David B Honey, 2013-03-06 What has traditionally been the main matter explored by Cantonese literati From the earliest poets oceanic elements and riparian scenes contrasted with stunning rock formations a love for the exotic especially local plants products and lore Daoist transcendentalism and finally a concern for pointing up local loyalty to the distant throne and a fierce pride in being culturally authentically Chinese The Southern Garden Poetry Society in Guangzhou was the only major literary club in Chinese history to be periodically reconvened over the Ming Qing and Republican eras Beginning with an examination of its five founding members during the Yuan Ming transition period in particular Sun Fen 1335 1393 David Honey traces the various elements of this Southern Muse that became embodied in later Cantonese poetry and pursues the issue of social memory by focusing on later reconvenings of the society **The Proven Winners Garden Book** Ruth Rogers

Introduction by George Woodcock It would not be an exaggeration to describe this book as the central work of Kropotkin's writing career In one way or another it occupied more than twenty years of his life It is a work of argument and suggestion rather than dogmatic statement and the very tentativeness of this great book make its perceptions all the more relevant With at one time Kropotkin's view of our future might have been regarded as a Utopian dream today as a result of the growing realization that the world's resources of energy and raw materials are finite that food is our most precious commodity and that people's working lives are futile and stultifying the lessons of this book for both the rich world and the poor are topical and hopeful In addition to a general introduction to the most significant aspects of Kropotkin's life and thought George Woodcock has prepared a comprehensive afterword to each essay allowing the reader to fully see Kropotkin's ideas in the context of the world a century later Is the 9th volume of the *The Collected Works of Peter Kropotkin*

Central Florida Written over a span of two decades their essays offer an impressive environmental ethic By 1860 Adam had concluded that a person's treatment of nature is a moral issue Sustainability and long term goals rather than get rich quick schemes were key to this philosophy The brothers keen interest in literature is evident in the quality of their writing their essays and sketches are always readable sometimes poetic and occasionally humorous and satiric A representative sampling of their more than six hundred articles appear in this volume **Edible Mexican Garden** Rosalind Creasy, 2000-03-15
