Nigeria Echoes Of A Century 1914 1999 Volume 1:

Nigeria, Echoes of a Century: 1914-1999 Ifeoha Azikiwe, 2013 *Echoes of a Century* discusses fundamental issues in Nigeria's loose federation as well as unresolved national challenges in the past 100 years. It also examines the issue of leadership and its ceaseless manipulation through zoning, federal character, demography, ethnicity, and religion that revolve around individuals against national interest, the politics and illusion of oil wealth that has become the nation's albatross, endemic corruption, and societal decadence that negate her growth and development and the clamour for a national conference to renegotiate the country's future.

Socio-Cultural and Religious Conflicts and the Future of Nigeria

Lotanna Olisaemeka, 2022. With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion, humanity today faces extinction. To reverse this ugly trend, humanity has no choice than to build a society where every tribe and tongue can coexist in peace. This work analyzed the violent conflicts from anthropological, behavioral, politico-philosophical, and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions.

NIGERIA: ECHOES OF A CENTURY Ifeoha Azikiwe, 2013-04-17. ONE HUNDRED years past and gone just like yesterday and Nigeria is still in transition. Created on the vagaries of British imperialism, Lord Frederick Lugard on January 1, 1914, unilaterally stitched together two diametrically opposed Northern and Southern parts of the Niger bend to form an entity he called NIGERIA. Since then, Nigeria has remained changeless but with severe internal contradictions that threaten the shaky foundation on which it was formed. By the amalgamation of 1914, Nigeria marks her centenary in 2014, a century that reverberates 46 years of colonial domination which set the agenda for political instability and internal conflicts, 29 wasted years of incessant bloody military coups and dictatorship, and 25 years of incoherent democratic governance. *Echoes of a Century* discusses fundamental issues in Nigeria's loose federation as well as unresolved national challenges in the past 100 years. It also examines the issue of leadership and its ceaseless manipulation through zoning, federal character, demography, ethnicity, and religion that revolve around individuals against national interests, the politics and illusion of oil wealth that has become the nation's albatross, endemic corruption, and societal decadence that negate her growth and development and the clamour for a national conference to renegotiate the country's future. Could Nigeria have done better as two separate entities as it were before the amalgamation of 1914, or better still as three separate nations as envisaged in 1957, against the encumbrances of its present structure where trust is lacking and confidence progressively eroding among federating units? With visible cracks on its bonds of unity, rising cases of religious bigotry and fundamentalism, ethnic chauvinism, and exclusion, it is argued that should Nigeria eventually survive as one united nation, it may not develop beyond the status of a third world country.

Theology and Social Issues in Africa Francis Anekwe Oborji, 2020-11-22. The Volume speaks to us from the heart and engages the socio-political concerns in the Nigerian context through the lens of a theological approach. The author reflects historically the numerous consequences of the amalgamation

of the ethnic groups of different orientations in Nigeria into one socio political structure of the colonizers interests This sociopolitical structure raises several questions than answers it pretends to offer the indigenous people From a Nigerian point of view the articles in this volume critically challenge the unjust formation of any nationhood in the Africa context It points out how the sustenance of an unjust nation formation betrays the creed on which such a nation is established Truth conquers all is the spirit with which this Volume is written It is the truth that will set a nation like Nigeria free from the spirit of confusion and unperceived religio socio political syncretism The awareness emanating from this volume suggests liberating steps from the unsuspecting colonial interests and the sustained feigned relationship with the colonizers which militate against the socio political and economic growth and theological orthodoxy of such a growing nation **Human**

Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria s human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras Promoting Foreign Judgments Pontian N. Okoli, 2019-10-07 In

many African countries litigants experience significant uncertainty in their attempts to enforce foreign judgments Drawing on the experiences of the United Kingdom and the United States vis vis efforts to attain an effective global legal framework on foreign judgments this book undertakes a comparative analysis of how South African and Nigerian courts can promote the recognition and enforcement of foreign judgments in a fair manner This comparative analysis is made considering both African countries as paradigms of their respective legal traditions The author a legal consultant and academic in private international law analyses stage by stage the challenging process that litigants face when they seek to enforce foreign judgments in South Africa and Nigeria This analysis includes insightful consideration of broader issues such as the following

how challenges faced by judgment creditors may be circumvented practical issues impeding the free movement of foreign judgments impact of globalisation increase in international commercial transactions and regionalism on private international law application of fairness how territorial sovereignty and State interests in international commerce impede the free movement of foreign judgments and qualified obligation under which courts would presumptively enforce foreign judgments subject to certain exceptions and to the balancing of competing interests between private litigants and the State The comparative analysis is undergirded by relevant case law spanning decades in Africa and centuries in Europe and the United States In summary the author projects a clear case for predictability and certainty in the recognition and enforcement of foreign judgments as well as how to go about it thus offering lawyers a strategic position to weigh their options in contemplating enforcement of foreign judgments in any jurisdiction even beyond the African region This innovative approach will also be of particular value to policymakers at national levels international and regional economic organisations as well as scholars in private international law and international commercial law generally This is regardless of their specific legal area or niche especially considering the dearth of literature in African private international law

Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely

The Bleeding Continent Venatius Chukwudum Oforka, 2015-12-11 This book tells the story of the sorry state of Africa Although it acknowledges how Europe especially initiated and has surreptitiously maintained the ongoing predation on and the

impoverishment of Africa its major attention is on Africa's self betrayal how Africa's political leaders and elites have contributed in the present predicament of Africa Beginning from the dishonourably sadistic roles some of the kings chiefs and elites of Africa played during the slave trade era to the predatory systems of governance many of their political leaders adopted after decolonisation and have maintained to date this book x rays the internal factors that are also responsible for the poverty of Africa The author argues passionately consequently that only Africa can help Africa not foreign aid or any external intervention He stresses that unless the cannibalistic system of governance in many African states are reformed and systems that can stimulate and sustain economic growth adopted the disappearance of Africa is imminent *The Revolution's Echoes* Nomi Dave, 2019-10-02 Music has long been an avenue for protest seen as a way to promote freedom and equality instill hope and fight for change Popular music in particular is considered to be an effective form of subversion and resistance under oppressive circumstances But as Nomi Dave shows us in *The Revolution's Echoes* the opposite is also true music can often support rather than challenge the powers that be Dave introduces readers to the music supporting the authoritarian regime of former Guinean president S kou Tour and the musicians who even long after his death have continued to praise dictators and avoid dissent Dave shows that this isn't just the result of state manipulation even in the absence of coercion musicians and their audiences take real pleasure in musical praise of leaders Time and again whether in traditional music or in newer genres such as rap Guinean musicians have celebrated state power and authority With *The Revolution's Echoes* Dave insists that we must grapple with the uncomfortable truth that some forms of music choose to support authoritarianism generating new pleasures and new politics in the process *Nigeria in the Fourth Republic* E. Ike Udogu, 2022-04-14 Nigeria is a bellwether in an enormous continent endowed with natural resources and human capital whose development and greatness have been marred by political instability since gaining home rule from Britain in 1960 The contemporary political economic and social quandaries that have stultified Nigeria's growth project flows from difficulties in cultivating patriotic leaders with pluck to enact efficacious policies that will catapult the country to greater heights developmentally Nigeria in the Fourth Republic *Confronting the Contemporary Political Economic and Social Dilemmas* edited by E Ike Udogu examines some of the vital issues responsible for the current political malaise and recommends strategies for exculpating the country from her current political quagmires The contributors to this book argue inter alia for the avoidance of false starts reminiscent of the military interventions that aborted the democracy project and advocates the enactment of effective policies to supersede decision dictated by politics This volume proposes national healthcare strategies to address the country's healthcare needs and for dialogue to extinguish combustible inter religious conflicts The book recommends ways to assuage police highway malfeasance and explains why human rights observance is critical to further national cohesion while creating space for the subalterns to have their voices heard in discourses on how to advance peaceful coexistence
