Join, or Die - Philosophical Foundations of Federalism Dietmar Heidemann, Katja Stoppenbrink, 2016-08-08 Research on federalism is rarely concerned with its philosophical foundations. However, arguments on why and how best to organise a plurality of states in a multilevel political order have first been discussed by philosophers and continue to inspire contemporary reasoning on international and supranational relations not only in political philosophy. This book offers a unique overview of the philosophical foundations of federalism from both a historical and a systematic perspective. The analyses proposed by renowned scholars from the US and from several European countries cover classic writers such as Hobbes and the authors of the Federalist Papers, Kant and Rawls and range from anthropological justifications of federal orders to contemporary problems of EU constitutionalism, the principle of subsidiarity and the jurisdiction of the European Court of Human Rights (ECtHR). The book is of relevance to anyone interested in philosophical justifications of federalism.

Political Philosophy Jean Hampton, 2018-02-12 In this sophisticated yet accessible text, Hampton neatly synthesizes the classical tradition, the giants of the modern period, the dominant topics of the 20th century as well as the new questions and concerns that are just beginning to rewrite contemporary political philosophy. Political philosophy perhaps even more than other branches of philosophy calls for constant renewal to reflect not just readings of the tradition but also the demands of current events. In this lively and readable survey, Jean Hampton has created a text for our time that does justice both to the great traditions of the field and to the newest developments. In a marvelous feat of synthesis, she links the classical tradition, the giants of the modern period, the dominant topics of the twentieth century and the new questions and concerns that are just beginning to rewrite contemporary political philosophy. Hampton presents these traditions in an engaging and accessible manner, adding to them her own views and encouraging readers to critically examine a range of ideas and to reach their own conclusions. Of particular interest are the discussions of the contemporary liberalism, communitarianism, debates, the revival of interest in issues of citizenship and nationality and the way in which feminist concerns are integrated into all these discussions. Political Philosophy is the most modern text on the topic now available, the ideal guide to what is going on in the field. It will be welcomed by scholars and students in philosophy and political science and it will serve as an introduction for readers from outside these fields.

Why Religion? Towards a Critical Philosophy of Law, Peace and God Dawid Bunikowski, Alberto Puppo, 2020-02-11 This book examines the relation between religion and jurisprudence, God and peace respectively. It argues that in order to elucidate the possible role religion can play in the contemporary world, it is useful to analyse religion by associating it with other concepts. Why peace? Because peace is probably the greatest promise made by religions and the greatest concern in the contemporary world. Why jurisprudence? Because, quoting Kelsen's famous book *Peace through Law*, peace is usually understood as something achievable by international legal instruments. But what if we replace *Peace through Law* with *Peace through Religion*? Does

law as an instrument for achieving peace incorporate a religious dimension Is law ultimately a religious and normative construction oriented to peace to the protection of humanity in order to keep humans from the violence of nature Is the hope for peace rational or just a question of faith Is religion itself a question of faith or a rational choice Is the relatively recent legal concept of responsibility to protect a secular expression of the oldest duty of humankind The book follows the structure of interdisciplinary research in which the international legal scholar the moral philosopher the philosopher of religion the theologian and the political scientist contribute to the construction of the necessary bridges Moreover it gives voice to different monotheistic traditions and more importantly it analyses religion in the various dimensions in which it determines the authors cultures as a set of rituals as a source of moral norms as a universal project for peace and as a political discourse
