Paw Prints Student Workbook Pre K:

Paw Prints Student Workbook Pre-k Sarah Appleman, Alissa Alongi, 2014-11-18 Paw Prints is a handwriting curriculum geared toward the preschool and kindergarten grade levels that follows Common Core Curriculum standards. It can be utilized by teachers, special education service providers, or parents/guardians. It is designed to teach children letter recognition, letter formation, and early literary skills, phonetic awareness, as well as facilitating the development of fine and gross motor, visual perceptual, and visual motor skills needed to perform not only educational tasks but life tasks as well. This workbook was specially designed for pre-k students and includes Prewriting handouts to teach basic line strokes needed to form letters. Handouts for upper and lowercase letters that use images of animals to teach children to relate to the structure of the letters.

The All-Day Kindergarten and Pre-K Curriculum Doris Pronin Fromberg, 2012-03-22 Grounded in theory and research, The All Day Kindergarten and Pre K Curriculum provides an activity-based and classroom-proven curriculum for educators to consider as they plan and interact with pre-k and kindergarten children. Allowing young children the opportunities to become independent, caring, critical thinkers who feel comfortable asking questions and exploring possible solutions, the Dynamic Themes Curriculum offers children the skills they need for responsible citizenship and academic progress. This book describes a culturally sensitive pre-k and kindergarten curriculum in the context of literacy, technology, mathematics, social studies, science, the arts, and play, and also discusses how to use the seven integrated conditions for learning to meet and exceed content learning standards, how to organize for differentiated instruction, and to integrate multiple forms of assessment. How to teach literacy tools and skills in fresh ways, how to work with families, colleagues, and community. Building off of author Doris Fromberg's groundbreaking earlier work, The All Day Kindergarten and Pre K Curriculum presents a practical curriculum centering on how young children develop meanings. This is a fantastic resource for pre and in-service early childhood teachers, administrators, and scholars.

Exploring Children's Creative Narratives Dorothy Faulkner, Elizabeth Coates, 2011-04-04 How should we understand children's creativity? This fascinating collection of international research offers fresh perspectives on children's creative processes and the expression of their creative imagination through dramatic play, stories, artwork, dance, music, and conversation. Drawing on a range of research evidence from innovative educational initiatives in a wide variety of countries, Exploring Children's Creative Narratives develops new theoretical and practical insights that challenge traditional thinking about children's creativity. The chapters, written by well-respected international contributors, offer new conceptual and interpretive frameworks for understanding children's creativity, contest conventional discourses about the origins and nature of creativity, challenge the view that young children's creativity can only be judged in terms of their creative output, explore the significance children themselves attribute to their creative activity, argue the need for a radical reappraisal of the influence of the sociocultural context on children's creative expression, discuss the implications of this research in relation to teacher education and curriculum design.
