Alexander Blaikie,1855 The Philosophy of Sectarianism, Or, A Classified View of the Christian Sects in the United States Alexander Blaikie,1854 *Sectarianism without Sects* Azmi Bishara,2022-03-01 This volume analyses the transformation of social sectarianism into political sectarianism across the Arab world Using a framework of social theories and socio historical analysis the book distinguishes between ta ifa or sect and modern ta ifiyya sectarianism arguing that sectarianism itself produces imaginary sects It charts and explains the evolution of these phenomena and their development in Arab and Islamic history as distinct from other concepts used to study religious groups within Western contexts Bishara documents the role played by internal and external factors and rivalries among political elites in the formulation of sectarian identity citing both historical and contemporary models He contends that sectarianism does not derive from sect but rather that sectarianism resurrects the sect in the collective consciousness and reproduces it as an imagined community under modern political and historical conditions *Sectarianism without Sects* is a vital resource for engaging with the sectarian crisis in the Arab world It provides a detailed historical background to the emergence of sect in the region as well as a complex theoretical exploration of how social identities have assumed political significance in the struggle for power over the state The American Catalogue of Books: Or, English Guide to American Literature, Giving the Full Title of Original Works Published in the United States Since the Year 1800.
