

Senior research scientist with the Wisconsin Center for Education Research and the National Institute for Science Education. Webb is a mathematics educator and evaluator who leads the Institute's work on strategies for evaluating systemic reform and rethinking how we evaluate mathematics and science education, while focusing on the NSF's Systemic Initiatives reform movement. His own research has focused on assessment of students' knowledge of mathematics. Webb also directs evaluations of curriculum and professional development projects.

Summarization in Any Subject Rick Wormeli, Dedra Stafford, 2018-12-12 Summarization Just when we thought we knew everything about it the doors to divergent thinking open and summarization no longer something that students must endure until you get to the cool stuff takes on an exciting new role in student success In this second edition of Summarization in Any Subject Dedra Stafford joins Rick Wormeli in adding fresh depth and creative variations to the basics

including changes to all 50 techniques from the first edition and brand new summarizing techniques that can be differentiated for multiple disciplines and levels of student readiness. Personally written with a sense of humor and a commitment to students' substantive engagement with curriculum, this new edition provides practical show me what it looks like tools and descriptions as well as QR codes and tech integrations for many of the techniques. The book provides a clear rationale for summarization in any subject along with an explanation of the cognitive science that powers its positive effects including the influence of background knowledge and primacy/recency plus the benefits of metaphors, chunking, timing, maintaining objectivity, and the efficacy that comes when students process content. Practical tips for teaching students note taking, paraphrasing, and text structure. Nine easy strategies that teachers can use to help students begin to understand what they need to know in order to summarize. Detailed descriptions of 60 strategies and critical thinking variations that provide students with memorable learning experiences plus targeted support materials that assist in teaching and learning. It's time to revitalize learning and shatter the tedium associated with summarization, and this new edition of *Summarization in Any Subject* can help you do just that. [Tune Up Your Teaching & Turn On Student Learning](#) Joann Jurchan, Chuck Downing, 2014-06-01. Two teaching experts offer methods for maximizing student comprehension in all areas of education with extensive research and practical examples. All teachers want their students to think, learn, and understand. In this helpful guide, veteran educators Dr. JoAnn Jurchan and Dr. Chuck Downing examine what successful teachers are doing and not doing to achieve those goals. Often without realizing it, many teachers provide students ways to complete their assignments with minimal effort or comprehension. The problem is how to avoid the TMI trap because Too Much Information can stifle critical thinking. *Tune Up Your Teaching* provides clear and detailed methods teachers can use to raise the level of both thinking and learning in their classrooms. Written in a conversational style, Jurchan and Downing use concrete examples in all core areas of education. To clarify critical points, the authors include He Said/She Said dialogues providing insight into their thought process. Neither a cookbook nor a one-size-fits-all solution, *Tune Up Your Teaching* instead describes a research-based process that can be personally tailored by any teacher to her or his situation. [Taking Action ; Second Edition](#) Mike Mattos, Austin Buffum, Janet Malone, Luis F. Cruz, Nicole Dimich, Sarah Schuhl, 2024-08-27. The second edition of the bestseller *Taking Action* delves deeper into how educators can leverage the PLC at Work process to create a highly effective multitiered system of supports. This step-by-step guide defines tier-by-tier the essential actions of the guiding coalition, teacher teams, and intervention team. New recommendations and tools are included to target assessments, engage students, and address resistance. Use this book to close the achievement gaps exacerbated by the impact of the COVID-19 pandemic. Leverage proven Tier 1 instructional practices to provide first-best teaching and engage students in learning. Understand the critical roles and responsibilities of the guiding coalition, teacher teams, and site intervention team. Create schoolwide balanced assessment and grading practices that promote student learning and engagement. Employ crucial skills and tools to address

common leadership obstacles such as staff resistance to change Contents Introduction The Urgency of the Moment Chapter 1 The RTI at Work Pyramid Part One Tier 1 Essential Actions Chapter 2 A Culture of Collective Responsibility Chapter 3 Tier 1 Teacher Team Essential Actions Chapter 4 Tier 1 Guiding Coalition Essential Actions Part Two Tier 2 Essential Actions Chapter 5 Tier 2 Teacher Team Essential Actions Chapter 6 Tier 2 Guiding Coalition Essential Actions Part Three Tier 3 Essential Actions Chapter 7 Tier 3 Guiding Coalition Essential Actions Chapter 8 Tier 3 Intervention Team Essential Actions Epilogue Get Started Then Get Better References and Resources Index

The Internal Coherence Framework Michelle L. Forman, Elizabeth Leisy Stosich, Candice Bocala, 2021-02-17 The Internal Coherence Framework presents a system of research based practices for assessing and developing the conditions that support adult and student learning in schools Internal coherence is defined as the ability of educators in a school or system to connect and align resources to carry out an improvement strategy engage in collective learning and use that learning to provide students with richer educational opportunities The internal coherence framework featured in the book brings together three important domains of research leadership for learning organizational improvement and instructional efficacy School or system leaders who progress through this book with colleagues will develop a shared vision for ambitious teaching and learning anchored in the instructional core organize the work of the leadership and teacher teams to advance this vision and build psychologically safe team school and system cultures to support the risk taking and constructive challenges necessary to move schools or systems to the next level of performance At the heart of the book is a survey and rubric that can help schools better understand their strengths and weaknesses and the kinds of resources they need to support student learning The book blends theory and practice to bring tested wisdom to bear on critical issues of education leadership and professional learning

Open Middle Math Robert Kaplinsky, 2023-10-10 This book is an amazing resource for teachers who are struggling to help students develop both procedural fluency and conceptual understanding Dr Margaret Peg Smith co author of 5 Practices for Orchestrating Productive Mathematical Discussions Robert Kaplinsky the co creator of Open Middle math problems brings his new class of tasks designed to stimulate deeper thinking and lively discussion among middle and high school students in Open Middle Math Problems That Unlock Student Thinking Grades 6-12 The problems are characterized by a closed beginning meaning all students start with the same initial problem and a closed end meaning there is only one correct or optimal answer The key is that the middle is open in the sense that there are multiple ways to approach and ultimately solve the problem These tasks have proven enormously popular with teachers looking to assess and deepen student understanding build student stamina and energize their classrooms Professional Learning Resource for Teachers Open Middle Math is an indispensable resource for educators interested in teaching student centered mathematics in middle and high schools consistent with the national and state standards Sample Problems at Each Grade The book demonstrates the Open Middle concept with sample problems ranging from dividing fractions at 6th grade to algebra trigonometry and calculus Teaching Tips for Student Centered Math

Classrooms Kaplinsky shares guidance on choosing problems designing your own math problems and teaching for multiple purposes including formative assessment identifying misconceptions procedural fluency and conceptual understanding Adaptable and Accessible Math The tasks can be solved using various strategies at different levels of sophistication which means all students can access the problems and participate in the conversation Open Middle Math will help math teachers transform the 6th 12th grade classroom into an environment focused on problem solving student dialogue and critical thinking

Differentiated Instruction Deborah Blaz, 2016-02-19 In this new edition of a bestseller author Deborah Blaz helps you differentiate lessons for your world language students based on their learning styles interests prior knowledge and comfort zones This practical book uses brain based teaching strategies to help students of all ability levels thrive in a rigorous differentiated learning environment Each chapter provides classroom tested activities and tiered lesson plans to help you teach vocabulary speaking listening reading and writing in world language classes in ways that are interactive engaging and effective for all learners Features new to this edition include Sample thematic units to make your lessons more authentic and immersive New strategies for using technology to differentiate world language instruction Additional checklists rubrics and feedback forms to help you organize your lesson plans and track students progress New connections to the Common Core State Standards the ACTFL Standards Webb's Depth of Knowledge and Bloom's Taxonomy You'll also learn how to differentiate assessment effectively to help all students show their full potential Classroom ready tools and templates can be downloaded as free eResources from our website www.routledge.com 9781138906181 for immediate use

Handbook on Comparative and International Studies in Education Donald K. Sharpes, 2016-11-01 This Handbook is a comprehensive reference book for libraries scholars and comparative and international studies researchers It contains 33 chapters on all major educational topics including research using all qualitative and quantitative methodologies with research from 23 countries and all inhabited continents Here you as a scholar will find research from countries not usually known for published educational schooling topics The globalization of educational research has not typically kept pace with the globalization of economies or communication technologies This Handbook includes expanded research capabilities from both developed and less developed countries throughout the world
