Nicols Way Autism A Journey Of Discovery:

Nicol's Way Sespico M Diann, 2014-02-01 What do you do when your child is diagnosed with autism What do you do when the professionals know little about this developmentally delayed disorder Where do you go for help Nicol Sespico was born on August 12 1982 a happy and healthy baby She appeared to be developing normally yet at 12 months Nicol never responded to her name she had little eye contact her muscles were flaccid and she made no attempt to walk point verbally communicate or use language I knew something was wrong I expressed my concerns to the professionals only to be told that I was over reacting I had a gut feeling to do more in an effort to understand this peaceful loving child I couldn't explain it but my determination to help Nicol was a drive a passionate force I couldn't give up I had to trust myself Through persistence research support of family and friends and the opening of our minds and hearts many doors opened for us which in turn led to many new challenges and choices Follow our Journey of Discovery in Nicol's Way

Situating Phenomenological Psychopathology: Subjective Experience Within the World Elizabeth Pienkos, Jasper Feyaerts, Rosa Ritunanno, Jérôme Englebert, Louis Sass, 2023-09-28 The discipline of phenomenological psychopathology has historically focused on elucidating the ways in which persons with psychiatric illnesses experience themselves and the world Early pioneers in this field were aware of the impact of uncontrollable life events on the onset and course of severe illness such as Jaspers recognition that environmental events may stimulate or enhance certain innate potentialities for the development of a disorder Furthermore the role of environment and life events in the development and onset of psychiatric illness has been well documented For example there is a clear relationship between the development of psychotic symptoms and life stressors including adverse childhood events urban living and migration However relatively little attention with some notable exceptions has been devoted to exploring the features of those experienced worlds and how they may impact the trajectory of severe illnesses such as schizophrenia depression and personality disorders

Motherhood and Autism Eilidh Campbell, 2021-10-29 While autism is gaining increasing attention as an important subject of theological inquiry the maternal experience of caring for a child with autism has had less attention Traversing issues of gender embodiment disability and motherhood this book explores the distinctness of mothering within the context of autism examining how theology currently responds to the challenges this lived experience presents Weaving together an honest reflection on her own experience with analysis of contemporary theological works on disability and motherhood the book reflects on mothering and especially mothering of autistic children as a unique site of struggle and resistance
