and the mainstream media regularly submit to these illiberal commands and explicitly favor certain identity groups over others in the name of allyship antiracism or equity As philosopher Ronald A Lindsay argues in *Against the New Politics of Identity* this radical cultural shift by which all policies and practices must be seen through the lens of identity rests on three dogmatic tenets those who are alleged to be oppressed or marginalized have special insight based on their lived experience racism is embedded in all Western laws regulations policies and institutions and equity understood as the elimination of all group disparities in all areas of life must take precedence over all other criteria such as individual merit achievement and need Lindsay demonstrates that these tenets are based on a series of fallacies and warns that the push for identity politics on the Left predictably elicits a parallel reaction from the Right including the Right's own version of identity politics in the form of Christian nationalism As he makes clear the symbiotic relationship that has formed between these two political poles risks producing even deeper threats to Enlightenment values and Western democracy If we are to preserve a liberal democracy in which the rights of individuals are respected he concludes the dogmas of identity politics must be challenged and refuted *Against the New Politics of Identity* offers a principled path for doing so [A Choice Not an Echo](#) Phyllis Schlafly, 2014-11-10 Over 3 Million Copies Sold Celebrate 50 years since the release of Phyllis Schlafly's monumental *A Choice Not an Echo* the book that launched the conservative resurgence of the late 20th century This special updated and expanded edition contains 50 percent new material placing the book in its historical context and applying the book's lessons to the issues of today **Encyclopedia of American Women and Religion** June Melby Benowitz, 2017-08-18 This two volume set examines women's contributions to religious and moral development in America covering individual women their faith related organizations and women's roles and experiences in the broader social and cultural contexts of their times This second edition of *Encyclopedia of American Women and Religion* provides updated and expanded information from historians and other scholars of religion covering new issues in religion to better describe and document women's roles within religious groups For instance the term evangelical feminism is one newly defined aspect of women's involvement in religious activism Changes are constantly occurring within the many religious faiths and denominations in America particularly as women strive to gain positions within religious hierarchies that previously were exclusive to men and rise within their denominations to become theologians church leaders and bishops The entries examine the roles that American women have played in mainstream religious denominations small religious sects and non traditional practices such as witchcraft as well as in groups that question religious beliefs including agnostics and atheists A section containing primary documents gives readers a firsthand look at matters of concern to religious women and their organizations Many of these documents are the writings of women who merit entries within the encyclopedia Readers will gain an awareness of women's contributions to religious

culture in America from the colonial era to the present day and better understand the many challenges that women have faced to achieve success in their religion related endeavors
