autobiographies The discussions center on differences in stories of achievement family love and embodiment Quotations from well known personalities such as Donald Trump and Martina Navratilova enrich the text The fourth fifth and sixth chapters involve issues of menopause with a focus group methodology a historical look at the male gaze as it is poised on the Naked Maja painting by Goya and how relationships function within imaginal conversations The two final chapters in the book are exemplars of a recent innovation in the field called performative psychology One monologue is about aging in contemporary society and the other is a feminist critique of aspects of postmodernism itself The book draws from the central tenets of postmodern inquiry as played out in the positive framework of social constructionism Emphasized are reflexivity the social basis of reality making the breakdown of traditional narrative forms the loss of objectivity as a scientific standard and the possibilities for new forms of doing research In this respect the book is unique and serves to provide a point of view on an intriguing movement that is gaining momentum across the social sciences and humanities It is hoped that this book might serve as a catalyst for further innovative work in psychology This text encourages such moves by its own irreverence for traditions and its overt efforts to break down resistances to creativity in the field
