Pdf Your First Garden Judith Adam:

The Modern Garden Pierluigi Serraino, 2024-10-01 Visionary landscape architecture and garden design at mid century in North America is captured by the greats of the era including Julius Shulman and Ezra Stoller in many previously unpublished photographs The treasures of mid century American architecture have long been celebrated Less appreciated has been the landscape design that provides the framing for these masterworks But more than frame landscape architecture is an art worthy of the spotlight particularly at mid century when the notion that gardens are outdoor spaces for people to live in was championed and brought to the fore now gardens and landscapes are not just external attributes to the house but a continuation of it and its living spaces in a relationship of symbiosis with its pools and terraces its winding lawns and its partly enclosed room like spaces flanked by brick or stone or plantings in a range of colors and forms Approximately seventy five mostly residential projects are thoroughly documented and recounted Landscape architects whose work is featured include Thomas Church Lawrence Halprin and Garrett Eckbo among others Highlights include the dramatic surrounds of Richard Neutra s Perkins House in its Pasadena hillside setting and Frank Lloyd Wright s Marin County Civic Center where environment and building comeingle in an extraordinary modernist vision of the future made real This book is both a wishful gesture toward a realignment of building with nature and a must have for anyone with a visceral appreciation for a designed environment understood as an integrated whole Ultimately the book underlines the fundamental importance of gardens and landscape design intended in the widest possible sense for the quality of living of all individuals

This is a Portrait If I Say So Anne Collins Goodyear, Jonathan Frederick Walz, Kathleen Merrill Campagnolo, Dorinda Evans, 2016-01-01 The first in depth exploration of the rise and evolution of abstract symbolic and conceptual portraiture in American art This groundbreaking book traces the history of portraiture as a site of radical artistic experimentation as it shifted from a genre based on mimesis to one stressing instead conceptual and symbolic associations between artist and subject Featuring over 100 color illustrations of works by artists from Charles Demuth Marcel Duchamp Marsden Hartley and Georgia O Keeffe to Janine Antoni Felix Gonzalez Torres Roni Horn Jasper Johns and Glenn Ligon this timely publication probes the ways we think about and picture the self and others With particular focus on three periods during which non mimetic portraiture flourished 1912 25 1961 70 and 1990 the present the authors investigate issues related to technology sexuality artist networks identity politics and social media and explore the emergence of new models for the visual representation of identity Taking its title from a 1961 work by Robert Rauschenberg a telegram that stated This is a portrait of Iris Clert if I say so this book unites paintings sculpture photography and text portraits that challenge the genre in significant often playful ways and question the convention as well as the limits of traditional portrayal

On Not Dying About Farman, 2020-04-21 An ethnographic exploration of technoscientific immortality Immortality has long been considered the domain of religion But immortality projects have gained increasing legitimacy and power in the world of science and technology With recent rapid advances in

biology nanotechnology and artificial intelligence secular immortalists hope for and work toward a future without death On Not Dying is an anthropological historical and philosophical exploration of immortality as a secular and scientific category Based on an ethnography of immortalist communities those who believe humans can extend their personal existence indefinitely through technological means and an examination of other institutions involved at the end of life Abou Farman argues that secular immortalism is an important site to explore the tensions inherent in secularism how to accept death but extend life knowing the future is open but your future is finite that life has meaning but the universe is meaningless As secularism denies a soul an afterlife and a cosmic purpose conflicts arise around the relationship of mind and body individual finitude and the infinity of time and the cosmos and the purpose of life Immortalism today Farman argues is shaped by these historical and culturally situated tensions Immortalist projects go beyond extending life confronting dualism and cosmic alienation by imagining and producing informatic selves separate from the biological body but connected to a cosmic unfolding On Not Dying interrogates the social implications of technoscientific immortalism and raises important political questions Whose life will be extended Will these technologies be available to all or will they reproduce racial and geopolitical hierarchies As human life on earth is threatened in the Anthropocene why should life be extended and what will that prolonged existence look like
