Globalisation, Growth and Inequality in North East India Ramkrishna Mandal, 2011 *The Interplay between European and National Competition Law after Regulation 1/2003*

Lúcio Tomé Feteira, 2015-12-08 If we can speak of the European Community's economic constitution we can assert that competition rules together with free movement rules form its core. Notably, implementation of the competition rules enshrined in Articles 81 and 82 EC changed radically with the enactment of Regulation 1/2003 which in effect dispensed with mandatory prior notifications and allowed national authorities to apply Article 101/3 TFEU directly. Given that national legislations perceive certain types of unilateral conduct even if adopted by a non-dominant undertaking as a potential source of anticompetitive effects, an important question concerns the leeway enjoyed by national authorities under the exception to the convergence rule in Article 3/2 of Regulation 1/2003 and the consequent effect on both legal practice and policy issues. In this lucidly argued book focusing on national competition provisions in Germany, France, Italy and the United Kingdom that deal with such conduct, the author provides a detailed examination of how such considerations as the following are affected by Regulation 1/2003: prohibition of abuse of economic dependence or superior bargaining power, the particular susceptibility of long-term contracts, prohibition of resale at a loss or below cost, prohibition of boycott, unlawful pressures, threats and other coercive tactics adopted by undertakings and the role of unfair competition law. The analysis follows a functional method of comparative legal analysis, reviewing the most relevant norms in the selected jurisdictions, particularly in what concerns their goals and function in the context of their respective legal systems. Special attention is paid to two specific sectors: the motor vehicle and the retailing industries, which have most often triggered relevant legislation and case law in the jurisdictions covered. Legal scholarship in the field is also drawn upon. In its clarification of the meaning of Regulation 1/2003, this book allows practitioners to fully grasp its scope. The author's thorough masterful analysis of the statutory framework of Article 3 of the regulation also reveals the variety of reasons why different Member States have different competition policies on the scope of the exception to the rule of convergence and in this way provides lawyers, policymakers and academics with welcome insights on how major EU jurisdictions apply European competition law.

China in the Global South Theodor Tudoroiu, Anna Kuteleva, 2022-04-23 This book scrutinizes the frequently ignored agency of Global South sub-national actors in their interactions with China using a multidisciplinary approach and eleven case studies. Contributors examine China's presence in the Global South on a country-by-country basis, analyzing how various non-state and sub-state actors are responding to the rise of China and whether they are attracted by the cooperation models that China proposes or deterred by its new assertiveness. Contributions cover diverse and heterogeneous geographies of the Global South ranging from Papua New Guinea to Argentina and from Madagascar to the Russian Far East. Examining such diverse cases, contributors focus on two interrelated questions: What is the actual economic, political and social impact of China's growing presence in the Global South? And critically, how do the citizens of the Global South understand and interpret China's rise? Taken together, the case studies develop a comprehensive picture of a complex and sometimes problematic process of China's inclusion into the economic, social and political realities of the Global South. This book identifies and fills the gaps in the existing literature on

China's rise by offering a nuanced perspective on China's relations with the countries of the Global South that captures such variables as social context intersubjective meanings and identities. By focusing on China's relations with the Global South, it also provides an important addition to the literature on international politics of development and China's role in the transformation of the South-South cooperation.

Toward Entrepreneurial Community Development Michael Fortunato, Morgan Clevenger, 2017-03-31 *Toward Entrepreneurial Community Development* is about developing entrepreneurial communities and goes beyond theories of the firm to demonstrate how local and regional society contributes in important ways to the vitality of entrepreneurs. The literature is rich with insights about leadership and culture within SMEs and the behaviours and attitudes of their founders, founding teams and managers. Since most of the attention in the entrepreneurship literature is focused on firms, we wish to explore everyone else. The social environment surrounding the entrepreneur and how leadership and culture outside the firm can have pervasive effects on the business. This book reaches across disciplinary boundaries, integrating and advancing knowledge on entrepreneurial community development. The book identifies actionable leadership strategies that can be used by literally anyone to help make a community or region a more culturally supportive, interactive home for entrepreneurial minds. We draw from original research to compare high and low entrepreneurship communities and present an emergent picture of how community-level actors can or fail to work together to support entrepreneurship in places that are culturally distant from the Silicon Valley, i.e. most places. *Toward Entrepreneurial Community Development* then offers techniques for entrepreneurial community leadership, including how to build lasting alliances, create an image and harness the local culture for entrepreneurial advantage. The result is a book that provides the reader with the latest advancements and techniques in entrepreneurship development in a straight-forward, readable format. No matter the reader, *Toward Entrepreneurial Community Development* demonstrates how anyone in any position can lead a local entrepreneurship movement starting anywhere, anytime.

Wisconsin, Labor, Income, and Institutions Marianne Johnson, Warren J. Samuels, 2011-08-12 Publishes notes from Martin Bronfenbrenner's course in the Distribution of Income at the University of Wisconsin in 1954. This title is suitable for economists working in mid-20th century history of economic thought as well as those interested in the evolution of neoclassical theory and the nexus between economics and Cold War politics.

Commercial Banking in Kenya Christian Velasco, 2024-08-05 This book investigates the impact of commercial banks in Kenya right through from their origins to their role during the colonial period, the process of adaptation following independence and up to their responses to new challenges and economic policies in the twenty-first century. The British colonisation of East Africa required the development of diverse political, social and economic institutions to advance and exercise control over the territories and their populations. Multinational commercial banks were among the first institutions with the National Bank of India, Standard Bank of South Africa and Barclays Bank DCO all setting up business in Kenya whilst continuing to maintain close relationships with the UK and other colonial actors. This book assesses

the impact of commercial banks during the last years of colonial domination and the tools they used to adapt in the first decades of independence The book concludes by considering how the colonial banking system has influenced the development of modern financial institutions in Kenya in the twenty first century This book argues that commercial banks are fundamental to understanding African colonies and the foundations over which the financial system of contemporary Africa was constructed It will be of interest to researchers of banking economic history the colonial period and African studies
