Nineteenth Century American Art Oxford History Of Art:

Nineteenth-century American Art Barbara S. Groseclose, 2000 Many well known artists including Thomas Eakins and Winslow Homer and lesser known artists like Harriet Hosmer are closely examined as is the art world of the time In addition to discussing the free movement of American visual culture between high and low Barbara Groseclose interweaves nineteenth century art criticism with current art history to create a fascinating insight into the changing interpretations of American art of this period **BOOK JACKET** **History of Art** Horst Woldemar Janson, Anthony F. Janson, 2004 For forty years this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world boasting the matchless credibility of the Janson name This newest update features a more contemporary more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark A narrative voice makes this book a truly enjoyable read and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth century art historians speaking about specific pieces of art featured throughout Significantly changed in this edition is the chapter on The Late Renaissance in which Janson offers a new perspective on the subject tracing in detail the religious art tied to the Catholic Reform movement whose early history is little known to many readers of art history Janson has also rearranged early Renaissance art according to genres instead of time sequence and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians With a truly humanist approach this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30 000 years **Medieval Architecture** Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry A great variety of buildings synagogues halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550 This book looks at their architecture from an entirely fresh perspective shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain Treating the subject thematically Coldstream seeks out what all buildings both religious and secular have in common and how they reflect the material and spiritual concerns of the people who built and used them Furthermore the author considers how and why after four centuries of shaping the landscapes and urban patterns of Europe medieval styles were superseded by classicism **Internationalizing the History of American Art** Barbara S. Groseclose, Jochen Wierich, 2009 A collection of essays presenting international perspectives on the narratives and the practices grounding the scholarly study of American Art Provided by publisher **Twentieth Century Design** Jonathan M. Woodham, 1997-04-10 A look at the wider issues of design and industrial culture throughout Europe Scandinavia North America and the Far East The book explores the way in which 20th century designs such as the Coca Cola bottle have affected our culture more than those considered true classics **A World History of Art** Hugh Honour, John

Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression

Early Medieval Architecture R. A. Stalley, 1999 Ranging from Gotland to Apulia Roger Stalley explores the richness and variety of European architecture in terms of the social and religious aspirations of the time with an emphasis on the symbolic significance these buildings expressed Written with style and humour the lively text includes many quotations from ancient sources providing fascinating insight into the way that medieval buildings were created and enlivening our knowledge of this period

American Photography Miles Orvell, 2003 150 years of American photography come alive in this exciting new book placing it in its cultural context for the first time Orvell examines this fascinating subject through a wide range of well known and less well known images He ranges from portraiture and landscape photography family albums and memory and analyses the particularly American way in which American photographers have viewed the world around them Orvell combines a clear overview of the changing nature of photographic thinking and practice in this period with an exploration of key concepts The result is the first coherent history of American photography which examines issues such as the nature of photographic exploitation experimental techniques the power of the photograph to shock and whether we should subscribe to the notion of a visual history

Architecture in the United States Dell Upton, 1998 From Native American sites in New Mexico and Arizona to the ancient earthworks of the Mississippi Valley to the most fashionable contemporary buildings of Chicago and New York American architecture is incredibly varied In this revolutionary interpretation Upton examines American architecture in relation to five themes community nature technology money and art 109 illustrations 40 linecuts Map

Sculpture 1900-1945 Penelope Curtis, 1999 This book provides a comprehensive analysis of the significant growth of sculpture as an artistic form in Europe and America from 1900 1945 Using a clearly defined thematic structure it identifies key issues and developments throughout this important period in the history of art Individual chapters cover public sculpture the monument the object image making the built environment the figurative ideal and different materials These themes broadly reflect the changing cultural and political climate of a turbulent period which included two world wars each preceded by widespread rising nationalism The practice of sculpture is considered within the wider artistic context of painting and architecture and the development of international art markets Auguste Rodin whose ground breaking exhibition opened in Paris in 1900 serves as the book's point of departure and as
