Frontier Fake News Richard Moreno, 2023-03-07 When readers see the names Mark Twain and Dan De Quille fake news may not be the first thing that comes to mind But these legendary journalists were some of the original and most prolific fake news writers in the early years of Nevada s history Frontier Fake News puts a spotlight on the hoaxes feuds pranks outright lies witty writing and other literary devices utilized by a number of the Silver State s frontier newsmen from the mid nineteenth through the early twentieth centuries Often known collectively as the Sagebrush School these journalists were opinionated talented and individualistic While Mark Twain Samuel Clemens who got his start at Virginia City s Territorial Enterprise and Dan De Quille William Wright who some felt was a better writer than Twain are the

most well known members of the Sagebrush School author Richard Moreno includes others such as Fred Hart who concocted a fake social club and reported on its gatherings for Austin's Reese River Reveille and William Forbes who enjoyed sprinkling clever puns with political undertones in his newspaper articles Moreno traces the beginnings of genuine fake news from founding father Benjamin Franklin's Supplement to the Boston Independent Chronicle Number 705 March 1782 a fake newspaper aimed at swaying British public opinion to the fake news articles of New York and Baltimore papers in the early 1800s But these examples are only a prelude to the amazing accounts of petrified men freeze inducing solar armor magically magnetic rocks blood curdling massacres and other nonsense stories that appeared in Nevada's frontier newspapers and beyond [A Culture Resource Overview of the Bureau of Land Management, Coleville, Bodie, Benton and Owens Valley Planning Units, California](#) Colin I. Busby, John M. Findlay, James C. Bard, 1980 [Our Common Ground](#) John D. Leshy, 2022-02-08 The little known story of how the U S government came to hold nearly one third of the nation's land and manage it primarily for recreation education and conservation A much needed chronicle of how the American people decided wisely and democratically that nearly a third of the nation's land surface should remain in our collective ownership and be managed for our common good Dayton Duncan author of The National Parks America's Best Idea America's public lands include more than 600 million acres of forests plains mountains wetlands deserts and shorelines In this book John Leshy a leading expert in public lands policy discusses the key political decisions that led to this beginning at the very founding of the nation He traces the emergence of a bipartisan political consensus in favor of the national government holding these vast land areas primarily for recreation education and conservation of biodiversity and cultural resources That consensus remains strong and continues to shape American identity Such a success story of the political system is a bright spot in an era of cynicism about government This book is essential reading for anyone who cares about public lands and it is particularly timely as the world grapples with the challenges of climate change and biodiversity loss
