Night And Fog A Film In History Visible Evidence:

Night and Fog Sylvie Lindeperg, 2014 François Truffaut called *Night and Fog* the greatest film ever made But when Alain Resnais finished his documentary with its depiction of Nazi atrocities the resistance of the French censors was fierce A mere decade had passed since the end of the war and the French public was unprepared to confront the horrors shown in the film let alone the possibility of French complicity In fact it would be through *Night and Fog* that many viewers first learned as film critic Serge Daney put it that the worst had only just taken place An engrossing account of the genesis production and legacy of Resnais's incomparable film this book documents in extraordinary detail how a film that began as a cinematic spin off of an educational exhibition on resistance liberation and deportation went on to become a significant step in the building of a collective consciousness of the tragedy of World War II Sylvie Lindeperg frames her investigation with the story of historian Olga Wormser Migot who played an integral role in the research and writing of *Night and Fog* and whose slight error on one point gave purchase to the film's detractors and revisionists and Holocaust deniers Lindeperg follows the travails of Resnais Wormser Migot and their collaborators in a pan European search for footage photographs and other documentation She uncovers creative use of liberation footage to stand in for daily life of the camps featured to such shocking effect in the film a finding that raises hotly debated questions about reenactment and witnessing even as it enhances our understanding of the film's provenance and impact A microhistory of a film that altered the culture it reflected *Night and Fog* offers a unique interpretation of the interworking of biography history politics and film in one epoch making cultural moment

The Story in Fiction and Film of French Collaboration in the Occupation and Complicity in the Holocaust (1940-1944) Daniel R. Schwarz, 2025-07-09 This book examines fiction and film narratives that show the active collaboration of the Vichy government with the Nazis in the deportation and murder of the Jews of France It also explains how these fiction and film narratives affected the official and dominant historical narrative of the 1940-44 Occupation years More than anything what changed the dominant narrative of the Occupation years are documentaries and creative works which imaginatively selected and arranged the presentation of neglected and suppressed facts By stressing how documentaries novels and imaginative films changed the dominant narrative of 1940-1944 the author is also arguing how cultural production transformed history

Alain Resnais Lynn A. Higgins, 2021-07-29 Among the most innovative and influential filmmakers of the twentieth century Alain Resnais 1922-2014 did not originally set out to become a director He trained as an actor and film editor and during the sixty-eight years of his working life delved into virtually every corner of filmmaking working at one time or another as screenwriter assistant director camera operator and cinematographer special effects coordinator technical consultant and even author of source material From such award-winning documentaries as *Van Gogh* and *Night and Fog* to the groundbreaking dramas *Hiroshima mon amour* *Last Year at Marienbad* and *Muriel* Resnais's films experiment with such themes as consciousness memory and the imagination Distinguishing himself from associations with the French New Wave

A Medium Seen Otherwise Roger Hallas,2023 Through a new look at how political historical and art documentaries engage with photographic images objects and archives A Medium Seen Otherwise argues that film allows us to better understand what people do with analog and digital photographs as material objects that enable social and political relations through multisensory experience Moreover as a time based medium with sound film can bring the event of photography into fuller view demonstrating how no single participant in it photographer subject camera photograph or viewer has sovereignty over its affect meaning or value The book thus explores the ways in which the innovative incorporation of photography into documentary film permits us to see both of these media otherwise Photographs whether professional or vernacular are conventionally understood to furnish documentaries with indexical evidence and visual illustration of history yet the spatio temporal and aural dimensions of film permit documentaries to illuminate photography s wider capacities beyond the merely representational Combining new critical perspectives on well known documentary filmmakers and photographers Agn s Varda Rithy Panh Edward Burtynsky Malick Sidib Vivian Maier JR Ken Burns Errol Morris and Akram Zaatar with analyses of lesser known but important documentaries author Roger Hallas investigates a global range of documentary and vernacular photographic contexts including Lebanon Palestine Mali Congo Cambodia Ireland Spain Mexico Chile Canada and the US While authorship and representation remain common rhetorical frameworks for documentaries about photography A Medium Seen Otherwise offers a compelling account of how the intermediality between documentary film and photography can posit far more expansive conceptions of both media A companion website shows clips of films discussed in the book

Towards a Film Theory from Below Jiri Anger,2024-05-30 Operating between film

theory media philosophy archival practice and audiovisual research Jiri Anger focuses on the relationship between figuration and materiality in early films experimental found footage cinema and video essays Would it be possible to do film theory from below through the perspective of moving image objects of their multifarious details and facets however marginal unintentional or aleatory they might be Could we treat scratches stains and shakes in archival footage as speculatively and aesthetically generative features Do these material actors have the capacity to create weird shapes within the figurative image that decenter distort and transform the existing conceptual and methodological frameworks Building on his theoretical as well as practical experience with the recently digitized corpus of the first Czech films created by Jan Kr eneck between 1898 and 1911 the author demonstrates how technological defects and accidents in archival films shape their aesthetic function and our understanding of the materiality of film in the digital age The specific clashes between the figurative and material spheres are understood through the concept of a crack up This term developed by Francis Scott Fitzgerald and theoretically reimaged by Gilles Deleuze allows us to capture the convoluted relationship between figuration and materiality as inherent to the medium of film containing negativity and productivity difference and simultaneity contingency and fate at the same time even within the tiniest cinematic units

The Essay Film Timothy Corrigan, 2011-12-01 Why have certain kinds of documentary and non narrative films emerged as the most interesting exciting and provocative movies made in the last twenty years Ranging from the films of Ross McElwee Bright Leaves and Agn s Varda The Gleaners and I to those of Abbas Kiarostami Close Up and Ari Folman Waltz with Bashir such films have intrigued viewers who at the same time have struggled to categorize them Sometimes described as personal documentaries or diary films these eclectic works are rather best understood as cinematic variations on the essay So argues Tim Corrigan in this stimulating and necessary new book Since Michel de Montaigne essays have been seen as a lively literary category and yet despite the work of pioneers like Chris

Marker seldom discussed as a cinematic tradition The Essay Film offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models provides the ideas that will change this

Between Witness and Testimony Michael Bernard-Donals, Richard Glejzer, 2012-02-01 The Holocaust presents an immense challenge to those who would represent it or teach it through fiction film or historical accounts Even the testimonies of those who were there provide only a glimpse of the disaster to those who were not *Between Witness and Testimony* investigates the difficulties inherent in the obligation to bear witness to events that seem not just unspeakable but also unthinkable The authors examine films fictional narratives survivor testimonies and the museums at Yad Vashem and the United States Holocaust Memorial Museum in order to establish an ethics of Holocaust representation Traversing the disciplines of history philosophy religious studies and literary and cultural theory the authors suggest that while no account adequately provides access to what Adorno called the extremity that eludes the concept we are still obliged to testify to put into language what history cannot contain Documenting the Documentary Barry Keith Grant, Jeannette Sloniowski, 2013-12-16 *Documenting the Documentary* offers clear serious and insightful analyses of documentary films and is a welcome balance between theory and criticism abstract conceptualization and concrete analysis
