Feist, 2008-10-01 In this book Gregory Feist reviews and consolidates the scattered literatures on the psychology of science then calls for the establishment of the field as a unique discipline He offers the most comprehensive perspective yet on how science came to be possible in our species and on the important role of psychological forces in an individual's development of scientific interest talent and creativity Without a psychological perspective Feist argues we cannot fully understand the development of scientific thinking or scientific genius The author explores the major subdisciplines within psychology as well as allied areas including biological neuroscience and developmental cognitive personality and social psychology to show how each sheds light on how scientific thinking interest and talent arise He assesses which elements of scientific thinking have their origin in evolved mental mechanisms and considers how humans may have developed the highly sophisticated scientific fields we know today In his fascinating and authoritative book Feist deals thoughtfully with the mysteries of the human mind and convincingly argues

that the creation of the psychology of science as a distinct discipline is essential to deeper understanding of human thought processes

God's Prescription for Mental Health and Religion E. Rae Harcum, 2010-07-15 The central proposition of God's Prescription for Mental Health and Religion is that the highway to mental health of individuals and of society is God's prescription of selfless devotion and service to others Mental health does not refer to the absence of mental disturbance but rather to feelings of happiness and well being This message represents an integration of psychological and religious thinking both of which say that personal peace and happiness come to those who devote their lives to serving others instead of those who focus their lives on a search for personal pleasure This proposition is supported by rigorous psychological research showing that people who believe in a loving and supportive God do in fact enjoy better mental health This thesis is also supported by the insightful advice of many experts and commentators on social problems and by specific quotations from the Bible So smile if you truly believe your religion
