Nietzsche Emmanuel Salanskis:

Nietzsche Emmanuel Salanskis, 2015 Friedrich Wilhelm Nietzsche 1844 1900 philosophe allemand est connu pour avoir proclamé la mort de Dieu thésoris la volonté de puissance et enseigné le ternel retour de l'identique Ces formules célèbres ont souvent masqué la nature de l'entreprise que Nietzsche s'est assignée Revisitant toute vérité définitive sa philosophie est une constante expérimentation qui multiplie les perspectives Elle s'organise pourtant à partir d'une unique problématique culturelle qui remet en question le partage entre théorie et pratique il s'agit en mettant profit la connaissance de l'histoire et des sciences de la nature d'élever l'homme tant au sens d'un élevage zoologique que d'une évaluation de valeur pour en faire un être plus panou et plus puissant qu'il ne l'a été jusqu'à présent sous l'emprise des valeurs judéo-chrétiennes Nietzsche propose ainsi une véritable transvaluation de toutes les valeurs qui se veut tout autre chose qu'un retour à la barbarie des origines Après l'analyse des tensions et des ruptures la faveur desquelles Nietzsche devient Nietzsche cet essai présente les concepts qui structurent son projet biológico-culturel L'étude de quelques post-réalistes peut alors montrer pour finir le caractère la fois fécond et dangereux de la réflexion nietzschéenne Celle-ci reste présente dans la pensée philosophique contemporaine en particulier chez les auteurs qui revendiquent une démarche génalogique Page 4 de la couverture *Nietzsche's Philosophy of Life Affirmation* Michael J. McNeal, 2024-12-23 This anthology broadly examines the interrelated roles of art science and experimentation in Nietzsche's philosophical project It is divided into two parts the first organized around the theme of experimentally reconceiving our world the second investigating the aforementioned subjects in Nietzsche's free spirit or middle period works Together the essays comprising the book underscore Nietzsche's concern that experimentation with values ultimately provide humankind with a new wherefore or purpose Wide ranging in its scope this volume brings together a diverse group of scholars working in both the analytic and continental traditions to provide original insights into Nietzsche's thought A unique contribution to the scholarship it deepens understanding of the relationship between Nietzsche's critiques of art and science the role this relationship plays in his future thought and the experimental life affirming practices that his free spirit project may enable toward the transfiguration of humankind *Knowledge of Life Today* Jean Gayon, Victor Petit, 2019-04-09 Knowledge of Life Today presents the thoughts of Jean Gayon a major philosopher of science in France who is recognized across the Atlantic especially for his work in philosophy and the history of life sciences The book is structured around Gayon's personal answers to questions put forward by Victor Petit This approach combines scientific rigor and risk taking in answers that go back to the fundamentals of the subject As well as the relationship between philosophy and the history of science Gayon discusses the main questions of the history and philosophy of biology that marked his intellectual journey Darwin evolutionary biology genetics and molecular biology human evolution and various aspects of the relationship between biology and society in contemporary times racism eugenics biotechnology biomedicine etc **Kommentar zu Nietzsches "Menschliches, Allzumenschliches"** I Andreas Urs Sommer, 2025-03-31 An der

Jensen, Carlotta Santini, 2020-12-07 History and memory rank as central themes in the philosophy of Friedrich Nietzsche As one of the last philosophers of the 19th century Nietzsche naturally belongs to the so called historical century The contentious exchange with the past and with antiquity as much as the mechanisms the dangers and the lessons of memory and tradition are continually examined and stand in close relationship with Nietzsche's vision of life and his project of human development As Jacob Burckhardt once wrote of the cultural critique to his Basel colleague Fundamentally you are always teaching history 9 13 1882 Following Burckhardt's judgment the contributors focus on the analysis of core questions in the philosophies of history and memory and their respective convergence in the thought of Nietzsche The epistemological relevance of these central concepts will be thematized alongside those concerning tradition and education The discussion of these rich themes unifies a broad spectrum of questions ranging from cultural memory to contemporary philosophy of mind The contributions are revised versions of selected papers presented at the 2018 conference of the annual meeting of the Nietzsche Society in Naumburg
