

THE HIDDEN MAN

A black and white photograph of a man running on a rooftop towards a city skyline, with St. Paul's Cathedral visible in the background. The man is seen from behind, running away from the viewer towards the horizon. The rooftop has a low railing, and the city below is filled with various buildings and structures. The sky is cloudy.

Privileging Water in Lima, Mexico City, and New Orleans Clare Cardinal-Pett, 2024-11-20 Privileging Water in Lima Mexico City and New Orleans An Environmental History charts the development of the indigenous hydro social territories and their colonial transformations into modern political ecologies This book begins with a summary of the environmental histories of these regions before the arrival of people To give water its due as an agent of historical processes it is important to understand its role in shaping these three distinct ecosystems a role it still plays today despite thousands of years of human intervention in the hydrological nature of those systems It is certain that as human caused climate changes rework ecosystems worldwide surviving the Anthropocene in Mexico City New Orleans and Lima will require other ways of knowing water as hydro social territories that challenge modern notions of urbanism and foreground ways of knowing formerly considered archaic Following the inextricable histories of water and anthropogenic landscapes provokes many questions about the nature of cities especially questions of environmental justice The answers should not be abstract or universal Instead Clare Cardinal Pett argues that urbanization on the planet must be reimagined and reconstructed as bio regional systems and hydro social territories that can be best defined more comprehensively as political ecologies *Telling Stories with Data* Rohan Alexander, 2023-07-27 The book equips students with the end to end skills needed to do data science That means gathering cleaning preparing and sharing data then using statistical models to analyse data writing about the results of those models drawing conclusions from them and finally using the cloud to put a model into production all done in a reproducible way At the moment there are a lot of books that teach data science but most of them assume that you already have the data This book fills that gap by detailing how to go about gathering datasets cleaning and preparing them before analysing them There are also a lot of books that teach statistical modelling but few of them teach how to communicate the results of the models and how they help us learn about the world Very few data science textbooks cover ethics and most of those that do have a token ethics chapter Finally reproducibility is not often emphasised in data science books This book is based around a straight forward workflow conducted in an ethical and reproducible way gather data prepare data analyse data and communicate those findings This book will achieve the goals by working through extensive case studies in terms of gathering and preparing data and integrating ethics throughout It is specifically designed around teaching how to write about the data and models so aspects such as writing are explicitly covered And finally the use of GitHub and the open source statistical language R are built in throughout the book Key Features Extensive code examples Ethics integrated throughout Reproducibility integrated throughout Focus on data gathering messy data and cleaning data Extensive formative assessment throughout **Swine in the Laboratory** M. Michael Swindle, Alison C. Smith, 2015-10-28 For two decades Swine in the Laboratory Surgery Anesthesia and Experimental Techniques has been the most respected practical technical guide for medical and veterinary researchers using swine as experimental animals Extensively updated and expanded since
