contemporary prophets Solomon Kgate argues that the influence of prophecy in politics has the potential to weaken the prophetic voice of the church in general and the Pentecostal movement in particular He proposes a Pentecostal political theology of prophecy This theology is developed by taking into cognizance the theoretical and theological frameworks of prophetic imagination and pneumatological imagination In addition this theology seeks a balance between prophecy and power and prophecy and sovereignty

Isaiah among the Ancient Near Eastern Prophets Matthijs de Jong, 2007-12-31 Focusing on the phenomenon of prophecy in the ancient Near East this study offers a comparison between parts of First Isaiah and the Assyrian prophecies In the first part the material from First Isaiah and from seventh century Assyria is investigated in its own right The second part is a comparison of the Isaiah tradition in its earliest shape with the prophetic material from seventh century Assyria The topics dealt with in the comparison are the interrelation of prophetic oracles and historical events the functions of the prophets and the literary development of prophecy The study shows that ancient Israelite prophecy of which the historical Isaiah was an exponent was much in conformity with ancient Near Eastern prophecy in general
