## **Nigerias Stumbling Democracy And Its Implications For Africas Democratic Movement:**

**Nigeria's Stumbling Democracy and Its Implications for Africa's Democratic Movement** Victor Oguejiofor Okafor, 2008-07-30 Nigeria's Stumbling Democracy and its Implications for Africa's Democratic Movement is the first book to recount and analyze Nigeria's controversial general elections of April 2007. Because Nigeria's immense and diverse population of 140 million people and its wealth of natural resources make it a microcosm of Africa, Nigerian politics are an ideal case study and bellwether by which to view and understand African politics and the ongoing democratic experiments on the continent. Ten leading scholars of Nigerian and African politics, variously based in Nigeria, the US, and Europe, contribute original chapters commissioned by Professor Okafor to provide an account at once deep and comprehensive of what went wrong with these disputed presidential, federal, and state elections together with their implications for the future of the democratic movement both in Nigeria and in Africa as a whole. Although the 2007 general elections resulted in the first ever handover of political power from one civilian government to another in the history of Nigeria, by which the two-term Christian president Olusegun Obasanjo was succeeded by a Muslim Alhaji Musa Yar Adua, they were condemned by internal and international watchdogs for pervasive vote rigging, violence, intimidation, and fraud, which were, as this book documents, perpetrated by and with the connivance of the nation's security forces. The disappointment of continental hopes that these elections might finally break with Nigeria's history of tainted elections has grave repercussions for the democracy movement not only in Nigeria but throughout Africa, as seen in the knock-on effect upon the disastrous general elections in Kenya later the same year.

The Role of Civil Society in Africa's Quest for Democratization Abadir M. Ibrahim, 2016-12-08 This book tests many of the assumptions, hypotheses, and conclusions connected with the presumed role of civil society organizations in the democratization of African countries. Taking a comparative approach, it looks at countries that have successfully democratized, those that are stuck between progress and regression, those that have regressed into dictatorship, and those that are currently in transitional flux, and evaluates what role, if any, civil society has played in each instance. The countries discussed—South Africa, Ghana, Nigeria, Ethiopia, Egypt, and Tunisia—represent a diverse set of social and political circumstances and different levels of democratic achievement, providing a rich set of case studies. Each sample state also offers an internal comparison, as each has historically experienced different stages of democratization. Along the course of each case study, the book also considers the effect that other traditionally studied factors, such as culture, colonization, economic development, and foreign aid, may have had on individual attempts at democratization. The first extensive work on civil society and democratization in Africa, the book adds new insights to the applicability of democratization theory in a non-Western context, both filling a gap in and adding to the existing universal scholarship. This book will be useful for scholars of political science, economics, sociology, and African studies, as well as human rights activists and policy makers in the relevant geographical areas.

*Leadership and the Problem of Electoral Democracy in Africa* E. Ike Udogu, 2016-12-14 This volume

explores the notion that African leaders are fundamentally responsible for electoral malfeasance throughout the continent. The quagmire of fixing elections in order to stay in power *ad infinitum* has frequently led and will continue to lead to political violence, civil wars, internal displacement of citizens, international refugee crises and economic malaise with its attendant crisis of underdevelopment. This book provides five case studies selected from Anglophone, Francophone and Lusophone Africa that illustrate some variations and similarities in the dilemma of electoral democracy in this epoch of Africa's democratic experiment. It suggests among other factors, Colin Powell's and Abraham Lincoln's theoretical templates as pointers for African political chiefs in their struggle for democratic consolidation, a successful move that could advance national legitimacy and political stability critical for impressive development in this millennium. **Africa in the**

**Twenty-First Century** Gashawbeza Bekele, Adebayo Oyebo, 2018-12-04. This book interrogates contemporary debates, controversies, achievements, challenges and future prospects of African development and democratization from varied theoretical perspectives. The diverse issues and sub-themes addressed in this volume include tenets of democracy such as democratization, democratic institutions, good governance, term limits, minority rights and women's political participation and dynamics of development such as economic growth, liberalization, development strategies and models, Millennium Development Goals, uneven regional development, sustainable development, challenges, transport, development and management and health and development. Featuring established and emerging scholars, this book is a vital resource for scholars, policy makers and students interested in African politics and development. **African Democratic Montage** E. Ike Udogu, 2025-03-10. African Democratic Montage: Case Studies on Ghana, Zimbabwe, Tanzania, Ethiopia and Kenya explores the challenges African states face in achieving democratic consolidation. The book highlights that these countries have constitutional tools, human rights frameworks, the African Union's code of leadership and democratic election principles to foster good governance. However, their varied application of these tools leads to different democratic outcomes. Coincidentally, the book addresses the resurgence of military coups in some African countries, exposing democracy's fragility and calling for solutions to prevent future coups. It provides a brief history of each country's pre-colonial, colonial and post-colonial periods, showcasing their unique democratic journeys. The volume notes that the struggle for democratic consolidation is hindered by issues in electoral contests and human rights violations. Nevertheless, it suggests that enforcing constitutional, human rights and adhering to African Union declarations can promote good governance, democratic consolidation, peaceful coexistence and national cohesion. **Development and Diffusionism** J. Dibua, 2015-12-04. This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development. It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities, Eurocentric diffusionism played a significant role in the failure of development planning. **Dependent Independence** C.O. Makame, 2020-10-07. Everyone knows where they were when the first case of Coronavirus in the country was announced, but not everyone knows how a virus like Coronavirus reveals so

much about the historical socio economic and political sacred cows humanity has been breeding for more than a 1000 years and how these have created a free range for the pandemic to graze and unleash mayhem on an unprepared world This book shatters the easy arrogance of countries with long held beliefs of how their power and economic prowess insulate them from the plagues often associated with the least developed countries in the world In the run up to the 2020 elections Americans are waking up to the reality that Democracy is very fragile and held together not by its gleaming skyscrapers but a philosophical framework that can easily be destroyed if the citizens do not protect it For poor countries perennially unable to shrug off the shackles of corruption and ineptitude holding them back it lays bare the brutal fact that the knee on their neck today is their own An open mind is a very rare item but that is what this book asks of its reader It brings historical facts carefully hidden through centuries of prejudice and misinformation with the intent to force us to confront ourselves to ask questions we had not dared to imagine and perhaps set us on a path to collective healing redemption and progress **The**

**Possibility of Convivence in Nigeria** Felix Ikeagwuchi Agbara,2011 Despite the present day democratic government s commitment to human rights socio cultural and religious clashes still pose a threat to Nigeria As a panacea a split according to ethnic and religious boundaries has been suggested on the other hand upholding the different strands might spell greater benefits for the country s development The basic assumption of both views is that ethnic and religious pluralism have led to conflicts but that they are fuelled by politics inequitable distribution of economic goods and the negative forces of globalization In this project examining these conflicts and the efforts made to resolve them particular attention will be paid to dialogue and reconciliation The key practice suggested is convivence a symbiosis of interactive and interpenetrative approaches based on intercultural and interreligious hermeneutical perspectives *Global Forest Governance and Climate Change* Emmanuel O. Nuesiri,2018-03-07 This edited collection assesses governance in forestry programmes and projects including REDD governance It examines political representation participation and decentralisation in forest governance providing insight as to how forest governance arrangements can be responsive to the socio economic interests of local people and communities who live adjacent to and depend on forests Global Forest Governance and Climate Change argues that inclusive complementary representation of local communities is required for strong participatory processes and democratic decentralisation of forest governance Responsiveness to local people s socio economic interests in forestry initiatives require paying attention to not just the hosting of participatory meetings and activities but also to the full cast of appointed self authorized and elected representative agents that stand speak and act for local people This book will be of interest to students and academics across the fields of climate change governance forestry development studies and political economy It will also be a useful resource for policy makers and practitioners responsible for forestry and climate change initiatives
