Nosso Lar A Spiritual Home:

Nosso Lar Francisco Cândido Xavier, André Luiz (Espírito), 2021-10-10 Nosso Lar is the name of the spirit colony that the spirit André Luiz introduces us to in the first book of his acclaimed series. In a compelling narrative the author tells of his impressions and discoveries about life in the spirit world acting as a sort of journalist who records his own experiences as they occur. André Luiz unveils to us an exciting world filled with life and activity and which is organized in an exemplary way. It is a place where discarnate spirits go through a recovery stage and a spiritual educational process supervised by high order spirits. Nosso Lar enables us to get a glimpse of the spirit world that awaits us after we leave our physical bodies.

The Soul of Matter Marlene Nobre, 2021-03-11 This book provides guidelines for evaluating the contribution of Spiritism to health. It is based on conferences presented in six European countries in October 2002 on the following themes: Principles of Spiritist Medicine and Bioethics, Perispirit, The Reincarnation Process and Human Cloning. This book emphasizes the integral being, Spirit matter, the complexity of subtle bodies, new concepts of health and illnesses, anamnesis and pathogenesis, and the integration of Spirituality into medical treatments, highlighting the healing power of faith and love. It answers serious questions about Human Cloning such as: is it acceptable to clone people or to produce human embryos and then use them as a source for various tissues? This book proposes a definitive union between Health and Spirituality in response to man's aspirations and scientific pursuits. What is the contribution of Spiritism to Medicine? Should people be cloned? Should human embryos be produced? This book answers these questions and many others, presenting topics such as Principles of Spiritist Medicine and Bioethics, Human Cloning, Constitution of the Perispirit. With them emerges an integral view of the Human Being, Spirit matter. In pathological cases it relates biological, social and psychological factors but above all the spiritual ones. In processes of cure it mobilizes all available resources as well as those which are linked to the soul and its essence: faith, prayer and love.

Kardec's Spiritism Emma Inc. Bragdon, 2012-11 Especially of interest to those involved with healing and healthcare. The first book to describe contemporary spiritual healing centers in Brazil, including a psychiatric hospital where spiritual healers collaborate with conventionally trained healthcare professionals. There are more than 12,000 of these centers in Brazil. 20-40 million Brazilians use this resource for spiritual growth, healing and to maintain wellness. These centers welcome people of all religions and cultures, offering effective forms of healing as a free service. The introduction to the philosophy of Spiritism is presented in a clear, easy-to-understand manner. The description of the methods for healing used over more than 150 years demonstrate that Brazil has developed an effective model of integrative health care. The author spent half of each year 2001-2012 in Brazil studying these centers and hospitals. She is a psychologist, teacher, prolific author and pioneer in the area of healing and spiritual awakening. She suggests that importing components of Brazil's Spiritist Centers could help us improve our ailing healthcare system.
