

Stoned: Jewelry, Obsession, and How Desire Shapes the World

DESCRIPTION

COPY LINK : <https://pdf.bookcenterapp.com/slide/B01BIA3KOI> What makes a stone a jewel? What makes a jewel priceless? And why do we covet beautiful things? In this brilliant account of how eight jewels shaped the course of history, jeweler and scientist Aja Raden tells an original and often startling story about our unshakeable addiction to beauty and the darker side of human desire. What moves the world is what moves each of us: desire. Jewelry - which has long served as a stand-in for wealth and power, glamour and success - has birthed cultural movements, launched political dynasties, and started wars. Masterfully weaving together pop science and history, *Stoned* breaks history into three categories - want, take, and have - and explains what the diamond on your finger has to do with the GI Bill, why green-tinted jewelry has been exalted by so many cultures, why the glass beads that bought Manhattan for the Dutch were initially considered a fair trade, and how the French Revolution started over a coveted necklace. Studded with lively personalities and fascinating details, *Stoned* tells the remarkable story of our abiding desire for the rare and extraordinary.

Rose, 2022-02-01 Two estranged sisters find that forgiveness never goes out of style when they inherit their mother's vintage jackets, purses, and pearls of wisdom. Estranged half sisters Gabrielle Winslow and Lulu Quattro have only two things in common: mounds of debt and coils of unresolved enmity toward Bette Bradford, their controlling and imperious, recently deceased mother. Gabrielle, the firstborn, was raised in relative luxury on Manhattan's rarefied Upper East Side. Now, at fifty-five, her life as a Broadway costume designer married to a heralded Broadway producer has exploded in divorce. Lulu, who spent half her childhood under the tutelage of her working-class Brooklyn grandparents, is a grieving widow at forty-eight. With her two sons grown, her life feels reduced to her work at the Ditmas Park bakery owned by her late husband's family. The two sisters arrive for the reading of their mother's will, expecting to divide a sizable inheritance, pay off their debts, and then again turn their backs on each other. But to their shock, what they have been left is their mother's secret walk-in closet jammed with high-end current and vintage designer clothes and accessories, most from Chanel. Contemplating the scale of their mother's self-indulgence, the sisters can't help but wonder if Lauren Weisberger had it wrong because it seems in fact that the devil wore Chanel. But as they begin to explore their mother's collection, meet and fall in love with her group of warm, wonderful friends, and magically find inspiring messages tucked away in her treasures, it seems as though their mother is advising Lulu and Gabrielle from the beyond, helping them rediscover themselves and restore their relationship with each other.

The Truth About Lies Aja Raden, 2021-08-05 Fibbing, prevaricating, stretching the truth, white lies, omission of commission. Lying is so pervasive that we have countless words for it. But have you ever considered why you believed a lie you were told or why we lie at all? In this witty whirlwind tour through the annals of deceit, bestselling author Aja Raden combines psychology, popular science, and history to explore everything you've ever wanted to know about manipulation and lying, showing how it evolved and why even the birds and the bees do it. From big lies like the English gent who invented a South American country to pyramid schemes like Bernie Madoff, this is an eye-opening primer that decodes how we behave and function and reveals how lying shapes our experience of the world around us.

Pearl Fiona Lindsay Shen, 2022-10-24 From their creation in the maw of mollusks to lustrous objects of infatuation and conflict, a revealing look at pearls' dark history. This book is a beautifully illustrated account of pearls through millennia, from fossils to contemporary jewelry. Pearls are the most human of gems, both miraculous and familiar. Uniquely organic in origin, they are as intimate as our bodies, created through the same process as we grow bones and teeth. They have long been described as an animal's sacrifice, but until recently, their retrieval often entailed the sacrifices of enslaved and indentured divers and laborers. While the shimmer of the
