Nine Principles Of Litigation And Life:

Nine Principles of Litigation and Life Michael E. Tigar, 2009 Michael Tigar is widely regarded as a top trial lawyer. In this book, Tigar reflects on the principles of action that are needed in litigation and in life. **Sensing Injustice** Michael E. Tigar, 2021-04-20 The remarkable life of a lawyer at the forefront of civil and human rights since the 1960s. By the time he was 26, Michael Tigar was a legend in legal circles; well before he would take on some of the highest profile cases of his generation. In his first US Supreme Court case at the age of 28, Tigar won a unanimous victory that freed thousands of Vietnam War resisters from prison. Tigar also led the legal team that secured a judgment against the Pinochet regime for the 1976 murders of Pinochet opponent Orlando Letelier and his colleague Ronni Moffitt in a Washington DC car bombing. He then worked with the lawyers who prosecuted Pinochet for torture and genocide. A relentless fighter of injustice, not only as a human rights lawyer but also as a teacher, scholar, journalist, playwright, and comrade, Tigar has been counsel to Angela Davis, Jamil Abdullah Al Amin, H Rap Brown, the Chicago Eight, and leaders of the Black Panther Party, to name only a few. It is past time that Michael Tigar wrote his memoir. *Sensing Injustice: A Lawyer's Life in the Battle for Change* is a vibrant literary and legal feat. In it, Tigar weaves powerful legal analysis and wry observation through the story of his remarkable life. The result is a compelling narrative that blends law, history, and progressive politics. This is essential reading for lawyers, law students, for anyone who aspires to bend the law toward change. **How Leading Lawyers Think** Randall Kiser, 2011-08-14 In this book, 78 leading attorneys in California and New York describe how they evaluate, negotiate, and resolve litigation cases. Selected for their demonstrated skill in predicting trial outcomes and knowing when cases should be settled or taken to trial, these attorneys identify the key factors in case evaluation and share successful strategies in pre-trial discovery, negotiation, mediation, and trials. Integrating law and psychology, the book shows how skilled attorneys mentally frame cases, understand jurors' perspectives, develop persuasive themes and arguments, and achieve exceptional results for clients. The Judicial Process Christopher P. Banks, David M. O'Brien, 2015-02-19 *The Judicial Process: Law, Courts, and Judicial Politics* is an all-new, concise yet comprehensive core text that introduces students to the nature and significance of the judicial process in the United States and across the globe. It is social scientific in its approach, situating the role of the courts and their impact on public policy within a strong foundation in legal theory or political jurisprudence, as well as legal scholarship. Authors Christopher P. Banks and David M. O'Brien do not shy away from the politics of the judicial process and offer unique insight into cutting-edge and highly relevant issues. In its distinctive boxes, *Contemporary Controversies over Courts* and *In Comparative Perspective*, the text examines topics such as the dispute pyramid, the law and morality of same-sex marriages, the hardball politics of judicial selection, plea bargaining, trends in the right to counsel and pay-as-you-go justice, judicial decisions limiting the availability of class actions, constitutional courts in Europe, the judicial role in creating major social change, and the role lawyers, juries, and alternative dispute resolution techniques play in the U.S. and throughout the world.

Photos cartoons charts and graphs are used throughout the text to facilitate student learning and highlight key aspects of the judicial process

Faith and Order Harold J. Life and Death Decisions Sheldon Ekland-Olson, 2014-11-12 Issues of Life and Death such as abortion assisted suicide capital punishment and others are among the most contentious in many societies Whose rights are protected How do these rights and protections change over time and who makes those decisions Based on the author's award winning and hugely popular undergraduate course at the University of Texas this book explores these questions and the fundamentally sociological processes which underlie the quest for morality and justice in human societies The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions Under 200 printed pages this slim paperback is priced and sized to be easily assigned in a variety of undergraduate courses that touch on the social bases underlying these contested and contentious issues

General Principles of EU Law and the Protection of Fundamental Rights Chiara Amalfitano, This insightful book analyses the role that EU general principles have taken in the protection of fundamental rights within the EU since the Lisbon Treaty In particular the author focuses on the relationship between written law the Charter of Fundamental Rights and unwritten law the general principles within the institutional framework of the EU The book demonstrates that due to their complementary and autonomous function toward the protection of fundamental rights the general principles still play a key role within the Union despite the binding force of

the Charter **Creating Human Value as Public Management Theory** Joseph Drew, 2025-04-16 Creating Human Value
CHV is a powerful public management theory that places the person at the centre of all decision making It is founded on
millennia old natural law philosophy updated to cope with contemporary problems At the heart of CHV is the ideal of human
flourishing this is achieved through pursuing the common good via public policy in a way that respects human dignity To
paraphrase Socrates it is about caring for the city rather than merely the city s possessions This book is the product of almost
a decade of research and teaching of this compelling alternate public management theory to government decision makers in
Australia and abroad In sum CHV is a much needed antidote to currently popular public management approaches that have
unduly prioritized the common good over dignity with catastrophic consequences for the lives of many people This book will
appeal to readers interested in public management public policy and government
