Routes Of Remembrance Refashioning The Slave Trade In Ghana:

Routes of Remembrance Bayo Holsey, 2008-09-15 Over the past fifteen years visitors from the African diaspora have flocked to Cape Coast and Elmina two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana Why do Ghanaians suppress the history of enslavement And why is this history expressed so differently on the other side of the Atlantic *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public versions of coastal Ghanaian family and community histories its troubled presentation in the country's classrooms and nationalist narratives and its elaboration by the transnational tourism industry Bayo Holsey discovers that in the past African involvement in the slave trade was used by Europeans to denigrate local residents and this stigma continues to shape the way Ghanaians imagine their historical past Today however due to international attention and the curiosity of young Ghanaians the slave trade has at last entered the public sphere transforming it from a stigmatizing history to one that holds the potential to contest global inequalities Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory

Metaphor and the Slave Trade in West African Literature Laura T. Murphy, 2012-04-02 *Metaphor and the Slave Trade* provides compelling evidence of the hidden but unmistakable traces of the transatlantic slave trade that persist in West African discourse Through an examination of metaphors that describe the trauma loss and suffering associated with the commerce in human lives this book shows how the horrors of slavery are communicated from generation to generation Laura T Murphy's insightful new readings of canonical

West African fiction autobiography drama and poetry explore the relationship between memory and metaphor and emphasize how repressed or otherwise marginalized memories can be transmitted through images tropes rumors and fears By analyzing the unique codes through which West Africans have represented the slave trade this work foregrounds African literary contributions to Black Atlantic discourse and draws attention to the archive that metaphor unlocks for scholars of all disciplines and fields of study

The Oxford Handbook of Public History, 2017-09-20 The Oxford Handbook of Public History introduces the major debates within public history the methods and sources that comprise a public historian's tool kit and exemplary examples of practice It views public history as a dynamic process combining historical research and a wide range of work with and for the public informed by a conceptual context The editors acknowledge the imprecision bedeviling attempts to define public history and use this book as an opportunity to shape the field by taking a deliberately broad view They include professional historians who work outside the academy in a range of institutions and sites and those who are politically committed to communicating history to the wide range of audiences This volume provides the information and inspiration needed by a practitioner to succeed in the wide range of workplaces that characterizes public history today for university teachers of public history to assist their students and for working public historians to keep up to date with recent research This handbook locates public history as a professional practice within an intellectual framework that is increasingly transnational technological and democratic While the nation state remains the primary means of identification increased mobility and the digital revolution have occasioned a much broader outlook and awareness of the world beyond national borders It addresses squarely the tech savvy media literate citizens of the world the digital natives of the twenty first century in a way that recognizes the revolution in shared authority that has swept museum work oral history and much of public history practice This volume also provides both currently practicing historians and those entering the field a map for understanding the historical landscape of the future not just to the historiographical debates of the academy but also the boom in commemoration and history outside the academy evident in many countries since the 1990s which now constitutes the historical culture in each country Public historians need to understand both contexts and to negotiate their implications for questions of historical authority and the public historian's work The boom in popular history is characterized by a significant increase in both making and consuming history in a range of historical activities such as genealogy family history and popular collecting cultural tourism historic sites and memorial museums increased memorialization both formal and informal from roadside memorials to state funded shrines and memorial Internet sites increased publication of historical novels biographies and movies and TV series set in the past Much of this as well as a vast array of new community cultural projects

Van Elmina naar Paramaribo Frank Dragtenstein, 2020-09-05 Dit is het waar gebeurde verhaal van slavenhaler Jan Wils Deze ambtenaar verhaalt in het jaar 1686 in zijn journaal over de aankoop aan de Goudkust Ghana en het vervoer naar Paramaribo van 500 tot slaaf te maken Afrikanen Het Afrika waar hij zijn menselijke vracht vandaan haalt verschilt in menig opzicht van dat van honderd of meer jaren later waarover zoveel meer geschreven is Het nader bestuderen van primaire bronnen leidde tot andere dan de bekende inzichten over het begin van de contacten tussen Afrikanen en West Europeanen
