Night Of The Living Dead Bfi Film Classics:

Night of the Living Dead Ben Hervey, 2020-10-01 George A Romero's *Night of the Living Dead* is a cult classic that has resonated with audiences and independent filmmakers ever since its release in 1968. It redefined horror cinema and launched the modern zombie genre that continues with films and series like *28 Days Later*, *Shaun of the Dead* and *The Walking Dead*. Ben Hervey's illuminating study of the movie traces *Night*'s influences from Powell and Pressburger to fifties horror comics and provides the first history of its reception. Hervey argues that the film broke cultural barriers first at New York's Museum of Modern Art while it was still packing 42nd Street grindhouses. Scene by scene analysis meshes with detailed historical contexts showing why *Night* was a new kind of horror film: the expression of a generation who didn't want their world to return to normal.

Near Dark Stacey Abbott, 2020-10-29 First released in 1987 *Near Dark* is a vampire film set in the contemporary American Midwest that tells the story of Caleb, a half vampire trying to decide whether to embrace his vampire nature or return to his human family. The film, an early work of the now established director Kathryn Bigelow, skilfully mixes genre conventions combining gothic tropes with those of the Western road movie and film noir while also introducing elements of the outlaw romance genre. Stacey Abbott's study of the film addresses it as a genre hybrid that also challenges conventions of the vampire film. The vampires are morally ambiguous and undermine the class structures that have historically defined stories of the undead. These are not aristocrats but instead they capture the allure and horror of the disenfranchised and the underclass. As Abbott describes, *Near Dark* was crucial in consolidating Bigelow's standing as a director of significance at an early point in her career not simply because of her visual art background but because of the way in which she would from *Near Dark* onward re-envision other traditionally mainstream genres of filmmaking.

Back from the Dead Kevin J. Wetmore, Jr., 2011-07-25 Since 1968 the name of motion picture director George Romero has been synonymous with the living dead. His landmark film *Night of the Living Dead* formed the paradigm of modern zombie cinema, often cited as a metaphor for America during the Vietnam War and the Civil Rights movement. The film used the tenets of the drive-in horror movie genre to engage the sociophobias of late 1960s culture. Subsequently, Romero has created five more zombie films and other directors including Tom Savini and Zack Snyder have remade Romero's movies. This survey of those

remakes examines ways in which the sociocultural contexts of different time periods are reflected by changes to the narrative and the zombies of Romero's original versions Nightmare Movies Kim Newman, 2011-04-18 Now over twenty years old the original edition of *Nightmare Movies* has retained its place as a true classic of cult film criticism In this new edition Kim Newman brings his seminal work completely up to date both reassessing his earlier evaluations and adding a second part that assesses the last two decades of horror films with all the wit, intelligence and insight for which he is known Since the publication of the first edition horror has been on a gradual upswing and taken a new and stronger hold over the film industry Newman negotiates his way through a vast back catalogue of horror charting the on-screen progress of our collective fears and bogeymen from the low budget slasher movies of the 60s through to the slick releases of the 2000s in a critical appraisal that doubles up as a genealogical study of contemporary horror and its forebears Newman invokes the figures that fuel the ongoing demand for horror: the serial killer, the vampire, the werewolf, the zombie and draws on his remarkable knowledge of the genre to give us a comprehensive overview of the modern myths that have shaped the imagination of multiple generations of cinema goers *Nightmare Movies* is an invaluable companion that not only provides a newly updated history of the darker side of film but a truly entertaining guide with which to discover the less well-trodden paths of horror and re-discover the classics with a newly instructed eye **The Shining** Roger Luckhurst, 2019-07-25

Stanley Kubrick hailed *The Shining* as the scariest horror film of all time before its release in 1980 Though the film opened to poor reviews it has since become one of the most admired horror films in cinema history Exerting an enormous influence on popular culture *The Shining* has spawned a vast array of interpretations and conspiracy theories Roger Luckhurst's illuminating study explores the film's themes, tropes and resonances through a detailed analysis of sequences and performances Situating *The Shining* in a series of fresh contexts Luckhurst looks at the complex nature of horror cinema at the end of the 1970s and early 80s Taking the maze of the haunted hotel as a key motif he offers numerous threads with which to navigate the strange twists and turns of this enigmatic film This limited edition features original cover artwork by Mark Swan Beyond the Living Dead Bruce Peabody, Gloria Pastorino, 2021-09-13 In 1968 George Romero's film *Night of the Living Dead* premiered launching a growing preoccupation with zombies within mass and literary fiction film, television and video games Romero's creativity and enduring influence make him a worthy object of inquiry in his own right and his long career helps us take stock of the shifting interest in zombies since the 1960s Examining his work promotes a better understanding of the current state of the zombie and where it is going amidst the political and social turmoil of the twenty-first century These new essays document, interpret and explain the meaning of the still-budding Romero legacy drawing cross-disciplinary perspectives from such fields as literature, political science, philosophy and comparative film studies Essays consider some of the sources of Romero's inspiration including comics, science fiction and Westerns chart his influence as a storyteller and a social critic and consider the legacy he leaves for viewers, artists and those studying the living dead **The**

Cinema of George A. Romero Tony Williams, 2015-04-14 In this comprehensive portrait of horror's definitive director Tony Williams ties George A. Romero's films to the development of literary naturalism and American culture expanding the artist's creative footprint beyond his mastery of the splatter movie genre Williams locates Romero's influences in the work of Emile Zola the Entertainment Comics of the 1950s and the novels of Stephen King revealing the interdisciplinary depth of his seminal films *Night of the Living Dead* 1968 *Creepshow* 1982 *Monkey Shines* 1988 and *The Dark Half* 1992 For this second edition Williams reads Romero's *Bruiser* 2000 against his more recent *Land of the Dead* 2005 and takes a fresh look at *Diary of the Dead* 2007 and *Survival of the Dead* 2009 two overlooked films that feature Romero's greatest achievements yet

Horror and Science Fiction Cinema and Society Martin Harris, 2024-09-02 Examining how horror and science fiction films from the 1950s to the present invent and explore fictional us versus them scenarios this book analyzes the different ways such films employ allegory and or satire to interrogate the causes and consequences of increasing polarization in American politics and society Starting with the killer ants film with an anti communist subtext *Them* 1954 and concluding with Jordan Peele's social horror film with revenge seeking homicidal doppelgangers *Us* 2019 Martin Harris highlights social and political contexts contemporary reviews and responses and retrospective evaluations to show how American horror and science fiction films reflect and respond to contemporary conflicts marking various periods in U S history from post WWII to the present including those concerning race gender class faith political ideology national identity and other elements of American society *Horror and Science Fiction Cinema and Society* draws upon cinematic sociology to provide a resourceful approach to American horror and science fiction films that integrates discussion of plot construction and character development with analyses of the thematic uses of conflict guiding readers understanding of how filmmakers create otherworldly confrontations to deliver real world social and political commentary

Dharma of the Dead Christopher M. Moreman, 2018-07-10 With the increased popularity of zombies in recent years scholars have considered why the undead have so captured the public imagination This book argues that the zombie can be viewed as an object of meditation on death a memento mori that makes the fact of mortality more approachable from what has been described as America's death denying culture The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity's search for meaning in an increasingly global and secular world Zombies are analyzed in the context of Buddhist thought in contrast with social and religious critiques from other works
