Royal Horse And Rider Painting Sculpture And Horsemanship 1500 18:

The Royal Horse and Rider Walter A. Liedtke,1989 The Culture of the Horse K. Raber,T. Tucker,2016-04-30 This volume fills an important gap in the analysis of early modern history and culture by reintroducing scholars to the significance of the horse A more complete understanding of the role of horses and horsemanship is absolutely crucial to our understanding of the early modern world Each essay in the collection provides a snapshot of how horse culture and the broader culture that tapestry of images objects structures sounds gestures texts and ideas articulate Without knowledge of how the horse figured in all these aspects no version of political material or intellectual culture in the period can be entirely accurate

The Holy Roman Empire, 1495-1806: A European Perspective Robert Evans,Peter Wilson,2012-07-25 This text offers a collective exploration of aspects of cross border and transnational interaction in the Holy Roman Empire *The Pollaiuolo Brothers* Alison Wright,Antonio Pollaiuolo,2005-01-01 Painters draftsmen goldsmiths sculptors and designers the Pollaiuolo brothers of fifteenth century Florence produced some of the most beautiful works of the Italian Renaissance

Rulers and Raptors Nadir Weber,2025-10-01 *Rulers and Raptors* argues that by studying animal biographies we gain a new perspective on early modern court society Combining court studies and historical animal studies it brings together two vibrant but rarely combined fields of research and shows how the presence of non human creatures shaped everyday life and political representation in Europe s dynastic centres Through an in depth analysis of the symbolic and practical functions of birds of prey in courtly life the book demonstrates that in the seventeenth and eighteenth centuries falconry was much more than a hunting technique it served as a model for the mutual empowerment of the sovereign and his noble subjects the essence of the Baroque style of government that gave rise to European court society Weber pays close attention to the birds life trajectories and thereby shines a spotlight on a large network of agents including rural bird catchers bourgeois animal traders and noble falconers at court who made the aerial spectacles possible Focusing on these peoples interactions with the raptors the book proposes to rethink early modern human animal relations showing that falcons escaped clear distinctions between wild and domestic nature and civilization The book thus simultaneously shows how early modern European rulers valued raptors as a key symbol of their power and how this very symbol of monarchical sovereignty pointed to the limits of human control over the animal kingdom on the eve of the Anthropocene This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations The Art and Culture of Scandinavian Central Europe, 1550-1720

Kristoffer Neville,2019-08-08 Politically and militarily powerful early modern Scandinavia played an essential role in the development of Central European culture from the sixteenth to the eighteenth century In this volume Kristoffer Neville shows how the cultural ambitions of Denmark and Sweden were inextricably bound to those of other Central European kingdoms Tracing the visual culture of the Danish and Swedish courts from the Reformation to their eventual decline in the eighteenth

century Neville explains how and why they developed into important artistic centers He examines major projects by figures largely unknown outside of Northern Europe alongside other more canonical artists including Cornelis Floris Adriaen de Vries and Johann Bernhard Fischer von Erlach to propose a more coherent view of this part of Europe one that rightly includes Scandinavia as a vital component The seventeenth century has long seemed a bleak moment in Central European culture Neville's authoritative and unprecedented study does much to change this perception showing that the arts did not die in the Reformation and Thirty Years War but rather flourished in the Baltic region Masterpieces of European

Painting, 1800-1920, in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 *Women, Horse Sports and Liberation* Erica Munkwitz, 2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women's involvement in equestrianism from the eighteenth through the twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women's participation in horse sports transcended limitations of class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women's involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women's history British history and imperial history as well as those interested in the broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts

Renaissance Culture and the Everyday Patricia Fumerton, Simon Hunt, 2014-06-10 It was not unusual during the Renaissance for cooks to torture animals before slaughtering them in order to render the meat more tender for women to use needlepoint to cover up their misconduct and prove their obedience and for people to cover the walls of their own homes with graffiti Items and activities as familiar as mirrors books horses everyday speech money laundry baskets graffiti embroidery and food preparation look decidedly less familiar when seen through the eyes of Renaissance men and women In *Renaissance Culture and the Everyday* such scholars as Judith Brown Frances Dolan Richard Helgerson Debora Shuger Don Wayne and Stephanie Jed illuminate the sometimes surprising issues at stake in just such common matters of everyday life during the Renaissance in England and on the Continent Organized around the categories of materiality women and transgression and constantly crossing these categories the book promotes and challenges readers thinking of the everyday While not ignoring the aristocratic it foregrounds the common person the marginal and the domestic even as it presents the

unusual details of their existence What results is an expansive variegated and sometimes even contradictory vision in which the strange becomes not alien but a defining mark of everyday life *Jusepe de Ribera 1591-1652* Alfonso E. Pérez Sánchez, Nicola Spinosa, Andrea Bayer, 1992
