Experimentation with the speech of characters has been hailed by Gérard Genette as one of the main paths of emancipation in the modern novel. Dialogue as a stylistic and narrative device is a key feature in the development of the novel as a genre yet it is also a phenomenon little acknowledged or explored in the critical literature. *Fictional Dialogue* demonstrates the richness and versatility of dialogue as a narrative technique in twentieth and twenty-first century novels by focusing on extended extracts and sequences of utterances. It also examines how different versions of dialogue may help to normalize or idealize certain patterns and practices thereby excluding alternative possibilities or eliding unevenness and differences. Bronwen Thomas by bringing together theories and models of fictional dialogue from a wide range of disciplines and intellectual traditions shows how the subject raises profound questions concerning our understanding of narrative and human communication. The first study of its kind to combine literary and narratological analysis with reference to linguistic terms and models. Bakhtinian theory, cultural history, media theory and cognitive approaches, this book is also the first to focus in depth on the dialogue novel in the twentieth and twenty-first centuries and to bring together examples of dialogue from literature, popular fiction and nonlinear narratives. Beyond critiquing existing methods of analysis, it outlines a promising new method for analyzing fictional dialogue. *Dialogue across Media* Jarmila Mildorf, Bronwen Thomas, 2017-01-19. With chapters on social media, videogames and human-machine communication, *Dialogue across Media* provides a comprehensive overview of the role of dialogue in contemporary media. Drawing on the expertise of scholars and practitioners from multiple fields and disciplines including screenwriters, literary critics, linguists and new media theorists, each chapter provides an in-depth analysis of dialogue in action. Together, these chapters demonstrate the unique energy and versatility that dialogic forms can offer artists and readers alike and the special role that dialogue plays in helping us to understand the complexities and contradictions of human interaction. *Dialogue across Media* provides an essential resource for students and specialists in many fields concerned with dialogue including language and literature, media and cultural studies, narratology and rhetoric. *Oral Bible Translation and Biblical Performance in Southern Siberia* Bronwen Cleaver, 2025-08-05. This book is about designing a contextualized performance based on biblical passages translated by oral Bible translation to give oral preference learners in the Republic of Altai the best possible access to Scripture. It presents a model for other oral Bible teams to translate and perform biblical texts in culturally relevant ways. The work explores key issues: the internalization process, orally translating non-narrative genres, extra-linguistic exegesis using local poetic features in oral biblical translations, creating notes for translation teams and integrating audience responses into the translation. A comprehensive literature review covers orality, biblical literacy, performance, criticism.

functional translation complexity theory multimodality and hospitality theory Research includes interviews with oral Bible translation teams using internalization and studies of Altai epic poetry featuring interviews with Altai epic singers and musicians The book culminates in describing the crafting of an oral presentation based on the Altai epic story genre and its evaluation by local Altai audiences in focus groups This demonstrates how oral Bible translation can effectively engage communities This approach ensures that Scripture is not only translated but also communicated in a manner that resonates deeply with the cultural and oral traditions of the audience making it more accessible and impactful
