Online Matters Of The Heart:

Matters of the Heart Brandon M. Crooker, 2021-02-25 Every single one of us have wondered if there is more to our relationship with God than what we see. It is in Him that we live, move, and have our being. Acts 17:28 With the utmost assurance, this book will open your eyes so that you can see your relationship with God clearly and with a renewed sense of purpose and vision. Brandon M. Crooker, a Pentecostal preacher, shares insights from the Bible so you can trust in the Lord with all your heart, remain sober and vigilant against the devil, assess your life with honesty and sincerity, live life according to Scripture. The author also emphasizes the power of our choices. A preacher he grew up listening to who said that we do not just make choices but we are made by our choices. That is revelatory. It is so simple yet so profound. Whenever you make a choice, there is an intention and spirit behind that choice. Arm yourself with biblical knowledge and embark on a journey that will protect your heart from strife and in turn your soul from destruction. It starts with *Matters of the Heart*. *A Matter of the Heart: Education in India* Anurag Behar, 2024-03-04 About the Book A BOOK ON THE STATE OF EDUCATION IN INDIA BEYOND THE MAIN CITIES AND AN ODE TO EDUCATORS WHO ARE SHAPING THE FUTURE OF OUR COUNTRY Education is the possibility of building something better: a better future, a better community, a better society, a better world. But what really is education? What does it mean to build a better future? And how does one build this future beyond the metropolitan cities and the schools for the elite? In this collection of essays, Anurag Behar takes us to schools in remote villages of India. He gives us insight into where our nation stands on education and through that lens into the nation itself. He shows us an India that is waiting for better infrastructure and one where the right to education is in constant struggle with the need for survival. But what emerges is the heart-warming and life-affirming story of how people and communities energised from within are changing lives of individuals and the nation. This book is testimony to the essence of education. The heart of the matter is that it is a matter of the heart. *The Matter of the Heart* Thomas Morris, 2017-06-01 Thrilling. The dizzying story of heart surgery is every bit as important as that of the nuclear computer or rocket ages. And now it has been given the history it deserves. James McConnachie, Sunday Times. For thousands of years, the human heart remained the deepest of mysteries, both home to the soul and an organ too complex to touch, let alone operate on. Then, in the late nineteenth century, medics began going where no one had dared go before. In eleven landmark operations, Thomas Morris tells us stories of triumph, reckless bravery, swaggering arrogance, jealousy, and rivalry, and incredible ingenuity, from the trail-blazing blue baby procedure to the first human heart transplant. *The Matter of the Heart* gives us a view over the surgeon's shoulder, showing us the heart's inner workings and failings. It describes both a human story and a history of risk-taking that has ultimately saved millions of lives. **Family Matters** Hilde Løvdal Stephens, 2019-10-15 The first full-length study of a pivotal figure in American evangelical faith. James Dobson, child psychologist, author, radio personality, and founder of the Christian conservative organization Focus on the Family, published his first book *Dare to Discipline* in 1970 and quickly

became the go to family expert for evangelical parents across the United States as American evangelicalism rose as a major political force. The family expert became a leading voice in the Reagan Revolution and played a role in making American evangelicals even more firmly associated with the Republican Party. Dobson's principle beliefs are that the family is the center of Christian America and that the traditional family must be defended from perceived threats such as gay rights, feminism, abortion, and the secularization of public schools. Dobson and Focus on the Family dominated Christian media through print, radio, and online venues, and their message reached millions of American evangelical households, shaping the cultural sensibilities and political attitudes of evangelical families throughout the culture wars from the 1980s into the 2000s.

Family Matters: James Dobson and Focus on the Family's Crusade for the Christian Home by Hilde L. Vdal Stephens is an insightful history and analysis of James Dobson's rise to fame, effect on American evangelical culture, and subsequent descent from relevance. Extensively researched, L. Vdal Stephens scoured through Dobson's books, articles, and other materials published by Focus on the Family in order to explore how evangelicals defined and defended the traditional family as an ideal and as a symbol in an ever-changing world. By contextualizing the history of Dobson's reign, L. Vdal Stephens's discerning analysis fills an important gap in our understandings of the politics and culture of late twentieth-century conservative Christianity in the United States. She explores complex topics ranging from Dobson's celebration of what he believes are timeless biblical values such as maintaining strict and defined gender roles to the ways Dobson and Focus on the Family balanced their basic ideals with real everyday lives of average American evangelical families facing the realities of divorce, working mothers, and other perceived threats to the traditional family.

Rethinking Cybercrime Tim Owen, Jessica Marshall, 2020-11-13. The book provides a contemporary snapshot of critical debate centred around cybercrime and related issues to advance theoretical development and inform social and educational policy. It covers theoretical explanations for cybercrime, typologies of online grooming, online trolling, hacking, and law and policy directions. This collection draws on the very best papers from 2 major international conferences on cybercrime organised by UCLAN. It is well positioned for advanced students and lecturers in Criminology, Law, Sociology, Social Policy, Computer Studies, Policing, Forensic Investigation, Public Services, and Philosophy who want to understand cybercrime from different angles and perspectives.

Masters of Disaster Christopher Lehane, Mark Fabiani, Bill Guttentag, 2012-12-11. The foolproof guide to damage control from the masters of disaster. Whether you're a politician caught with his pants down, a publicly traded company accused of accounting improprieties, a family-owned restaurant with a lousy Yelp review, or just the guy in the corner cubicle who inadvertently pushed the wrong button, all a crisis doesn't have to be the make or break moment of your career. For those of us that aren't natural spin doctors, it's hard to resist the impulse to cover your tracks, lie, or act like nothing happened. But resist you must. In *Masters of Disaster*, Christopher Lehane and Mark Fabiani reveal the magic formula you need to take control when it's your turn to be sucked into the vortex of the modern spin cycle. Covering the ten commandments of damage control and based on

their work for clients like Bill Clinton Goldman Sachs and Hollywood studios the authors outline the strategies that can make real time news alerts Twitter trend lines and viral videos work for you rather against you Full of both lively personal anecdotes and hard knuckled straight talk this is a must read for anyone who wants to emerge with their reputation intact

Masters of War Carl Boggs,2013-10-11 Few United States citizens conceive of their country as an empire but as the contributors to *Masters of War* convincingly argue the U S legacy of military power runs long and deep Often mobilized in the name of spreading democracy maintaining international order and creating the conditions for economic self determination constantly expanding global U S military power is difficult to characterize as anything but an imperialism bent on global domination However at the same time that the U S government hawks rhetoric of human rights and national sovereignty its dominion has begun breeding widespread resistance and opposition likely to make the twenty first century an era marked by sustained and generally unanticipated blowback Presenting a wide range of essays by some of the anti war movement s most vocal and incisive critics *Masters of War* reminds us that worldwide economic and military dominance has its price both globally and domestically

The Internet and Information and Communication Technologies in Today's Society Akaki Girgvliani,David Zautashvili,Avtandil Bardavelidze,Akaki Dzneldze,2024-07-11 The articles included in this book reflect a diverse range of research and theoretical reflections on the Internet and information and communication technologies The articles are grouped into four chapters reflecting the main areas of research interest covering such topics as electronic government electronic business modeling and programming management information systems and information and communication technologies in education The book should prove useful to students teachers researchers and scientists in helping them to acquire knowledge as well as to build new research plans in the field of internet and information technology

Online News and the Public Michael B. Salwen,Bruce Garrison,Paul D. Driscoll,2004-12-13 This volume offers unique and timely insights on the state of online news exploring the issues surrounding this convergence of print and electronic platforms and the public s response to it It provides an overview of online newspapers including current trends and legal issues and covering issues of credibility and perceptions by online news users The heart of the book is formed by empirical studies mostly social surveys coming out of the media effects and uses traditions The chapters are grounded in theoretical frameworks and bring much needed theory to the study of online news The frameworks guiding these studies include media credibility the third person effect media displacement and uses and gratifications The book ends with a section devoted to research on online news postings This book is appropriate for scholars researchers and students in journalism mass communication new media and related areas and will be of interest to anyone examining how people use the web as a source for news

A Matter of Fact Jess Berentson-Shaw,2018-08-10 Today it seems that conspiracy and rumour spread faster than ever and are increasingly hard to debunk How do we convincingly explain the difference between good information and misinformation *A matter of fact* explores the science of communicating and presents innovative ways to talk

effectively and empathetically about contentious information Publisher information
