American Christianities Catherine A. Brekus, W. Clark Gilpin, 2011-12-01 From the founding of the first colonies until the present the influence of Christianity as the dominant faith in American society has extended far beyond church pews into the wider culture Yet at the same time Christians in the United States have disagreed sharply about the meaning of their shared tradition and divided by denominational affiliation race and ethnicity they have taken stances on every side of contested public issues from slavery to women's rights This volume of twenty two original essays contributed by a group of prominent thinkers in American religious studies provides a sophisticated understanding of both the diversity and the alliances among Christianities in the United States and the influences that have shaped churches and the nation in reciprocal ways American Christianities explores this paradoxical dynamic of dominance and diversity that are the true marks of a faith too often perceived as homogeneous and monolithic Contributors Catherine L Albanese University of California Santa Barbara James B Bennett Santa Clara University Edith Blumhofer Wheaton College Ann Braude Harvard Divinity School Catherine A Brekus

The 100 Greatest Americans of the 20th Century Peter Dreier, 2012-06-26 A hundred years ago any soapbox orator who called for women's suffrage laws protecting the environment an end to lynching or a federal minimum wage was considered a utopian dreamer or a dangerous socialist. Now we take these ideas for granted because the radical ideas of one generation are often the common sense of the next. We all stand on the shoulders of earlier generations of radicals and reformers who challenged the status quo of their day. Unfortunately most Americans know little of this progressive history. It isn't taught in most high schools. You can't find it on the major television networks. In popular media the most persistent interpreter of America's radical past is Glenn Beck who teaches viewers a wildly inaccurate history of unions, civil rights and the American Left.

The 100 Greatest Americans of the 20th Century a colorful and witty history of the most influential progressive leaders of the twentieth century and beyond is the perfect antidote.

The Kingdom of God Is at Hand Theodore Kallman, 2021-04-15 In *Kingdom of God* Theodore Kallman illuminates the brief life of a Christian Socialist community founded by four men: a minister and editor, a professor and an engineer on a worn out cotton plantation just outside of Columbus, Georgia in 1896. While Christian Commonwealth only lasted until 1900 its combination of religious communitarianism and socialist ideology proved attractive to many. It was a place where women enjoyed a sort of political equality and where its school open to all white students of Muscogee County emphasized a critique of private property. Kallman explains how particular brand of Tolstoyan anarchism inspired by the Russian novelist's philosophical treatise *The Kingdom of God is Within You* 1894 and Christ's Sermon on the Mount took root in west central Georgia and attracted attention from famous onlookers. Leo Tolstoy and Jane Addams included. In Kallman's capable hands what appears to be merely a blip barely worth mentioning for historians of Georgia and the larger United States instead emerges as a story that has much to teach us about Gilded Age America and provides necessary context for the surging interest in America's socialist past.

Ending Slavery Collectif, 2023-12-18 *Ending Slavery* broadens the scope of the anti-slavery struggle beyond the national and domestic narrative to draw a map of a new transnational and differentiated geography of abolitionism. It aims at complicating our understanding of the antislavery struggle by offering an opportunity to rethink the relationship between the personal and the political in the antebellum period. Focusing on the post 1830 period *Ending Slavery* also presents a new and ambitious periodization by extending its historical breadth through Reconstruction.

well into the present to examine contemporary representations and interpretations of the history of abolitionism The book puts forward not only a reflection on the historiographical and memorial legacies of antislavery activity in the United States but it also interrogates how this activism partook and still partakes in the long Civil Rights Movement for full social and political equality for African Americans A collective enterprise that taps into and builds on recent research the volume brings together historians and African Americanists a majority of whom are based in Europe It ambitions to be a contribution that expands discussions and opens perspectives on the history of abolitionism Suitable for general readers students and scholars Ending Slavery will serve as a useful resource in the area of slavery and Atlantic studies

Fighting to Preserve a Nation's Soul Robert Bauman, 2019 Fighting to Preserve a Nation's Soul examines the relationship between religion race and the War on Poverty that President Lyndon Johnson initiated in 1964 and that continues into the present It studies the efforts by churches synagogues and ecumenical religious organizations to join and fight the war on poverty as begun in 1964 by the Office of Economic Opportunity The book also explores the evolving role of religion in relation to the power balance between church and state and how this dynamic resonates in today's political situation Robert Bauman surveys all aspects of religion's role in this struggle and substantially discusses the Roman Catholic Church mainline Protestant churches Jewish groups and ecumenical organizations such as the National Council of Churches In addition he pays particular attention to race showing how activist priests and other religious leaders connected religion with the antipoverty efforts of the civil rights movement For example he shows how the Interreligious Foundation for Community Organization IFCO exemplifies the move toward ecumenism among American religious organizations and the significance of black power to the evolving War on Poverty Indeed the Black Manifesto issued by civil rights and black power activist James Forman in 1969 challenged American churches and synagogues to donate resources to the IFCO as reparations for those institutions participation in slavery and racial segregation Bauman then explores the intricate and fundamental connection between religious organizations social movements and community antipoverty agencies and expands the argument for a long War on Poverty

The Age of Charisma Jeremy C. Young, 2017 This book demonstrates how the modern relationship between leaders and followers in America grew out of late nineteenth and early twentieth century charismatic social movements
