The True Story of Fake News Mark Dice,2017-11-03 Is fake news being spread through social media as part of an information war Are political operatives publishing disinformation to smear the opposition and help their own agendas Who creates fake news how does it spread and can it be stopped What are the real world effects of fake news stories that go viral Did it affect the outcome of the 2016 presidential election Or is fake news a fake problem designed to justify tighter control over the mechanisms of sharing information online to drive audiences back to brand name media outlets because their audiences and influence are dwindling Media analyst Mark Dice takes a close look at the fake news phenomenon and the implications of mega corporations like Facebook Google and Twitter becoming the ultimate gatekeepers and distributors of news and information You will see the powerful and deceptive methods of manipulation that affect us all as numerous organizations and political activists cunningly plot to have their stories seen heard and believed by as many people as possible The depths of lies distortions and omissions from traditional mainstream media will shock you and now they re colluding with the top tech companies trying to maintain their information monopolies This is The True Story of Fake News

The Coming of the American Behemoth Michael Joseph Roberto,2018-10-22 A primer on the history of American fascism Most people in the United States have been trained to recognize fascism in movements such as Germany s Third Reich or Italy s National Fascist Party where charismatic demagogues manipulate incensed vengeful masses We rarely think of fascism as linked to the essence of monopoly finance capitalism operating under the guise of American free enterprise But as Michael Joseph Roberto argues this is exactly where fascism s embryonic forms began gestating in the United States during the so called prosperous 1920s and the Great

Depression of the following decade Drawing from a range of authors who wrote during the 1930s and early 1940s Roberto examines how the driving force of American fascism comes not from reactionary movements below but from the top namely Big Business and the power of finance capital More subtle than its earlier European counterparts writes Roberto fascist America s racist top down quashing of individual liberties masqueraded as real democracy upholding the Constitution and the pressure to be 100 Percent American The Coming of the American Behemoth is intended as a primer to forge much needed discourse on the nature of fascism and its particular forms within the United States The book focuses on the role of the capital labor relationship during the period between the two World Wars when the United States became the epicenter of the world capitalist system Concentrating on specific processes which he characterizes as terrorist and non terrorist alike Roberto argues that the interwar period was a fertile time for the incubation of a protean more salable form of tyranny a fascist behemoth in the making whose emergence has been ignored or dismissed by mainstream historians This book is a necessity for anyone who fears America tipping ever closer in this era of Trump to full blown fascism
