Ronin Skirmish Wargames In The Age Of The Samurai Osprey Wargames:

Ronin Craig Woodfield,2013-08-20 Set in an age of feuding samurai wandering swordsmen and fearless warrior monks Ronin is a skirmish wargame that captures the flavour and excitement of such Akira Kurosawa films as Seven Samurai and Yojimbo Whether they prefer the loyal samurai retainers of a feudal lord or a horde of desperate bandits players choose from one of several factions and build forces to battle for dominance and survival in 16th century Japan They may also recruit swords for hire to supplement their forces masterless ronin martial arts masters and secretive ninja will lend their skills to any commander who can afford them A full points system incorporating a wide range of equipment and skills allows for detailed customisation of characters while scenarios and a campaign system permit them to gain experience and develop over time The fast paced rules simulate the cut and thrust of hand to hand combat and require the player to make tactical decisions in the middle of a fight immersing them in an era of war

Honours of War Keith Flint,2015-11-20 The Seven Years War was the pinnacle of 18th century warfare with dramatic campaigns and battles famous leaders and wide variety of colourful uniforms Compared with the later Napoleonic Wars tactics were simpler armies more professional and battles tended to be smaller Using these quick to learn rules players can bring this period to the tabletop recreating anything from a small skirmish to a major pitched battle Although simple the rules allow for a wide range of tactics and reward historical play That said fog of war sometimes produces unexpected results and units don't always obey their orders The game moves quickly and players must be prepared to regroup and counterattack or to press home an advantage a lot can happen in one move

Dragon Rampant Daniel Mersey,2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne Dragon Rampant allows you to bring those battles to the tabletop Developed from the popular Lion Rampant system Dragon Rampant is a standalone wargame that recreates the great battles of Fantasy fiction Scenarios army lists and full rules for magic and monsters give players the opportunity to command unruly orc warbands raise armies of the undead campaign across an antediluvian world as the warchief of a barbarian tribe or exploit the power of mighty creatures and extraordinary sorcery An army usually consists of 6-8 units comprised of 6-12 individually based figures These small units move and fight independently assuming that they follow your orders rather than just doing their own thing Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage

En Garde! Craig Woodfield,2016-01-20 En Garde is a small scale skirmish game based on the successful Ronin rules in which small groups of warriors fight each other for honour or riches Rather than just rolling a few dice the rules allow players to make tactical decisions about how the models that they control will fight offensively defensively or by applying special skills and abilities En Garde covers the conflicts of the 16th 17th and early 18th centuries when black powder weapons started to become common in battle but martial prowess still determined the outcome Play as Border Reivers Conquistadors Landsknechts

Aztecs French Musketeers Caribbean Pirates and many more in scenarios that evoke classic engagements of the genre Simple campaign rules allow multiple scenarios to be played in sequence and permit warbands to develop over time An appendix is also included to provide brief rules for supernatural creatures of the period monsters demons revenants and witches and new abilities and equipment to fight them making En Garde the perfect ruleset for gamers who want something a bit different from the norm

Black Ops Guy Bowers,2015-10-20 Black Ops is a skirmish wargame of tactical espionage combat that recreates the tension and excitement of modern action thrillers such as the Bond and Bourne films The fast play rules keep all the players in the thick of the action while the mission generator provides a wide range of options for scenarios from stealthy extraction or surveillance missions to more overt raids and assaults Stealth combat and technical expertise all have a role to play and players may recruit a number of different operative types spies mercenaries criminals hackers special forces and many more to recruit the best possible team for the job Players may also choose to join a faction powerful organizations intelligence agencies criminal syndicates militaries or rebel groups each with a stake in international affairs By doing so their team may receive certain benefits but may also find itself limited at a crucial time With the variety offered by the characters factions and scenarios no two games of Black Ops should ever be the same

Broken Legions Mark Latham,2016-08-25 The Roman Empire rules the civilised world with an iron fist seemingly all powerful and limitless And yet the power of Rome is secured not by its mighty legions but by small bands of warriors and agents fighting a secret war Tasked by the Emperor to explore ancient temples forgotten labyrinths and beast haunted caverns they seek out artefacts hidden by the gods themselves hunt creatures of myth and face enemies that would use dark magic against the empire Broken Legions is a set of fantasy skirmish rules for a war unknown to history fought in the shadows of the Roman Empire Various factions recruit small warbands to fight in tight scenario driven battles that could secure the mystical power to defend or crush Rome A points system allows factions to easily build a warband and mercenaries and free agents may also be hired to bolster a force Heroes and leaders may possess a range of skills traits and magical abilities but a henchman s blade can be just as sharp and a campaign can see even the lowliest henchman become a hero of renown

The ^AInvention of Martial Arts Paul Bowman,2020-12-17 Author Paul Bowman recasts our understanding of the history of martial arts showing how Western media representations in the 1970s not only popularized the concept but actively created martial arts as a recognizable idea and cultural phenomenon
