combined to create modern Western rationalism *The Protestant Ethic and the Spirit of Capitalism* Max Weber, 2020-05-29

Max Weber's celebrated thesis which explores the relationship between Protestant work ethic and the emergence of capitalist enterprise is presented here inclusive of his lengthy notes. In coining the phrase Protestant work ethic, Weber demonstrates a series of parallels between certain Protestant denominations and the modern business. The veneration of hard work, discipline, and carefulness with money birthed a culture that led over generations to the establishment of capitalism, with enough workers sharing in these beliefs, entrepreneurs were able to create large businesses that could consistently deliver a profit. Using examples such as Martin Luther and Calvinist doctrines, Weber demonstrates how ideas of the virtues of diligence were placed parallel with God and morality. By working hard, every man was contributing to a better world and society in the name of the Lord. However, Weber asserts that over time, the religious connotations behind capitalist enterprise largely disappeared. The famous writings of Benjamin Franklin are cited as example, whereby notions of diligence were expressed eloquently but no longer cited God and holy virtue. Though controversial, Weber's work remains much consulted by sociologists. The notion that Protestantism contributed to or accelerated the development of capitalism is popular in the modern day.

Calvinism and the Capitalist Spirit Gianfranco Poggi, 1983 *The Protestant Ethic and the Spirit of Capitalism* Max Weber, Talcott Parsons, 2017-11-17

The Protestant Ethic and the Spirit of Capitalism is a book written by Max Weber, a German sociologist, economist, and politician. Begun as a series of essays, the original was composed in 1904 and 1905. It is considered a founding text in economic sociology and sociology in general. In this book, Weber argues that Puritan Ethics and ideas influenced the development of capitalism. The spirit of capitalism does not refer to the spirit in a metaphysical sense but rather a set of values: the spirit of hard work and progress. Religious devotion, Weber argues, is usually accompanied by a rejection of worldly affairs, including the pursuits of wealth and possessions. Weber shows that certain branches of Protestantism had supported worldly activities dedicated to economic gain, seeing them endowed with moral and spiritual significance.
