Philosophy And The Flow Of Presence Religion:

The Yoga of Love ,2025-05-19 The idea that something can be present at every place has engendered much discussion both in the past and at present Typically omnipresence is thought to be a divine attribute but the question as to how something can be omnipresent has not been historically confined to the status of a divine being The Oxford Handbook of Omnipresence offers an insight into historical accounts of omnipresence and its developments in ancient medieval modern and contemporary thought It further widens the study of omnipresence by including less widely studied strands of thought on this topic from mystical process theological feminist theological and phenomenological perspectives Additionally whilst the study of omnipresence has typically focused on Christian thinkers the volume broadens the range of voices on this attribute further by including Jewish Islamic Buddhist Sanskrit and Donghak accounts The Handbook provides an introduction to the main facets of omnipresence both historical and contemporary and opens up new avenues for research that are yet to be fully explored *Axiomatic Philosophy* Pritam Sen,1996 Scientific Method In Philosophy Scientific Method Summary Of Axiomatic Philosophies Western Philosophies Plato Aristotle Kant Russell Eastern Philosophies Samkara Bhagavadgita Confucius Lao Tzu New Axioms New Aristotelian Philosophy A Rational Religious Philosophy References Index

Philosophy and the Flow of Presence Stephen J. Costello,2014-07-18 This book is a philosophical exploration of desire drama and the divine Ground of being that pays particular attention to Eric Voegelin s symbol of the flow of presence in our lives It shows how this Flow may be impeded by anxiety or depression and how the solution involves attending to the meaning of the moment living meditatively in the present and discerning the divine desire Dr Costello s guides on this personal quest aside from Voegelin whose thought provides a philosophical framework for his exploration are Goethe Iris Murdoch Etty Hillesum and St Ignatius of Loyola **Spirituality in the Writings of Etty Hillesum** Klaas Smelik,Ria van den Brandt,Meins G. S. Coetsier,2010-10-25 Much of the previous scholarship on Etty Hillesum 1914 1943 was done by individual scholars within the analyses of their fields After the proceedings of the international Etty Hillesum Congress at Ghent University in November 2008 this Congress volume is the first joined effort by more than twenty Hillesum experts worldwide It is an absorbing account of international scholarship on the life works and vision of the Dutch Jewish writer Etty Hillesum whose life was shaped by the totalitarian Nazi regime Hillesum s diaries and letters illustrate her heroic struggle to come to terms with her personal life in the context of World War II Building on new interest in theology philosophy and psychology this book revives Hillesum research with a comprehensive rereading of both her published works and lesser known secondary discourses on her life The result is fascinating With the current explosion of interest in inter religious dialogue peace studies Judaism the holocaust gender studies and mysticism it is clear that this Congress volume will be invaluable to students and scholars in various disciplines *Religion and Human Autonomy* R.F. de Brabander,2012-12-06 For most of its career philosophy of religion has been a controversial discipline it has usually ended up becoming a

substitute for what it set out to explain Born out of the religious scepticism of the late seventeenth century it remained for many years what it was to Hume and Lessing an instrument for criticizing rather than for interpreting faith Gradually the hostility subsided but not the tendency to reduce Nearly each one of the great names in this area represents a theory that goes beyond faith Phenomenology changed that situation Conceived for accurate understanding of acts and meanings rather than for the building of vast syntheses its method was more apt to yield understanding than criticism Moreover by distinguishing the ideal meanings from the psychic realities of the act it chased its followers from the quagmire of psychic genesis causal justification and rational proof of the religious object and forced them to concentrate on the intentional terminus of the experience

The Divine Manifold Roland Faber, 2014-07-30 The Divine Manifold is a postmodern enquiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante's Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism's and process theology's insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and creativeness formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo

Religion as a philosophical matter Lars Albinus, 2016-03-21 The book works out new perspectives for a philosophy of religion that aims beyond the internal questions of rationality within a theological tradition on the one hand and the outer criticism of religion from naturalistic quarters on the other Instead it places itself within a wider philosophical view in line with groundbreaking thoughts about culture and a basic human conditionality among interwar philosophers such as Ernst Cassirer Ludwig Wittgenstein Walter Benjamin and Martin Heidegger The book also offers a concrete interpretation of examples of religious phenomena displaying a human world relation that centers on issues of truth name and habitation Finally lines are drawn to Jean Luc Nancy's current rethinking of Christianity

Process Philosophy and Political Liberalism Daniel A. Dombrowski, 2019-05-03 Daniel A Dombrowski brings together the thought of the 20th century philosophy's greatest political liberal John Rawls with the thought of the great process philosophers Alfred

North Whitehead and Charles Hartshorne He shows that political liberalism is intimately linked with process philosophy renaming it process liberalism He justifies this process liberalism in contrast to four potentially troublesome sources or influences metaphysics religion right wing politics and left wing politics Dombrowski engages a series of interlocutors and alternative positions including Franklin I Gamwell Timothy D Snyder Martin Heidegger and Karl Marx In conclusion he offers a compelling intricate and resourceful argument for nonhuman animal rights based on Rawlsian principles which in turn forms the basis of a future environmental ethics

Problems of Faith S.H. Smith, 2014-07-11 The material here was originally intended as a third section in Smiths previous offering *The Problem of God* but took on a life of its own to become a separate work *The Problem of Faith* is thus a sequel to the former work and deals with those questions with which all thinking believers wrestle the nature of religious language evil and the God of love the concept of miracles and of prayer the relationship between faith and reason life after death and the problem of hell The aim is to encourage the reader to engage afresh with these essential issues

God in Process Thought S. Sia, 2012-12-06 One of the controversial issues which have recently come into prominence among philosophers and theologians is how one should understand the term I God It seems that despite the fact that a certain idea of God is assumed by not most people there is a degree of disagreement over the meaning many if of the term God is generally taken to refer to a supreme Being the Creator who is perfect and self-existent holy personal and loving This understanding of God corresponds to what many have either been brought up to believe in or have come to accept as the meaning of this word Nevertheless theists appear to be defending a particular idea of God and to be accusing atheists of attacking another one which does not tie in with the theistic interpretation Cardinal Maximus IV for instance is quoted as saying The God the atheists don't believe in is a God I don't believe in either 2 On the other hand atheists have been challenging believers to explain clearly what they mean by God because these critics cannot see how that idea can have any acceptable meaning Furthermore theists themselves seem to be divided over the issue H P Owen in his book *Concepts of Deity* shows quite convincingly that there is a bewildering variety of concepts of God among theists One has only to ask around for confirmation of this observation
