Nineteenth-century Cities Essays In The New Urban History:

Nineteenth-century Cities Stephan Thernstrom, Richard Sennett, 1969 Urban Historical Geography Dietrich Denecke, Gareth Shaw, 1988-06-30 Originally published in 1988 this book provides a fascinating comparative review of research in urban historical geography in Britain and West Germany It draws together a wide range of material on the history of urban development to explore the theoretical and methodological possibilities offered by comparative surveys of contrasting national and regional urban expenses The chronological focus of the essays ranges in time from the medieval period onwards and the contributors explore not only the specifically intellectual consequences of their empirical research but also its policy implications for urban planners and conservationists Serious extended comparative debate has hitherto been absent from the field of urban historical geography as a whole this volume sought to reverse that trend and in so doing to establish a fresh research agenda for an important and expanding discipline *The New Urban History* Leo Francis Schnore, 2015-03-08 As part of the new consciousness concerning the history of the American city younger historians economists and geographers working with quantitative methods on urban historical problems were brought together at a conference sponsored by the History Advisory Committee of the Mathematical Social Science Board The papers in this volume products of the conference represent the pioneer stage of quantitative exploration in United States urban history United by a common concern with the growth of cities in society and the effects of growth on the internal organization and related social order of cities the papers deal with such topics as jobs residences neighborhoods adjustment status accommodation innovation and location The authors attempt to measure some of the attitudes and behavior of capitalists workers immigrants and freedmen and speculate on the ways in which households firms and assorted social groupings cope with changing physical and social environments The essays demonstrate the productive use of quantitative research techniques ranging from simple enumeration of data in tabular form to sophisticated types of statistical hypothesis testing and mathematical modeling Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Routledge Revivals: French Cities in the Nineteenth Century (1981) John Merriman, 2018-02-01 Originally published in 1981 French Cities in the Nineteenth Century analyses large scale processes of social change and looks at how this affected the growth of towns and cities of nineteenth century France The book addresses how this change affected the politics of life in France during the nineteenth century as well as how the city was organised Urbanization created new uses of space and new concerns for the people that lived among them and the book looks at how social change was a collective experience for the people of France

and how this transformed the societies in which they lived **The Emergence of the Middle Class** Stuart M. Blumin, 1989-09-29 This book traces the emergence of the recognizable middle class from the 1760 1900

Rozenblit, 2012-02-01 Ablaze with excitement effervescent with creativity late nineteenth century Vienna was the ideal site for this analysis of the ways in which a sizable and significant group of Jews was assimilated into European society After leaving homes in the Austrian and Hungarian provinces and migrating to the Austrian capital the Jews underwent a variety of profound changes The Jews of Vienna shows how they successfully transformed old identifiably Jewish patterns of behavior into modern urban variations without abandoning their ethnic identity in the process Marsha L Rozenblit describes the Jews migration to Vienna the occupational changes they experienced in the city where and how they lived the various means they used to achieve social integration and the vibrant network of Jewish organizations they established As they evolved new patterns of urban Jewish life the Viennese immigrants also created ideologies which defined the place of the Jew in European society Rozenblit shows how this urbanization led to social change while simultaneously providing the necessary demographic foundation for continued Jewish identity in modern Europe

Fantasy City John Hannigan, 2005-07-20 Fantasy City analyses the post industrialist city as a site of entertainment By discussing examples from a wide variety of venues including casinos malls heritage developments and theme parks Hannigan questions urban entertainments economic foundations and historical background He asks whether such areas of fantasy destroy communities or instead create new groupings of shared identities and experiences The book is written in a student friendly way with boxed case studies for class discussion *English Prose of the Nineteenth Century* Hilary Fraser, Daniel Brown, 2017-07-12 Hilary Fraser provides a comprehensive and thorough survey of English prose in the nineteenth century which draws from a wide variety of fields including art literary theory and criticism biography letters journals sermons and
