Nine Clinical Cases The Soul Of Pastoral Care And Counseling:

Nine Clinical Cases: Raymond Lawrence, 2015-09-18 This book is actually an expanded review of the Fitchett Nolan book and its thesis For each of the nine cases and for each of the three associated critiques I have provided a summary Following that I add my own critique of each case itself and of each associated critique Following that is a summary and critique of the chapter on ethical concerns by David B McCurdy Finally I set the entire book in the context of the clinical pastoral training tradition Most of the published work on clinical pastoral supervision seems to have focused on principles and theory The value of the Fitchett Nolan work is that it is based on specific clinical cases the nine cases that are published in the book itself I hope they will have set the standard for future publications Theory is useful but nothing is quite as useful nor quite as engrossing as a specific clinical case Fitchett in his introduction to the book argues for more published cases in the clinical pastoral training field The current paucity of published clinical cases is actually puzzling in that the movement itself began a century ago with the study of cases The founder of clinical pastoral training Anton Boisen actually made himself and his personal troubles the principal case Therefore I second Fitchett's call for more published cases in the field as the best route for learning the art and science of pastoral care counseling and psychotherapy The work that follows is a running commentary on the 9 cases as well as the 27 commentaries on the cases and on the summary essay Ethical Issues in Case Study Publication In addition to the two editors six additional persons appear as critics of some of the cases For better or for worse I have commented on each and every one I have elected throughout not to name the specific chaplains whose work is included herein I am not thereby keeping a confidence Their names and current positions are clearly identified in the Fitchett Nolan book itself But I am electing not to expose them further I prefer to grant them what meager privacy yet available to them which is not much I actually feel some admiration for the nine who put their clinical pastoral work on view for all the world to see and to pick apart It is a very courageous choice to put one's work in the public arena for scrutiny It is also potentially hurtful particularly if one has thin skin and more so if one has enemies eager to enter the fray for purposes of devaluation No one is without flaws No professional works without missteps And no one is immune to certain blindnesses But few would choose to lay their flaws and missteps open to public scrutiny We have to applaud the courage of these presenting chaplains and pastoral counselors who have laid their professional work open to public examination in this book They have my admiration and my esteem But as the reader will see I have not elected to coddle or to consider the feelings of the presenters of the nine cases published here I am assuming that they are professionals prepared to receive straightforward critique of their work Nor do I spare their published critics Nor do I myself expect to be spared strong rebuttal particularly in instances where I might have been wrong or uninformed

Nine More Clinical Cases Raymond J. Lawrence, Jr., 2020-07-30 Anton T Boisen who started the clinical pastoral movement believed that carefully reviewing cases of actual patients is the only effective way to train chaplains But what distinguishes clinical chaplaincy in the tradition of Boisen from

the work of other religious or spiritual practitioners who might lay claim to the title chaplain Responding to a second volume of cases published by George Fitchett and Steve Nolan the distinguished CPE supervisor Raymond J Lawrence provides alternative approaches to each case ones that penetrate more deeply into the heart and soul of the patient offering a more compassionate and meaningful sort of chaplaincy Like its predecessor volume Nine Clinical Cases The Soul of Pastoral Care Counseling this book is intended for those who want to move from a service delivery and prayer warrior form of chaplaincy to one that is more psychodynamically based It is also intended for those who train chaplains and aspire to doing so better

Chaplaincy and the Soul of Health and Social Care Ewan Kelly, John Swinton, 2019-12-19 Gathering together thoughts and visions of experienced practitioners academics educators and strategic leaders from around the world this edited volume sheds light on the nature of chaplaincy and its role and significance within ever changing contemporary healthcare systems A wide range of issues central to spiritual care delivery are covered including reflections on what it feels like to be cared for by a chaplain through illness the nature of chaplaincy as a profession and how chaplains can engage with healthcare institutions in ways that have integrity yet are also deeply spiritual The focus throughout is that chaplaincy should not only be guidance for people in distress as a form of crisis intervention but is rather about helping to promote wellbeing and enhance people's quality of life Where specialisms tend to fragment systems and individuals this book seeks to show that true health and wellbeing can only be found through a holistic approach and shows how chaplaincy can bring this to the table This book is for anyone who recognises the centrality of spirituality for wellbeing and wishes to see what that might look like in practice *Transforming Chaplaincy* Steve Nolan, Annelieke Damen, 2021-10-28 Evidence based medicine has transformed contemporary medical practice For over twenty five years George Fitchett has been a pioneering advocate of the view that evidence based spiritual care can and should equally transform chaplaincy This book collects a key selection from his ground breaking research As models of good research practice these papers demonstrate the real world value of research and introduce their readers to issues that have continuing importance to spiritual care and professional chaplaincy As such this collection offers an ideal introduction to spiritual care research The collection is complemented by three essays specially commissioned from observers well positioned to comment on future directions for both professional chaplaincy and spiritual care research Recovery of Soul Raymond J. Lawrence, 2017-10 The clinical pastoral movement in the 20th century changed the face of American religion Written from an insider's point of view the movement's development is candidly presented in this monograph The book offers a fresh account of the complex beginnings of contemporary clinical chaplaincy and pastoral counseling rooted in one clergyman's psychosis and his emergence from it Freud and the development of psychoanalytic theory and the various and contradictory ways that religion in America responded Author Raymond J Lawrence pulls no punches in his chronicle of the movement in its many aspects from the sordid to the transformative and all that is in between From the life and work of founder Anton T Boisen and his principal collaborator Helen Flanders Dunbar to

key figures such as Wayne Oates Myron Maddon Joan Hemenway and Donald Capps Lawrence provides not just a history but also a revealing memoir of his own 50 years experience that amount to a complex accursed and redemptive story of the clinical pastoral care movement

Psycho-spiritual Care in Health Care Practice Guy Harrison, 2017-05-18 This book explores relationships between the medical psychological and spiritual requirements of patients in health care settings Building on understanding between all health care disciplines and offering a model for practical development it presents a holistic inclusive approach to providing effective care for patients

Injustice and the Care of Souls, Second Edition Sheryl A. Kujawa-Holbrook, Karen B. Montagno, 2023-09-12 The practice of pastoral care cannot escape the realities of injustices and oppression that often operate in the context where caregiving happens In response Sheryl A Kujawa Holbrook and Karen B Montagno present a compilation of essays that reach beyond individualistic white Western middle class models of caregiving that can mimic systems of injustice Instead the resulting volume offers constructive approaches to caregiving that more effectively meet the needs of those who routinely experience marginalization and oppression Kujawa Holbrook and Montagno argue that the fundamental work of religious traditions including caregiving is about human freedom and wholeness As such Injustice and the Care of Souls helps chaplains pastoral counselors social service workers and other caregivers to better situate their work within the contexts of those seeking care The book also helps caregivers to reflect on ways their social locations affect their work Since its first publication nearly fifteen years ago this book uniquely offered content that situated contexts such as substructures in urban neighborhoods religious liturgical practices and the impact of public policies as the focus for examining critical dynamics surrounding those seeking care the caregiver and the hope for oppression sensitive forms of pastoral care This second edition revises and reorganizes previous essays while providing additional ones New chapters include ones that highlight the dead time of prison life the impact of moral decision making on veterans and the life or death challenges that immigrants and refugees often face Kujawa Holbrook and Montagno divide this edition s twenty seven essays into five parts with the first part devoted to the pastoral caregiver s positionality The remaining sections address pastoral caregiving as embodied practices cultural fluency and intersectional awareness pastoral practice across the life span and pastoral practice and public witness This volume s contributors offer spiritual caregivers a compilation of approaches to the care of souls that bring healing voice and wholeness to the marginalized and oppressed

The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed

by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling

Basic Types of Pastoral Care & Counseling Howard Clinebell, 2011-08-01 Basic Types of Pastoral Care and Counseling remains the standard in pastoral care and counseling This third edition is enlarged and revised with updated resources methods exercises and illustrations from actual counseling sessions This book will help readers be sensitive to cultural diversity ethical issues and power dynamics as they practice holistic growth oriented pastoral care and counseling in the parish
