Nigerian Political Parties Emergent Princeton:

Nigerian Political Parties in the Fourth Republic Babayo Sule, 2025-01-09 This book examines the changing dynamics of political parties in Nigeria's Fourth Republic. It is a comprehensive study of these parties' development, character, and systems in relation to everything from ideology, funding, and crises to leadership, civil society, traditional and social media, and electoral politics. The author shows that while the organisation and institutionalisation of Nigerian political parties remain fragile, they have taken on a new form in the Fourth Republic. The book provides researchers, policymakers, and students with insights into the development of Nigeria's politics in light of its colonial legacy and its struggle against the institutionalisation of strong political institutions for democratisation.

Nigerian Political Parties Richard L. Sklar, 2015-12-08 The development of political parties in Nigeria during the terminal phase of British colonial rule. Originally published in 1963, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Democracy and Prebendal Politics in Nigeria Richard A. Joseph, 2014-02-06 Originally published in 1987, this book examines the relationship between the pattern of party formation in Nigeria and a mode of social, political, and economic behaviour. Richard Joseph terms prebendalism. He demonstrates the centrality in the Nigerian polity of the struggle to control and exploit public office and argues that state power is usually viewed by Nigerians as an array of prebends, the appropriation of which provides access to the state treasury and to control over remunerative licenses and contracts. In addition, the abiding desire for a democratic political system is frustrated by the deepening of ethnic, linguistic, and regional identities. By exploring the ways in which individuals at all social levels contribute to the maintenance of these practices, the book provides an analysis of the impediments to constitutional democracy that is also relevant to the study of other nations.

In Search of Democracy Larry Diamond, 2015-07-16 This book evaluates the global status and prospects of democracy with an emphasis on the quality of democratic institutions and the effectiveness of governance as key conditions for stable democracy. Bringing together a wide range of the author's work over the past three decades, it advances a framework for assessing the quality of democracy and analyzes alternative measures of democracy. Drawing on the most recent data from Freedom House, it assesses the global state of democracy and freedom as of the beginning of 2015 and explains why the world has been experiencing a mild but now deepening recession of democracy and freedom since 2005. A major theme of the book across the three decades of the author's work is the relationship between democratic quality and stability. Democracies break down, Diamond argues, not so much because of economic factors but because of corrupt, inept governance that violates individual rights and the rule of law. The best way to secure democracy is to ensure that democracy

is accountable transparent genuinely competitive respectful of individual rights inclusive of diverse forms and sources of participation and responsive to the needs and aspirations of ordinary citizens Viable democracy requires not only a state that can mobilize power to achieve collective goals but also one that can restrain and punish the abuse of power a particularly steep challenge for poor countries and those with natural resource wealth The book examines these themes both in broad comparative perspective and with a deeper analysis of historical trends and future prospects in Africa and Asia Concluding with lessons for sustaining and reforming policies to promote democracy internationally this book is essential reading for students and scholars interested in democracy as well as politics and international relations more generally **Human**
