Framing Intellectual Property Law in the 21st Century

Rochelle Cooper Dreyfuss, Elizabeth Siew-Kuan Ng, 2018-10-18 As knowledge production has become a more salient part of the economy intellectual property laws have expanded From a backwater of specialists in patent copyright and trademark law intellectual property has become linked to trade through successive international agreements and appreciated as key to both economic and cultural development Furthermore law has begun to engage the interest of economists political theorists and human rights advocates However because each discipline sees intellectual property in its own way legal scholarship and practice have diverged and the debate over intellectual property law has become fragmented This book is aimed at bringing this diverse scholarship and practice together It examines intellectual property through successive lenses incentive theory trade development culture and human rights and ends with a discussion of whether and how these fragmented views can be reconciled and integrated Divergences of Property Law Ulrich Drobnig, Henricus Joseph Snijders, Eric-Jan Zippro, 2006 This work is inspired by the comparative study published in The Interaction of Contract Law and Tort and Property Law in Europe ISBN 3 935808 20 8 Cloth 79 00 2004 Out of a transnational comparative and EU oriented perspective the essays included discuss whether divergences of property law on contractual security rights in movables constitute an obstacle to the internal market and if so what solutions could be offered Unification or harmonization of private international law cannot offer an adequate solution while unification of domestic security laws could However the latter will take a very long time partly due to the specific nature of property law The contributing authors advocate the development of a European Security Right in Movables ESRM in addition to the respective contemporary national security rights A real ESRM would clearly support free competition within the European Union However the development of an ESRM will take much time in particular when dealing with the relation between that ESRM and domestic security rights in the member states The reader will also find considerations on the contents of an ESRM and on the outlines of the required additional provisions 2025
