Out Front With Stephen Abram:

Out Front with Stephen Abram Stephen Abram, 2007-01-15 Stephen Abram has the knack for seeing and expressing the obvious long before most people become aware of the issue With bibliography of Abram's works and recommended reading list this volume gives perspective on the future of the library profession challenges preconceptions and helps librarians stay ahead of the learning curve *Legal Education in the Digital Age* Edward Rubin, 2012-04-16 During the coming decades the digital revolution that has transformed so much of our world will transform legal education as well The digital production and distribution of course materials will powerfully affect both the content and the way materials are used in the classroom and library This collection of essays by leading legal scholars in various fields explores three aspects of this coming transformation The first set of essays discusses the way digital materials will be created and how they will change concepts of authorship as well as methods of production and distribution The second set explores the impact of digital materials on law school classrooms and law libraries and the third set considers the potential transformation of the curriculum that the materials are likely to produce Taken together these essays provide a guide to momentous changes that every legal teacher and scholar needs to understand Colonization and Imperialism in Libraries Mark-Shane Scale, 2021-02-11 Former university lecturer and Caribbean immigrant Mark Shane Scale offers an unsettling look at how the centuries old legacy of colonialism and imperialism continues to haunt one of the most seemingly innocuous and unexpected of spaces the world's modern libraries Library and information sciences emerged from a noble commitment to making knowledge more easily accessible to the world Yet empowering and global library institutions with the ability to facilitate intercultural communication social cohesion and conflict resolution have simultaneously been weaponized as instruments of ideological and cultural propaganda throughout the ages A meticulous analysis of historical and current library systems and practices crescendos to a visionary proposal for paving the way ahead a holistic integrated approach to finally decolonize global libraries in a way that builds an ever evolving archive of human knowledge and human experience that is truly inclusive of all voices indigenous colonized formerly colonized and immigrant voices alike At the height of the information age this book is a foundational must read for all librarians library school students and library users around the world a contemporary perspective that boldly lays out a timely and much needed reform to an institution that might otherwise risk its relevance to the modern global landscape **Curriculum Materials Collections and Centers** Rita Kohrman, 2012 This book captures the evolution of the education collections and services integral to teacher preparation Edited by Rita Kohrman education resources librarian at Grand Valley State University the book provides practical applications for curriculum material center CMC operations that focus on the fundamental needs of students faculty and current teachers Initial chapters focus on the foundations of place CMCs within theoretical and historical contexts their original goals purposes and services Succeeding chapters discuss how curriculum centers are evolving to meet the changes in teacher preparation now and in the

future Licensing Digital Content Lesley Ellen Harris,2009-06 Provides an overview of issues surrounding electronic media access licenses for librarians *Distributed Learning and Virtual Librarianship* Sharon G. Almquist,2011-09-12 Brought to you by a team of experienced practitioners in the field this book examines the vast topic of library support for distributed learning providing both historical and contemporary viewpoints What is the best way to deliver research resources to students who live off campus as in way off campus in a rural area without a high speed Internet connection And where does one find a complete and accurate synopsis of copyright guidelines that will prevent well intentioned librarians from being labeled as the copyright police The answers to these two questions regarding distributed learning and many more are contained in *Distributed Learning and Virtual Librarianship* Written by practitioners in their field of expertise this book documents the history of distributed learning and discusses current issues in distributed learning librarianship with a special focus on the role of technology Topics covered include virtual libraries reference assistance E reserves and document delivery administrative and marketing issues and copyright concerns This text is valuable to librarians working in public school and academic libraries **Independent School Libraries** Dorcas Hand,2010-06-11 The first book published about independent school libraries since 1985 this work offers both the independent school library community and the broader school library community a wealth of insights into excellence in library practice *Independent School Libraries Perspectives on Excellence* offers readers insights into best practices in library services for school communities using examples drawn from independent schools of various sizes descriptions and locations across the United States Two overview essays introduce a statistical analysis of independent schools Each of the remaining essays provides perspective on a different aspect of library practice including staffing advocacy assessment technology collaboration programs beyond the curriculum intellectual freedom and privacy budgeting accreditation disaster planning and more Because independent school librarians work across divisions and without a mandate to adhere to state or national standards they have the freedom to explore and refine best practice in a school library setting Fortunately the ideas and methods they have developed many of which are on display here can be applied in any school library **Thinking Outside the Book** Carol Smallwood,2008-06-13 Professionals in all areas of librarianship will find inspiration in the essays collected here each of them innovative tips for increasing circulation enhancing collections and improving flexibility With extensive experience in the nation s top libraries and media centers the 73 contributors describe what really works based on their real world experiences Organized by subject the essays offer succinct and practical guidelines for dozens of tasks Topics include preparing and delivering distinctive presentations forming a successful grant proposal hosting a traveling multimedia exhibition organizing effective community partnerships writing blogs hosting authors creating cybertorials preserving local culture and many others **Developing People's Information Capabilities** Mark Hepworth,Geoff Walton,2013-08-01 *Developing People s Information Capabilities Fostering Information Literacy in Educational Workplace and Community Contexts* is Vol 8 of the

well regarded Library and Information Science Series This book hones in on accessible issues across different work and educational contexts and is of value to both academic and practitioner **M-Libraries 3** Mohamed Ally, Gill Needham, 2012-01-23 This title draws together international authorities to explore the variety of work that libraries are doing across the world to deliver resources to users via mobile and hand held devices Based on the proceedings of the Third International M Libraries Conference held in Brisbane in May 2011 this draws together cutting edge international contributions from the leading authorities in the field The main strands of discussion include mobile services and their development mobile users their behaviour and requirements emerging technical developments including new platforms devices and applications strategy and infrastructure developments at national level reflections and feedback on new service models local innovation Readership Information professionals in all sectors policy makers researchers developers publishers suppliers LIS students and new professionals
