

Normal Human Variations

An argument for Autism, Aspergers and Personality Disorders - Disorders or Natural Human Brain and Gene Evolution?

A person wearing a white lab coat and a white face mask with two circular eye openings is looking down at a piece of electronic equipment. The person's hands are visible, and they appear to be interacting with the device. The background is blurred, suggesting a laboratory or clinical setting.

The Autistic Atheist Emily Cooper, 2024-09-11 Religion has been a fundamental aspect of human societies throughout history but is on the decline in the modern scientific era Simultaneously Autism rates are on the rise raising questions about whether this increase is due to improved diagnosis and recognition of the condition or if reflects an actual rise in prevalence We explore the complexities of Autism Spectrum Disorder ASD its potential causes and the implications it holds for the future of humanity and evolution Autism is a difference in intuitive thinking and understanding of the world The differences in thinking from the point of view of the general population are often seen as deficits Drawing on work from Ara Norenzayan this book explores the hypothesis that the deficits in theory of mind that Autistic people experience constrain their ability to believe in a God and accept religious claims This book is an exploration of the evolutionary psychology of religion and Autism What is the future of religion and its place in human evolution

On becoming more open to others in God: Asperger syndrome and the Enneagram Geoff Nutting, 2012-11 What we are and may become as persons Dr Nutting contends is precisely our relationships He challenges a long term mindset endemic in psychiatry and psychology namely the presumption to label deviations from statistical norms as pathology Key to recovery from psychiatric diagnosis trauma he argues is truly respectful human relationships Nutting himself was assigned Asperger's Syndrome A way of understanding personality in relationships is the Enneagram an analytic spiritual psychology model still controversial whilst growing in influence Here its power to elucidate the dynamics of difficult and healing relationships is tested against the author's seventy odd years life experience as child adult patient psychiatric chaplain and academic

Geeks, Genes, and the Evolution of Asperger Syndrome Dean Falk, Eve Penelope Schofield, 2018-03 In this unusual book an evolutionary anthropologist and her coauthor granddaughter who has Asperger syndrome examine the emergence and spread of Asperger syndrome and other forms of high functioning autism The authors speak to readers with autism parents teachers clinicians psychologists psychiatrists other health care providers autism researchers evolutionary biologists geneticists

paleoanthropologists and people who simply enjoy reading about science Using the latest findings regarding brain evolution and the neurological genetic and cognitive underpinnings of autistic individuals at the high end of the spectrum Falk theorizes that many characteristics associated with Asperger syndrome are by products of the evolution of advanced mental processing She explores the origins of autism whether it is currently evolving how it differs in males and females and whether it is a global phenomenon Additionally Eve Schofield who was diagnosed with Asperger syndrome as a child provides firsthand accounts of what it is like to grow up as an Aspie

American Masculinities in Contemporary Documentary Film Sara Martín, 2023-05-24 Most documentaries deal with men but what do they actually say about masculinity In this groundbreaking volume Sara Martín analyses more than forty 21st century documentaries to explore how they represent American men and masculinity From Jennifer Siebel Newsom's *The Mask You Live In* to Raoul Peck's *I Am Not Your Negro* this volume explores sixteen different faces of American masculinity the good man the activist the politician the whistleblower the criminal the sexual abuser the wrongly accused the dependent man the soldier the capitalist the adventurer the sportsman the architect the photographer the musician and the writer The collective portrait drawn by the documentaries discloses a firm critical stance against the contradictions inherent in patriarchy which makes American men promises of empowerment it cannot fulfill The filmmakers view of American masculinity emphasizes the vulnerability of disempowered men before the abuses of the patriarchal system run by hegemonic men and a loss of bearings about how to be a man after the impact of feminism accompanied nonetheless by a celebration of resilient masculinity and of the good American man Firmly positioning documentaries as an immensely flexible relevant tool to understand 21st century American men and masculinity their past present and future this book will interest students and scholars of film studies documentary film American cultural studies gender and masculinity

The Human Mind Robert Winston, 2014-07-30 It is the most complex and mysterious object in the universe Covered by a dull grey membrane it resembles a gigantic convoluted fungus Its inscrutability has captivated scientists philosophers and artists for centuries It is of course the human brain With the help of science we can now begin to understand the extraordinary complexity of the brain's circuits we can see which nerve cells generate electricity as we fall in love tell a lie or dream of a lottery win And inside the 100 billion cells of this rubbery network is something remarkable you In this entertaining and accessible book Robert Winston takes us deep into the workings of the human mind and shows how our emotions and personality are the result of genes and environment He explains how memories are formed and lost how the ever changing brain is responsible for toddler tantrums and teenage angst plus he reveals the truth behind extra sensory perception d j vu and out of body experiences He also tells us how to boost our intelligence how to tap into creative powers we never knew we had how to break old habits and keep our brain fit and active as we enter old age The human mind is all we have to help us to understand it Paradoxically it is possible that science may never quite explain everything about this extraordinary mechanism that makes each of us unique

Simulating Minds Alvin I. Goldman, 2006-07-06 People are minded creatures we have thoughts feelings and emotions More intriguingly we grasp our own mental states and conduct the business of ascribing them to ourselves and others without instruction in formal psychology How do we do this And what are the dimensions of our grasp of the mental realm In this book Alvin I Goldman explores these questions with the tools of philosophy developmental psychology social psychology and cognitive neuroscience He refines an approach called simulation theory which starts from the familiar idea that we understand others by putting ourselves in their mental shoes Can this intuitive idea be rendered precise in a philosophically respectable manner without allowing simulation to collapse into theorizing Given a suitable definition do empirical results support the notion that minds literally create or attempt to create surrogates of other peoples mental states in the process of mindreading Goldman amasses a surprising array of evidence from psychology and neuroscience that supports this hypothesis

Summary of Eva A. Mendes' Marriage and Lasting Relationships with Asperger's Syndrome (Autism Spectrum Disorder) Everest Media, 2022-06-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 When a neurodiverse marriage fails it can be several years before either partner realizes that ASD is at play The NS partner may begin looking for additional explanations for her husband s behavior and may begin to wonder why her partner doesn t love

her 2 Adults with ASD are often successful at work and may go their entire lives without feeling the need to seek a diagnosis Many psychiatrists provide medication during a 20 minute appointment but not counseling 3 The prevalence of ASD is on the rise It is mainly genetic but environmental causes cannot be completely ruled out Neurodiversity is the idea that neurological differences like autism and ADHD are the result of normal natural variation in the human genome 4 The autism spectrum is a neurological difference rather than a mental disorder It is not a disease that needs to be cured It is characterized by a set of traits or a behavioral profile with certain core features
