

AP Psychology

Sensation and Perception

Big Question: What are sensation and perception, and how do they work to help us experience the world?

Sensation and Perception Objectives (from the College Board):

- Discuss basic principles of sensory transduction, including absolute threshold, difference threshold, signal detection, and sensory adaptation.
- Describe sensory processes (e.g., hearing, vision, touch, taste, smell, vestibular, kinesthetic, pain), including the specific nature of energy transduction, relevant anatomical structures, and specialized pathways in the brain for each of the senses.
- Explain common sensory disorders (e.g., visual and hearing impairments).
- Describe general principles of organizing and interpreting sensation to promote stable awareness of the external world (e.g., Gestalt principles, depth perception).
- Discuss how experience and culture can influence perceptual processes (e.g., perceptual set, context effects).
- Explain the role of top-down processing in producing vulnerability to illusion.
- Discuss the role of sensation in behavior.
- Challenge common beliefs in parapsychological phenomena.
- Identify the major historical figures in sensation and perception (e.g., Gustav Fechner, David Hubel, Ernst Weber, Tursten Wiesel).

Test Information

- Your examination will be comprised of the following two sections:
 - Multiple Choice: 30 questions (entire test grade)
 - 30 questions
 - Each question contains 5 possible answers to select from
 - Free Response
 - You will be given a scenario and asked to apply various unit terminology to that scenario in a written response.

Study Tips

- **COMPLETE** all assignments, homework, and reading before the exam.
- Take the **PRACTICE QUIZZES** at the end of each section in your textbook.
- Utilize **QUIZLET** for online practice. There are lots of AP Psychology sections available.
- Utilize the **SPACING EFFECT**. Review 10-15 minutes every night, don't just cram the night before.
- Form **STUDY GROUPS**. The best indicator of whether or not you truly understand a concept is if you can explain it to others. Just make sure your time spent together is productive and don't get off task!
- **CONTACT ME** if you have questions. Don't be shy or afraid. E-mail works best for me.

Psychology Sensation And Perception Study Guide Answers

Thomas G. Plante
