This collection explores some of the challenges and possible solutions from the perspectives of various countries regarding promoting transcultural health and social care including Ireland, Turkey, Strasbourg, the Philippines, the Netherlands, Sweden, and Australia. As outlined in the papers, the provision of transculturally competent care is challenging and requires knowledgeable, skilled, and culturally sensitive health and social care professionals. The delivery of culturally competent care requires a commitment from health and social care services professionals working within these services and institutes of education responsible for educating healthcare professionals to understand and be responsive to the needs of culturally diverse patients.
