Rouault In Perspective:

Rouault in Perspective Soo Yun Kang, 2000 This work of art history is a study of George Rouault's religious iconography

Georges Rouault and Material Imaging Jennifer Johnson, 2020-11-26 This book considers questions of materiality and painting focalized through the notoriously obscure work of Georges Rouault and offers an innovative critical approach to the various questions raised by this challenging modernist. Described as a difficult and dark painter, Rouault's oeuvre is deeply experimental. Images of the circus emerge from a plethora of chaotic marks while numerous landscapes appear as if ossified in thick paint. Rouault's work explodes the genre of painting drawing upon the residue of Gustave Moreau's symbolism, the extremities of Fauvism, and the radical theatrical experiments of Alfred Jarry. The repetitions and reworkings at the heart of Rouault's process defy conventional chronological treatment and place the emphasis upon the coming into being of the work of art. Ultimately, the book reveals the process of making as both a search for understanding and a response to the problematic world of the 20th century

A Theology of Creation Thomas S. Hibbs, 2023-08-15 This book provides the first sustained philosophical treatment of Pope Francis's *Laudato Si* and articulates a theology of creation to recover our place within the cosmos. In the encyclical *Laudato Si*, Pope Francis discerns beneath the imminent threat of ecological catastrophe an existential affliction of the human person who is lost in the cosmos increasingly alienated from self, others, nature, and God. Pope Francis suggests that one must reimagine humanity's place in the created cosmos. In this ambitious and distinctive contribution to theological aesthetics, Thomas S. Hibbs provides the basis for just such a recovery, working from *Laudato Si* to develop a philosophical and theological diagnosis of our ecological dislocation, a narrative account of the sources of the crisis, and a vision of the way forward. Through a critical engagement with the artistic theory of Jacques Maritain, Hibbs shows how certain strains of modern art both capture our alienation and anticipate visions of recovered harmony among persons, nature, and God. In the second half of the book, in an attempt to fulfill Pope Francis's plea for an aesthetic education and to apply and test Maritain's theory, Hibbs examines the work of poets and painters. He analyzes the work of poets Robinson Jeffers and William Everson and considers painters Georges Rouault, a friend to Maritain, and Makoto Fujimura, whose notion of culture care overlaps in suggestive ways with Francis's notion of integral ecology. Throughout this tour de force, Hibbs calls for a commitment to an ecological poetics, a project that responds to the crisis of our times by taking poets and painters as seriously as philosophers and theologians

A Prophet in the Darkness Wesley Vander Lugt, 2024-12-10 In this collection of essays, a group of theologians, artists, and historians explore Georges Rouault's historical context, personal suffering, and biblical themes, showing how his prophetic creativity continues to inspire artists and thinkers today. Chapters are interspersed with original artistic responses in the form of imagery and poetry

The Symbolist Roots of Modern Art Michelle Facos, 2017-07-05 With the words "A new manifestation of art was expected necessary inevitable," Jean Moréas announced the advent of the Symbolist movement in 1886. When Symbolist artists began experimenting in order to

invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments *Monet to Dalí* Cleveland Museum of Art, William H.

Robinson, Laurence Channing, Barbara J. Bradley, Margaret Burgess, 2007 This first comprehensive presentation of this collection from the Cleveland Museum of Art includes paintings by Monet Degas Renoir Boudin and Manet among other innovative artists of the Impressionist and Post Impressionist period Each painting is presented with descriptions detailing the artist's motifs and context of the work in the Impressionist era The title with its essays and over 100 colour plates provides a thorough focus of the dramatic artistic development of the century between 1850 and 1950 through the remarkable pieces of this collection 100 colour Illustrations *Parody and Festivity in Early Modern Art* David R.

Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book's title **Georges Rouault's Miserere Et Guerre** Holly Flora, Soo Yun Kang, 2006

A catalog produced by the Museum of Biblical Art to accompany This anguished world of shadows Georges Rouault's *Miserere et guerre* March 30 May 28 2006 Includes three scholarly essays and an extensive bibliography as well as reproductions of all 58 prints from the series two additional prints and three paintings accompanied by biblical quotations Provided by publisher **Psychoanalysis: Topological Perspectives** Michael Friedman, Samo Tomsic, 2016-12-15

The volume addresses the philosophical epistemological and interdisciplinary aspects of the link between psychoanalysis and topology Looking at the historical developments of psychoanalytic theory one can hardly overlook the significant presence of

architectonic and geometrical references that traverse Freud's writings Lacan's return to Freud made a decisive step in taking these metaphors seriously and engaged with the mathematical correspondence of Freud's topological models He thereby intensified the link with topology which obtained an important didactic and conceptual value The contributions highlight the ongoing relevance of this topological turn in psychoanalysis by exploring both concrete topological objects and outline the philosophical framework that supports the relation of psychoanalysis to topology *Diversity and Evolution of Animal Venoms: Neglected Targets, Ecological Interactions, Future Perspectives* Sebastien Dutertre, Maria Vittoria Modica, Mande Holford, Kartik Sunagar, 2020-05-06
