Provincial Party Financing In Quebec:

Party Funding and Campaign Financing in International Perspective K D Ewing, Samuel Issacharoff, 2006-01-19 This volume deals with questions of political party funding and campaign financing issues which arouse controversy in many parts of the world How are the central actors in the political arena supposed to gather the funds necessary to operate effectively on behalf of their chosen political ends And how may they spend money in furtherance of their political objectives The aim of this volume the first in a new series of Columbia University London University collaborative projects is to explore these issues in the specific context of a number of national settings The studies presented here show that financing questions cannot be addressed independent of the constitutional conventions of the country the nature of the political parties in the country and the means of access to publication and the media in any given nation The national studies in this volume reveal a rich diversity in the approach to regulation in Australia Canada the European Union Japan New Zealand Quebec the United Kingdom and the United States The topicality of the issues considered is reflected in the fact that since the book was first mooted there have been major decisions of the US Supreme Court and the Supreme Court of Canada as well as an investigation and report by the Electoral Commission in the United Kingdom all of which have a direct bearing on the legal and policy issues discussed in this book

Parties, Candidates, and Constituency Campaigns in Canadian Elections Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level With its unique micro level focus *Parties Candidates and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada By taking a detailed look at campaigns in seven B C ridings during the 1988 free trade election the last under the old three party system Anthony Sayers develops a typology of candidates and campaigns The dynamics of local associations nominations and campaigns including those of former prime minister Kim Campbell and New Democrat Svend Robinson as well as key strategic events and the role of the media are reconstructed from interviews with candidates campaign managers party strategists volunteers and journalists The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian polity its underlying social basis and the factors that determine successful election campaigns As such *Parties Candidates and Constituency Campaigns in Canadian Elections* will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists

Interest Groups and Elections in Canada F. Leslie Seidle, 1991-01-01 The two studies in *Interest Groups and Elections in Canada* explore the nature and influence of special interest groups They consider different aspects of the question In the context of the Canadian Charter of Rights and Freedoms how can the laws intended to secure a fair electoral process be reconciled with freedom of expression Janet Hiebert reviews the limits on

interest groups adopted in 1974 and amended in 1983 profiles the groups involved in the 1988 federal election and discusses relevant legislation and jurisprudence in the provinces and abroad. She concludes that spending limits for parties and candidates will only be effective if there are also restrictions on independent expenditures during elections by groups and individuals. Brian Tanguay and Barry Kay assess the influence attributed to locally oriented interest groups including by members of Parliament and conclude that these organizations have less influence on the political process than is the popular view. The authors conclude that dissatisfaction is a key variable explaining the role of these interest groups and their activities during elections.

Comparative Issues in Party and Election Finance F. Leslie Seidle, 1991-01-01 This book is one of 23 volumes of research commissioned by the Royal Commission on Electoral Reform and Party Financing and one of five volumes within this series dealing specifically with party and election finance. Because the issue of money in elections is as old as democracy, the experience of other countries is instructive. The studies in this volume offer Canadians information about approaches to funding political parties and elections in the United States and Western Europe. The studies by Herbert Alexander and Robert Mutch examine how the United States has approached issues such as contribution limits and the disclosure of election finances. The latter study provides explicit comparisons to Canada, noting the constitutional role of the Supreme Court in each country. Jane Jensen draws on Western European experience to propose and assess reforms for the public funding for party foundations. This is documented by Michael Pinto-Duschinsky. The studies approach their material from a historical perspective, noting the uniqueness of the constitutions, institutions, and traditions of the countries reviewed. The authors provide background essential to any consideration of whether foreign experience might serve as a model for Canada.

Election Broadcasting in Canada Frederick J. Fletcher, 1991-01-01 Election Broadcasting in Canada explores the role of media in Canadian politics. David R. Spencer, David Hogarth, Catherine M. Bolan, and others look at the history, legal framework, and difficulties in election broadcasting, as well as the impact of new broadcasting services.

Political Corruption in Canada Kenneth M. Gibbons, Donald Cameron Rowat, 1976 Canadians assume that their politicians and institutions are relatively free of the corruption they associate with other nations. The editors of this volume argue that this questionable supposition is based on scant evidence and very little serious analysis.

Political Parties William Cross, 2011-11-01 Political parties are at the centre of Canadian democracy. They choose our prime ministers, premiers, and candidates for public office; they decide which policy issues are considered in the provincial and federal legislatures; they dominate our election campaigns. As a result, a democracy that is participatory, responsive, and inclusive can only be achieved if Canadian political parties share these values and operate in a manner respecting them. In a concise and accessible manner, this book delves into the history, structure, mechanisms, and roles of Canada's political parties and assesses the degree to which Canadians today can rely on political parties as vehicles for grassroots participation. With an emphasis on Canada's federal parties, Cross examines party membership, candidate recruitment, leadership selection, policy development, election

campaigning and party financing Throughout he maintains a clear focus on how well Canadian parties are serving the Canadian people and in keeping with the aims of the Democratic Audit interrogates their performance in terms of participation inclusiveness and responsiveness In addition the book also draws on the experiences of provincial parties to provide a comprehensive portrait of party life in Canada Where appropriate comparisons are drawn with parties in other Western democracies A crucial and timely overview of political parties this book will appeal to all those who seek a fuller understanding of the Canadian party system Those interested in how regular citizens participate in party decision making will be particularly concerned with Cross disturbing conclusion that our parties are falling short in terms of benchmarks set forth by the Canadian Democratic Audit The Political Party in Canada William P. Cross, Scott Pruysers, Rob

Currie-Wood, 2022-11-01 Political parties exist at the centre of democratic politics but where does power lie within them and how is it exercised The Political Party in Canada explores the inner workings of these complex organizations through an examination of the composition and roles of key party actors members and activists candidates local associations donors central officials and members of Parliament as well as the interactions between them Contemporary parties play a key role in recruiting and selecting candidates and leaders waging election campaigns and organizing legislatures Drawing on a rich trove of data from the 2015 and 2019 federal elections this book offers a comprehensive examination of the composition functions activities and power sharing relationships that characterize Canadian parties The authors focus not only on which groups are included in decision making but also on what power and authority rest with each level of the parties respective structures Basing its astute investigation on the themes of complexity representation and personalization The Political Party in Canada provides important insights into a fundamental institution that makes modern democracy possible **Women in**

Canadian Politics Kathy Megyery, 1991-01-01 Women are the most under represented social group in the elected assemblies of the world Women everywhere constitute more than one half of the population and rarely are more than a handful of the political elite The studies in this volume examine women's involvement in political parties both past and present Empirical studies identify the roles Canadian women play in parties the opportunities and barriers they face and their progress toward greater representation in the political process The questions addressed in this volume include What are the major barriers to women's entry into federal politics Janine Brodie Do large numbers of women remain confined to pink collar work at the expense of executive positions Sylvia Bashevkin What is the impact of the candidate selection process on the election of women to the House of Commons Lynda Erickson How does incumbency affect the number of women elected to federal office Lisa Young What is the influence of media coverage on women in politics Gertrude Robinson and Armande Saint Jean The authors agree that the under representation of women in politics undermines the democratic credibility of our governing institutions Nonetheless they are cautiously optimistic regarding the prospects for the third generation of women entering politics Ethno-Cultural Groups and Visible Minorities in Canadian Politics Kathy

Megyery,1996-08-08 The studies in this volume examine the nature and extent of their participation in Canadian politics in both political parties and the House of Commons While these groups feel marginalized they believe strongly in the objectives of democracy and want to participate in a Canada that realizes those ideals more successfully
